MRS. HAMILTON, the widow of Alexander Hamilton, on a visit to New York City, some time before her death, was arrayed, as usual, in her widow's weeds of the deepest cast, and those not of the newest or most fashionable pattern. She attended church, and was shown into a pew which was empty. But unexpectedly to the sexton, soon after the owner and his family came in. Mrs. Hamilton looked like an aged widow, and one who had known poverty as well as bereavement. Advancing to his pew and holding open the door, the manner of which indicated to her quick eye that she was an unwelcome occupant of the pew. She arose and left it. In a moment a dozen pew doors flew open; gentlemen of the highest rank sprang into the aisle, showing a general rivalry to obtain the honor of her presence in their pews; and the astonished gentleman from whose pew Mrs. H. had been removed, learned her name and position, and also learned that appearances are often deceitful.

NAPOLEON III.—The English papers are almost entirely taken up with accounts of the visit of Napoleon and his wife to the Queen of England. The illustrated journals furnish engravings of the most noted scenes attending the visit. On Monday the 16th of April, the Emperor and Empress arrived at Dover; they journeyed thence to Windsor; remained the guests of the British sovereign five days; met with a distinguished reception from the Court, and extraordinary enthusiastic greeting from the crowd; were almost overwhelmed by congratulatory addresses from corporations and institutions, and returned to France amidst a tempest of hurrahs! They arrived back at Paris on Sunday evening, 22d.

ATTEMPT TO STARVE CHILDREN. — Andrew Hopkins and his wife, residing in Covington, Ky., were arrested on Friday last, charged with an attempt to destroy three children—a babe, and two little girls aged three and six years. They were the children of Hopkins by his first wife. Shortly after their mother's death, Hopkins married the present wife; and she immediately planned a scheme to destroy the children by the slow process of starvation. The suspicions of the neighbors were aroused, and on investigation the children were found in a back room, emaciated and nearly dead. Both the feet of the eldest were badly frostbitten, and mortification setting in, it was found necessary to amputate all the toes of one of them. Hopkins and his wife are both Irish. They were both held to answer at the next Court.

Every man owes it to society to become rich, for the poor man's advice is never heeded, let it be ever so valuable. The more wise one may be, the more he owes it to his country to become wealthy. Every addition made to a man's fortune, adds ten per cent. to his influence. Let a man throw a doubloon on the counter, and every one will want to hear it ring. Throw a cent down, however, and its voice would prove no more attractive than a poor relation's.

THURSDAY, MAY 10, 1855.

METHODIST CONFERENCE.

The New Hampshire Conference of the Methodist Episcopal Church, was held in Claremont, from the 2d to the 8th of May. We are indebted to T. L. Tullock, Esq., for a copy of the Claremont Advocate, from which we extract such portions of the report as are of local interest here.

The Conference was fully attended, and the proceedings highly gratifying to the brethren. One hundred ministers were present, and the sessions were unusually interesting and harmonious. Three members of the Conference have died during the year—Messrs. Perkins, Tapley, and Andrews. Eight members were ordained as Deacons of the church. The first N. H. Conference held its session in Vermont, twenty-five years ago.

Delegates Elected to the General Conference.—R. S. Rust, Warren F. Evans, Newell Culver, James Thurston, C. N. Culver. Reserves—Lewis Howard, Silas Green.

THE CARPENTERS' STRIKE continues at Newburyport, without much prospect of abatement. The Herald states that Mr. Moses Currier, a sub-contractor in the yard of Currier & Townsend, on Tuesday, put a gang of hands to work, giving them the wages demanded, and the old privilege of "chips."—This was not satisfactory to the workmen generally, who wish to hold out till all the builders come to terms; and in consequence of this opposition, which was so shown as to render the labor disagreeable, the hands left in a few hours, and new all work is suspended again.

☞ The Newburyport Herald states that Rev. Mr. Eells preaches his last sermon at the Harris St. Presbyterian church, next Sunday. He then goes to Pennsylvania. In his pulpit performances Mr. Eells has displayed the highest order of talent, and he leaves with the respect of the whole community.—All admire his strict adherence to his creed, whether they believe in that creed or not.—The society will obtain for a temporary supply the best preachers to be had.

THE HISS COMMITTEE, in the Massachusetts Legislature, have reported over the well known facts in the case, with the following conclusion.

We consider his conduct upon the committee at Lowell, highly improper and disgraceful, both to himself and this body, of which he is a member, and we deem it such as to render him unworthy longer to occupy a seat upon the floor of this House.

FARMS CHEAP IN ILLINOIS.—We are requested to draw attention to the advertisement (on the fourth page of this paper) of farm lands in the "garden State," for sale by the Illinois Central Railroad. Congress and the Illinois Legislature have given the Railroad the power to dispose of two and a half millions of acres—which is offered to active settlers at from $5 to $25 per acre, with easy terms of payment.

A NEW BUSINESS.—The schooner Triumph sailed from Newburyport on Sunday, bound to the shores of Labrador, for obtaining wild birds eggs. The birds congregate there, early in the season, in great numbers; and a profitable business is often made in collecting eggs and feathers.

FIRE AND LOSS OF LIFE.—A fire occurred in the north part of Belchertown, Friday evening, April 27, on the road to Amherst, Mass. about three miles from the college. A house belonging to Mr. Thayer was destroyed, with most of its contents. It was occupied by Mr. Pettingill, whose wife, in her eagerness to save the goods, rushed up into one of the chambers, where she was surrounded by the flames and consumed. Her remains were only a black undistinguishable mass of human flesh, about two feet in length. The probable cause of the fire was hot ashes put into a wooden vessel, which was set in the woodshed.

LOCAL.

PORTS. & CONCORD RAILROAD.

The Annual Meeting was held at the Temple, in this city, on Wednesday, A. W. Haven, President, in the chair.

Brackett Hutchings was unanimously re-elected Proprietors' Clerk.

The Report of the Directors was read, in connection with the Treasurer's Account.

Mr. Charles Robinson, one of the stockholders, put a variety of questions to the directors, which were answered by Messrs. Emery, Haven, and Tullock. On motion, the Report was accepted and ordered to be printed.

Mr. Robinson moved to appoint an Agent to manage the business of the road,—and offered remarks designed to support his motion. Dr. Batchelder and others replied,—and the motion was negatived.

The following Directors were then re-elected: Alfred W. Haven, Portsmouth; Joshua W. Peirce, Greenland; Arthur Fletcher, Concord; Nathaniel Batchelder, Epping; William Plumer, Lexington, Mass.; Nathaniel White, Concord; Horton D. Walker, Portsmouth.

And the meeting was dissolved.

For the Chronicle.

BEAUTY AND UTILITY.

Messrs. Editors:—I saw it stated in your paper, a few days since, that a petition was in circulation for signatures, calling a meeting to discuss the question of erecting new buildings. I hope, if the meeting is called, that every individual who has written on the subject, in the Chronicle, will attend, and engage in the bandying of words which will probably take place. Should they do so, the meeting will be very large, rich, rare and racy.

The plan of having both School and Court House on the same lot, is a bad one. If it is very desirable to have the School House on the spot now occupied by the Court House, the city could easily alter the room used for the courts into a convenient and beautiful school room, and find accommodations elsewhere for the courts. Wherever the School House is located, the lot should be large.—Trees, shrubbery, and flowers should be cultivated on the school ground, a la Hanover Street Chapel, and the city would then have one place where a poor person could go, on the Sabbath, or other leisure day, and admire the lovely flowers, which they now seldom have an opportunity of seeing. If the present city government wish to have future generations rise up and call them blessed, they have only to make a second garden of Eden around the young ladies High School House.

U. G. RAILROAD.—Our branch of the Underground Railroad line is coming up. A party of six fugitive slaves, consisting of a husband, wife, and four children, arrived here from southward on Saturday evening, when some of the directors, despite the pains and penalties of the fugitive slave act, gave them shelter and protection during the Sabbath, and yesterday morning saw them safely on their way to Queen Victoria's dominions.—Did any one feel the Union shake?—*Ballot.*

We happened to take passage in the same train of cars with the above mentioned people, and can assure our readers that they were a good respectable looking family. We did not think it best to mention the circumstance before the fugitives were in a place of safety, lest some evil disposed person should cause them unnecessary trouble.

☞ In the U. S. Circuit Court, on Wednesday, the case U. S. v. Cutter and als. was continued,—and the Court adjourned.

A SLAVE TRADE IN A SMALL WAY. It is reported that certain whalemen of New Bedford—which is a distinguished abolition city—have been in the habit, during their voyages, of touching at negro settlements and impressing into their service numbers of the natives, whom they compel to do the drudgery of shipboard until a cargo is made up. Having made ready for home, the unfortunate blacks are cast ashore anywhere and anyhow, penniless often, and without the means of subsistence. The matter is to be inquired into.—*Boston Courier.*

We hope so, and sifted to the bottom. If any people of that "distinguished abolition city" have stolen "the livery of heaven to serve the devil in," we hope to see it stripped off as soon as possible.

NEW ENGLAND
EMBROIDERY STORE.

ISAAC HAHN

RESPECTFULLY begs leave to return his thanks to his friends and customers in Portsmouth and vicinity for the kind patronage bestowed upon him, and likewise takes this method to inform them that he has just received a great **LOT OF LACES AND EMBROIDERIES,** some of which will be named below.

Lace Collars from 6 cents to $6;

THE VEGETABLE PULMONARY BALSAM has become the *most popular* medicine ever put forth, for the cure of *Coughs, Colds and Consumption.* That it is worthy of its high reputation is made sufficiently evident by the *immensity* of its annual sales.—Messrs. Reed, Cutler & Co. are above quackery, depending alone upon the intrinsic virtues of their medicinal preparations for their disposal.—Humbug is so plentiful that it gives us real pleasure to offer this trifling and *gratuitous* tribute of our recommendation to a Medicine we know to be of *real merit.*—*Vermont Burlington Sentinel.*

Would you have Health?

USE LAWRENCE'S VEGETABLE PHYSical Jaundice BITTERS; and Cure your Cough with his PECTORAL. s12 tf

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, allcaved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

New York, May 8th.—At the Anniversary of the American and Foreign Bible Society it was reported that the embarrassment of the times had both hindered the sales of the scriptures and lessened the contributions, which are some $5,000 short of last year. On other accounts the receipts were larger than any former year, with the exception of the last.

The American and Foreign Union make a somewhat similar report in a financial view, the receipts only amounting to $63,867, and $60,491 for expenditure—a falling off from the last year. The object of the society is the diffusion of Protestantism; they therefore see with pleasure the crusade now going on in this country against the Catholics, and the disposition evidenced in some states to inquire into the Monastic Institutions by the Legislature. The report rebukes the Mass. investigatting committee for declaring it absurd to visit schools. Resolutions against encroachments of the Roman Catholic church were adopted.

A large and enthusiastic meeting was held at the Metropolitan Theatre this evening, some 5,000 persons being present. The Rev. Henry Ward Beecher presided, and introduced the Hon. Henry Wilson to the audience, who spoke for two hours, discussing the slavery question.

The woods on the promontory, known as Anthony's Nose, on the Hudson River, were on fire yesterday, and had been burning since Sunday.

Snow fell briskly at Detroit last evening, for several hours.

Rochester, N. Y. May 8th.—The Powder Mills, situated about five miles from this city, exploded at six o'clock this evening, killing five men. The shocks, three in number, were distinctly felt here. This is the forth time those mills have been blown up in five years. The property was owned by Messrs. J. Conolly & Co.

Detroit, May 8th.—*Important from Kansas.*—Advices from Fort Levenworth, Kansas, apprise us of the murder at that place of Malcomb Clark, by a lawyer named M'Crea, on account of an election difficulty. After having fired the fatal shot M'Crea jumped into the river and attempted to escape by swimming, but was overtaken and conveyed to the U. S. guard house.

Handbills have been circulated, calling on the citizens to avenge Malcomb's blood, and it was rumored that M'Crea had been lynched and his house destroyed by fire.

Liquor Sellers organized against the Prohibitory Law.—We are informed that an extended organization of all classes of liquor sellers and importers, in Boston, has been effected, and a heavy assesment levied, in order to defend members of the body from the consequences of legal prosecutions under the prohibitory law which comes into operation on the 20th day of the present month.—*Boston Telegraph.*

Rains.—Throughout Georgia, South Carolina, and Alabama, after the long protracted drought, copious rains have.

The fare between Boston and New Bedford has been reduced to one dollar by both lines.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot find any person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin*, *cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing* the *thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser,

It has no equal. The experience of thousands, and its constant manufacture since 1848, fully prove all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.

Purchase a Bottle of

PRESTON'S CATHOLICON,

And if you are not satisfied with its effects, call upon the Agent and receive your money again.

Manufactured and sold by WM. R. PRESTON, Druggist, Portsmouth, N. H., to whom orders for Agencies may be addressed. a26 3wzb.

GLORIOUS NEWS.

Glad Tidings for those Afflicted with Rheumatism.

Are you Suffering with Rheumatism?

IF SO, call at WM. R. PRESTON'S Medicine Store, purchase a bottle of the INDIAN RHEUMATIC PANACEA & LINIMENT, use it according to the directions, and you will assuredly find immediate relief. This is no exaggeration—it has been fully tested by responsible individuals in this city, who have been severely afflicted and they have been thoroughly cured.

Sold only by W. R. PRESTON, Druggist, Congress Block, Proprietor and inventor of that celebrated Medicine for Jaundice and Liver Complaint— a26 PRESTON'S CATHOLICON. 1mjcn

Take this along with you.—'Tis just what you want.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. A. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

SALE OF FEMALE CELESTIALS.—From the California Times and Transcript we learn that the notorious Ah Toy, who has been the keeper of a house ill-fame in San Francisco for the last three years, has lately left for China.—She brought to this country a few years ago, on her return from a visit, 15 or 20 women, whom she had had purchased at $40 each.—She has from time to time sold out her stock at the rate of $1000 to $5000 each, to Chinese merchants and gamblers. On leaving for China, She disposed of the lot remaining at $800 each. The Times and Transcript understand from Mr. Carvalho, the Chinese interpreter, that these women dare not resist in these transactions, so much are they in dread of their tyrannical countrymen.

BURNING FLUIDS.—The Cleveland Herald declares that it is part of its mission, to exterminate the entire list of burning fluids.—There is not the least approximation to safety so long as they are tolerated among our household goods. The gas escaping from one tube in a lamp may ignite from the burning wick of the other tube in the same lamp; an ignorant servant may kindle the morning fire by the aid of the fluid can; a baby may pull the table-spread and bring a fiery furnace into its lap—all with the most fatal results. The last accident from this treacherous stuff is that of a young lady, who having cleaned a pair of gloves with camphene, held them to the stove to dry, when ignition took place, the flames communicated to her dress, and she ran into the street in a winding-sheet of fire.

Notice to Builders and Joiners.

THE attention of JOINERS and all engaged or interested in building is solicited to the fact that many of our finest buildings are defaced and their general appearance materially altered from the original design of the architect, by the miserably constructed, ill-contrived, and narrow contracted leaden goose-necks, or what is still worse, a skewangle continuation of the upright conductor with which the cornice is adorned—all of which may be remedied by application to

J. E. CHAPMAN,
PRACTICAL TIN PLATE WORKER,

who will give his personal attention to the adjustment of all such defects. Specimens of Ornamental Goose-necks and Conductor Caps, on the most approved plan of modern architecture may be seen at his Tin Ware Factory, where he manufactures to order

CONDUCTORS, GOOSE-NECKS & GUITERS

of all sizes, in the most thorough and substantial manner. All orders left with him will receive immediate attention.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with all of the durability of Steel Pens: and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need trimming, also for Banks and Schools, as they will not matter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

A VISION WITHOUT GAS-LIGHT.—Uncle Toby has revealed several of his visions seen by gas-light; we have one of similar character to chronicle—in which kindred *spirits* no doubt took prominent part. At high noon a great shout arose in front of our office; and looking out we beheld a man on whose head the frosts of time were beginning to leave their silver marks. He was in close charge of Officer Smiley—and appearances strongly indicated that too much "smiling" had brought him to this guardianship. He essayed to turn back, and was brought up with so much force as to make it apppear for the instant that his head fell off—but no, it was only his cap.—We saw and heard him no more.

Passing homeward by the brick market, late in the evening of that day, we heard—as the almanac said "moon," the gas was not lighted, and we couldn't *see* a thing—so we *heard*, and from the vicinity of the lock-up came sounds as of a woman and child walking to and fro, and talking. With a friend who was passing, we investigated. As we approached the bridewell, a woman (whom we afterwards found to be young and comely) asked us, with the brogue of the emerald isle, if she could go in and see her father, and give him some tea and cakes she had brought him. A watchman came just then, and we all passed in. The officer thought the man had already had too much "cold tea"—but readily granted her request. All the cells but one were open; and the woman having entered them, and called "father" loudly through the locked door, without finding anybody or getting an answer, concluded in joy that "he must have gone!" The watchman thought he couldn't be sober enough for that yet; and soon found the victim of his own passions and somebody's else cupidity, rather sound asleep, under lock and key. In reply to an inquiry, the lady stated that her father "jist got on a bit of a drunk, and was dragged through the streets like a dog." Leaving her lunch with the watchman till her father should wake, she said her husband would expect her, and went home. We also left, concluding that one experiment like poor Pat's *should* be convincing to opponents of the Maine law—certainly to those directly concerned, like that father and daughter. F.

GOOD ORDER.—A lady correspondent of the N. Y. Spirit of the Times, speaking of the late race at New Orleans, between Lexington and Lecompte,—which drew together an immense crowd, says:

One thing I would observe, before I close; that is, the beautiful order that is preserved on the course. I was most agreeably surprised. Among the thousands who were assembled, of all classes, not a single brawl nor quarrel, not even an unpleasant word or accent was heard. Where, in any other part of the Union, can they say as much! And this is New Orleans—the city that is spoken of at the North with such severity, on account of the impulsive rudeness of its male inhabitants! I have found it exactly the reverse.

HARD QUESTIONS.—The Allies and the Russians recently allowed each other an armistice to bury their dead. The officers and soldiers of the respective combatants mingled with each other, smoked cigars and cracked jokes, the Russians spitefully asking when the Allies intended to take Sebastopol, and what time they expected to leave. As soon as the armistice was over the parties went to work again cannonading each other fiercely.

The absurdity of position would be ludicrous, were it not that these men were sent thither to play real tragedy, and bloody farce.

Morning Chronicle.

FRIDAY, MAY 11, 1855.

JURIES AND LAW.

From much of the current talk in the Courts and the newspapers, it might be inferred that it is a new thing for a Jury to sit on the Law, as well as the Fact. This, however, does not appear to be the case in Massachusetts.

In the Boston Chronicle of Wednesday, May 9, there is a good report of Gov. Gardner's Speech before the State Temperance Convention on the 8th.

Towards the close of his speech, which was in favor of moral suasion, backed by the new liquor law,—a person among the audience inquired of His Excellency if the law recently passed making the jury the judges of both law and fact, would not have the effect to neutralize the temperance law.

The Governor stated that he would reply with much pleasure. The law referred to had been in force in this State ever after the year 1809, having been placed upon the statute books by a Legislature which numbered among its members some of the greatest legal talent the State ever possessed. When the Revised Statutes were compiled, in 1836, this law relating to juries was omitted, for what reason he could not say; but it was omitted, and has remained inoperative since 1836 to the present time. The reviving of its principle was, therefore, introducing nothing new, but merely re-enacting a law which, to his mind, was founded in justice and right.

From this it appears that there was some *trick* or sham in omitting this law.

We should not be any more afraid of its operation on any law, than of the opposing principle, by which the bench lays down the law so as to tie down the jury.

SWEARING.

"Our army swore terribly in Flanders."

Much howling has been heard lately, about the dreadful oaths of the Know Nothings; and some newspaper, the other day, professed to be horror-stricken, because the Know Nothing Legislature of Massachusetts had undertaken to repeal a silly statute of hers against extra-judicial oaths. Now we give our readers a small specimen of political swearing, extracted from the Richmond Enquirer, *the* great organ of the Democratic party in Virginia. Speaking of the coming election, the Enquirer says:

"We have never been deceived in our calculations; we have never exaggerated our own strength. We know we shall triumph; and we await the day of election, with the composure and dignity of perfect confidence. * * * Never was the Democratic party in Virginia inspired with such zeal, or animated by such devotion to duty. There is neither lukewarmness, nor fear, nor treachery, in our ranks. We are intent on victory; and, so help us God, we *will* triumph!"

That is, the Enquirer *swears* to the victory yet to be won; and, as the oath is commonly expounded in court and pulpit, invokes God's curses on itself and its party, if it happens to lose the election!

This sort of oath is evidently extra-judicial, —not to say profane. Will not some of our very religious political papers please to rebuke our brother of the Enquirer, for his swearing? We would do it very gently, if we exchanged with him; and tell him he swears like a Hindoo.

PROSPECT IN MAINE.

The Eastern Argus, the organ of the Democratic party in Portland, speaks in the following hopeful strain, of the next election in Maine, of candidates who are to be nominated by a convention shortly to be holden.

Without midnight conclaves or secret oaths, with no principles that shun the light or shrink from discussion and scrutiny, without the vagaries of fanaticism, or the prejudices of bigotry, but bound together by unity of purpose and principle, and armed with the power of the right, the Democracy are preparing to scatter the patch work of fusionism to the winds, in the approaching election.—From every part of the State we receive the most cheering intelligence. Democrats are aroused and resolute; disappointment and distraction pervade the ranks of our opponents. Secrecy has lost its charm to Know Nothing dupes; and the despotism of the Order has not been made more attractive by familiarity with its iron decrees. It has been found much easier to promise to yield one's mental independence, than for a freeman actually to do it, and consequently the mastery of the man over his own actions, has maintained itself, even under promise of servile subjection to the behests of an oath-bound Order.

The discordant elements that were drawn together by the cohesive power of plunder, have fallen asunder, as the disposal of the spoils has destroyed the attraction. They will furnish an easy victory to the gallant, harmonious democracy of the State, if that democracy be but true to itself and to the high duty which this important crisis devolves upon it. That it will be true to its duty, and will redeem our State from the thraldom of bigotry, fanaticism and imbecility in which it is now involved, we think almost as certain as that the day of election shall arrive.

THE GOSPEL OF KNOW-NOTHINGISM.—Parson Brownlow, of the Knoxville Whig, publishes what he calls the abridged gospel of know nothingism, as follows:—"Foreigners and Roman Catholics may all ride in the chariot of American freedom. But the Americans must drive."

RUM REBELLION.

"Mercy on us! was there ever such a bloody minded fellow?"—Thus speaks a character in an old play. Something modern just now reminds us of him.

The Boston Times says:

"*We know that there is an organization of* SEVENTEEN HUNDRED MEN *in this city, pledged to resist the execution of this abominable and mischievous law.* They are men who are not likely to be dismayed at trifles, and if the conflict comes, humanity will shudder at the result.

We beseech the mayor, for the sake of the city, for the prevention of the shedding of blood, to pause ere he forcibly attempts to carry out the declarations of his manifesto."

Seventeen hundred patriots in Boston, ready to shed blood in defence of the jugs and tumblers, the drinking houses and tippling shops! The Newburyport Herald says:

"We have heard of 1700 to resist the execution of the Fugitive Slave law; and then the 1700 the Times speaks of, were law and order men, many of them in the military companies; and Sims and Burns they would deliver up because the law required it. Now it is the turn of the opposite party. They have changed sides. The law preservers before are the breakers now; and the breakers then are the advocates now. We are anxious to see how it will terminate. Mayor Smith was ready to put the city under martial law then, what will he do now to back up his proclamation? Shall we see chains around the court houses, and soldiers in State street?

No; we think not. The hired minions of tyranny would not come out to fight *against* the grog shops, but *for* them.

SLAVES ESCAPING TO CANADA.—Canadian newspapers occasionally notice the arrival there of fugitive slaves from the United States, but generally make wry faces, such as, in medical experience, are considered premonitory symptoms of ejectment.—*Eastern Argus.*

The Toronto Colonist says:—Large numbers of slaves continue to escape into Canada daily from the United States. One of the Detroit papers tell us that on the 15th inst., no less than eighteen of them crossed the river into Canada. We fear they are coming rather too fast for the good of the Province. People may talk about the horrors of slavery as much as they choose; but fugitive slaves are by no means a desirable class of immigrants for Canada, especially when they come in great numbers.

We can think of a parallel case. People may talk about the horrors of European tyranny as much as they please; but foreign paupers, criminals, creed bound priests and their blinded followers, are by no means a desirable class of emigrants for the United States, especially when they come in great numbers.

Still they come, in both cases. Oppression drives them, and supposed advantage draws them. They are human beings, of like passions with other men.

HISS: HISS!—The Massachusetts House of Representatives on Wednesday, took up the Report of the Investigating Committee recommending the expulsion of Mr. Hiss from the House. The report was accepted by a vote of 203 to 30.

A resolution was introduced by Mr. Stone of Boston, to the effect that Joseph Hiss "be and hereby is expelled from this House"; also a resolution that the Committee on the Pay Roll be instructed to make up the pay of Mr. Joseph Hiss to, and including the 9th of May inst.

Mr. Hiss then read a long and spicy protest against the proceedings, in which numerous innuendoes were thrown out that other members of the Legislature were not entirely guiltless of pecadilloes. No action was taken on the protest. At the request of Mr. Hiss that he might be heard, through his Counsel, before the whole House, the subject was postponed.

The House has donkeyized itself about this sorry Hiss. When he sent in his resignation, it should have been accepted instanter, and would have been, had the majority of the House been business men; they would have accepted it in a proper manner, and been clear of him.

The Portsmouth Morning Chronicle, a smart little daily, with fusion proclivities, notices our efforts to discover whether or not there is in fact any such political entity as the "Republican Party," and comes to the conclusion that there is such a thing *in esse*; but thinks it can't live a great while. Such also is our opinion.—*Augusta Age.*

The Age is vastly *smarter* as well as *larger* than we are, if it can tell correctly what a newspaper *thinks.* Certainly we did not *say*, that the Republican party in Maine "could not live a great while." We did say, that it was no exception to the temporary nature of *all parties*—and that it would not be *perpetual.* We also added that we *hoped* it would die next year, if it did not carry out certain principles. But all this does not imply any *thought* that it is to be very short lived. As yet, we see no signs of it.

SOAP FOR CALIFORNIA.—The Journal of Commerce, a few days since, noticed a contract sale of 30,000 boxes, 35 lbs. each, chemical olive soap, for the California market.—This makes 1,650,000 lbs., or about 3 lbs. each for every man, woman and child in the country.

RUM FOR THE CRIMEA.—The barque Volunteer, of Boston, has been chartered at Manzanzas, to carry 50 pipes and 1000 bbls of rum to Balaklava. It is confidently expected that this movement will infuse spirit into the allied army.

LOCAL.

CITY COUNCIL.

THURSDAY, May 10.

ALDERMEN.—*Voted*, That the liberty given Robert Gray and others to lay a drain in Cass street be revoked, as the subject was not properly understood by either party.

Voted to reconsider the resolution locating the High schools, and the matter was laid on the table.

Petition of Wm. Jones, to lay a drain—granted; of R. K. Oxford, for sidewalk—referred; of Charles Robinson and others for a more summary method of restraining cows from going at large—laid on the table.

The Chief Engineer reported that the hydrants at the corner of Vaughan street, and at the factory, had been tested and found deficient for the supply of water.

A communication was received from Mr. Scott, resigning his situation as Superintendent of the City Farm, to take effect on Tuesday next. Referred to a joint special committee. [The cause is said to be the inadequate pay; the salary is $400.]

The Police Justice presented his bill; balance due him $30.39.

COMMON COUNCIL.—The committee on bills on 2d reading reported against the ordinance presenting certain officers $100 each.—The ordinance was non-concurred in.

An ordinance was offered in amendment to ordinance No. 18, which provided for an increase of the salaries of the City Marshal, Street Commissioner and Superintendent of the Alms House. That part referring to the two former was adopted, and that referring to the latter was laid on the table, Mr. Scott's resignation having been announced.

OSSIAN'S BARDS.—The Manchester American says the company "is the best ever organized in New England, for talent, harmony and variety." The Concord Reporter says, "they gave the pleasantest entertainment ever given in this city; we never saw a happier or more completely satisfied audience." The Fitchburg Sentinel says, "they gave the best Quartette concert of the season." See advertisement.

TRUANTS.—In the Police Court on Thursday, Justice Parker sent three boys to the house of correction for fourteen days, for truancy from school.

☞ Theatrical performance at the Cameneum this evening, under direction of Yankee Scoville. Miss Lizzie Emmons appears in characters, dance, &c. See advertisement.

Harrison is coming!
Don't be frightened!

☞ Gov. Gardner, of Massachusetts, declines to remove Judge Loring, and has sent in his reasons for this course, to the Legislature.

OPENING RICH.—The hungry will learn with pleasure that at Milwaukie there are 70,000 barrels of flour, and 550,000 bushels of wheat, bound for the East, as soon as the Lake opens. The shipments of Milwaukie will double those of last year.

Lassitude and Want of Appetite entirely done away with by only One Bottle of

THE OXYGENATED BITTERS—Sold by J. H. THACHER, Apothecary, corner of State and Pleasant sts. m11

"Not bubbling fountains to the thirsty swain, Not balmy sleep to lab'rers faint with pain,—

GIVE half the "ease and comfort" that may be found in a Box of AYER'S PILLS, sold by *THACHER*, corner of State and Pleasant streets.

THE VEGETABLE PULMONARY BALSAM has become the *most popular* medicine ever put forth, for the cure of *Coughs, Colds and Consumption.* That it is worthy of its high reputation is made sufficiently evident by the *immensity* of its annual sales.—Messrs. Reed, Cutler & Co. are above quackery, depending alone upon the intrinsic virtues of their medicinal preparations for their disposal.—Humbug is so plentiful that it gives us real pleasure to offer this trifling and *gratuitous* tribute of our recommendation to a Medicine we know to be of *real merit.—Vermont Burlington Sentinel.*

[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m a2 d&w

Fresh Halibut.

FRESH HALIBUT just received by REUBEN RANDALL.

WASHINGTON, May 8th.—George P. Scanburgh, principal Professor of William & Mary College, has been appointed Judge of the Court of Claims, *vice* Lumpkin, declined.—The appointee has always eschewed politics.

A. Dudley Mann has resigned the Assistant Secretaryship of State; and Wm. Hunter, chief clerk, will officiate in his place.

There are no dissensions in the Cabinet. Neither Reeder's case nor the Kansas affair have been before that body.

WASHINGTON, May 9.—The Hon. Henry A. Wise arrived in this city last night, and was honored with a serenade by his friends. He adressed them for an hour, and was sarcastic and severe in the extreme on the new party. He said he firmly believed he should get 15 to 20,000 majority in the election for Governor of Virginia.

SHIPWRECK AND LOSS OF LIVES.—*New York May 7th.*—The Schooner John Clark, Capt. M'Kay, which has been reported missing, was lost on her passage from this port to Kingston, N. J., captain and four others perished on the wreck from starvation, and two men, the balance of the crew, were taken off the wreck and brought in this port, having had nothing to eat for eight days previous to being taken off.

NEW YORK, May 9th.—In the case of a man brought up for selling liquor without a license, the Recorder decided that there was at present no law under which he could be punished for selling liquor, except on Sundays. He was therefore discharged.

NEWFOUNDLAND.—Accounts from Newfoundland to the 1st inst. have been received at Halifax. The Halifax North American says: Passengers from Newfoundland report the Seal fishery an entire failure; but we cannot understand how this is, when we count in the papers from the 19th to the 28th of April, the arrival of eighty-nine vessels, with cargoes ranging from 500 to 3000 seals each.

BANGOR, May 9.—Marshal Weaver seized 1500 gallons of liquor to-day at an apothecary store.

The Chicago Daily Press, of April 18th, says:—"An intelligent friend who resides in one of the southern counties of Illinois, furnishes us some interesting items respecting the present scarcity of breadstuffs and feed for cattle and horses, also of the arrangements making for the present season's crops. Last year's crop of corn was largely deficient, not being sufficient for home consumption, and but for the fact that a portion of the crop for the previous year remained over, there would undoubtedly, have been much suffering. As it is, corn commands at the crib, in many places, $1 per bushel, hay $20 per ton, and other articles of breadstuffs and cattle-feed correspondingly high prices. In some districts quite a number of cattle and hogs have died from starvation, and as a general thing, stock is in a very poor condition. Preparations are being made for planting larger spring crops than common. A greater breadth than usual has been put down to oats within the last fortnight, and more will yet be put in. Plowing for corn has commenced, and extensive crops will be planted. Throughout the middle and western portion of the State, fall wheat is looking uncommonly well and, the breadth sowed is more than an average. The crop of Irish potatoes was a total failure last year, and some difficulty is anticipated in procuring a sufficiency for planting. The North, however, will be able to send forward enough by river and railroad, to supply this want."

Estate of George Raynes.

THE subscriber hereby gives public notice that he has been duly appointed Executor of the last will of GEORGE RAYNES, late of Portsmouth, ship builder, deceased. Any person having claims against said deceased, are requested to leave the same with MR. SAMUEL G. FOLSOM, at the Counting Room lately occupied by Mr. Raynes. W. H. Y. HACKETT, Ex'r.

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring
Blood Purifier and Appetiser,
It has no equal. The experience of thousands, and its constant manufacture since 1846, fully prove all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.
Purchase a Bottle of
PRESTON'S CATHOLICON,
And if you are not satisfied with its effects, call upon the Agent and receive your money again.
Manufactured and sold by WM. R. PRESTON, Druggist, Portsmouth, N. H., to whom orders for Agencies may be addressed. a26 3wsn.

Take this along with you.—'Tis just what you want.
The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,
AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
These Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they greatly, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

Notice to Builders and Joiners.

THE attention of JOINERS and all engaged or interested in building is solicited to the fact that many of our finest buildings are defaced and their general appearance materially altered from the original design of the architect, by the miserably constructed, ill-contrived, and narrow contracted modern goose necks, or what is still worse, a skewangle continuation of the upright conductor with which the cornice is adorned—all of which may be remedied by application to

J. E. CHAPMAN,
PRACTICAL TIN PLATE WORKER,

who will give his personal attention to the adjustment of all such defects. Specimens of Ornamental Goose-necks and Conductor Caps, on the most approved plan of modern architecture may be seen at his Tin Ware Factory, where he manufactures to order

Bounty Lands.

THE Subscriber is now prepared to prosecute with the utmost promptness all Claims for Bounty Land; and by the law of 1855, which gives ONE HUNDRED AND SIXTY ACRES to all the officers of the Army and Navy, Soldiers, both regulars and volunteers, Sailors, Marines, Flotilla Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who have served fourteen days in any of the Wars of the United States since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
75 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on application, prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all other papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. R. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. R. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Gold Pen; and at the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as the ink does not clog; also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

STAY WHERE YOU ARE.

In the West we have met with many persons possessed of a mania for clearing land. As long as their farms afford unlimited opportunities for chopping down huge trees and burning up huge logs, they work away with the ardor of passion; but the moment they have made their farms tillable and their home inhabitable, they take no further interest in them whatever, and are ready to sell out and plunge deeper into the woods to ply again the axe and the brand. Thus the country is cleared rapidly; but the blood of the people is fevered, and the passion for change continues after the good done by it has been accomplished.

The necessity for a rapid clearing of land has ceased. We have cleared faster than we have appropriated. The Eastern and Middle States present an expanse, almost unbroken, of half-cultivated lands, dotted with unattractive homes. A large number, probably a majority of those who occupy those homes, are at least, willing, if not desirous, to sell their farms and try their fortunes in a newer region. They know that the burden of life is hard to be borne where they are; they think it will be lighter somewhere else.—They forget that the life of no honest man is easy. They omit from their calculation all the unseen and spiritual advantages of a permanent residence. They overlook the fact that the real nutriment of a tree or a man flows in from the minute tendrils of the root, scarcely visible to the eye, which a removal rudely tears away.

They have neglected to make their homes charming by planting the ornamental shrub, the shading tree, the beautiful flower. They have not enlisted in their corps of co-operators the next-to-omnipotent aid of Science, nor bound themselves to the fields they till by the interest of varied, intelligent Experiment.

They do not know that new lands, although they give a large increase, yet draw large tribute from the men who go to live upon them. The forest and the prairie do not yield without a struggle, nor without imparting some of their wildness to their conquerors.—It is a game of Give and Take between civilized man and wild nature.

To most men over twenty-five years of age, who have a footing upon their native soil, we believe the advice is good, stay where you are, and determine to stay as long as life lasts.

Persevering toil, guided by a thinking head and ennobled by a worthy purpose, will reduce the mortgage by degrees and beautify the old home, and fertilize the sterile field, and drain the too fertile marsh, and convert stones into stone fence, and make the farm the pride of the owner. Stay where you are, and try it! There are those who should remove—the young, the strong, the one-too-many in a family. But, if possible, such should remove but once, seeking not a stopping place, but a permanent home, in and around which, all that is best in their natures may gather and centre.

Would that we could whisper it to nine-tenths of our restless, roving fellow citizens, stay where you are.—*Life Illustrated.*

SECRET SOCIETIES.—We have never favored secret political societies, deeming them unnecessary in this country, and liable to great abuses. This is an objection, however, that holds to some extent against all the parties we have had. The Whigs, in their day, had secret political cliques that to a great extent governed their political action; but of those it is not necessary at this late period to speak.—The American party has been announced for its secrecy particularly by the Democrats; yet the democratic party is, and has always been, full of secret societies answering to the degree of Know Nothingism, where the wire-pullers meet to lay out work for the people. The most powerful of those is the St. Tammany, in New York, where the "immortals" convene in "wigwams." Tammany Hall used to be the seat of power in the nation. It controlled the city of New York; and that the State of New York; and the State the country.—It was a fair offset for Congress any time.

Now, what do the outsiders know of the doings at Tammany, more than of the scarlet degree of the supreme order of Know Nothings? They hear of a "Sagamore," a board of "Sachems," and a "Wiskinkie;" but what a "Wiskinkie means," or any other of the outlandish names, they could no more tell than who "Sam" is. Then another order in the West, is the "Miami Tribe;" but nobody can tell who they are, though they elected the last Democratic Senator from Ohio to Congress. Of more recent origin are the "Sag Nights," who contested the election, and were in the riot at Cincinnati, the other day; but what are the "Sag Nights?" It would be well now for the Democrats to face up in this matter, and reveal the secrets of their own orders; and then they can more effectually war upon their Know Nothing opponents.—*Newburyport Herald.*

From remarks in the Union and Assemblee Nationale it appears that adulteration in wine and other liquors is taking place to an enormous extent in Paris, and in some of the wine-growing districts of the departments.—the wine trade at Bercy is rather brisk.—Prices are very steady, but without any rise. Languedoc brandy sells in Paris at 175f per hectolitre, and in Bordeaux at 165.

Morning Chronicle.

SATURDAY, MAY 12, 1855.

GONE OVER TO THE LIQUOR INTEREST.—The Telegraph informs its country friends that:

"It is undeniable that liquor is sold openly in the city of Boston."

If brother Williams will borrow a ten dollar bill from some simpleton, and then invite a fast man to show him about the city, we pledge our word that he will see (by 12 o'clock at night,) more tumblers and decanters than were ever manufactured in this or any other country, in one year's time.—*Boston Mail.*

That is to say there is much tippling and not a little drunkenness in the city. True as a book, and shameful as it is true.

The same paper says, in another article—

But the honest yeomen who find their own manufactured cider strong enough for all their cravings, forget that liquors are sold for other purposes than tippling, and that in many respects their sale is *useful* and *necessary*. They do not know farther that when Farmer Jones' son disappears, he goes "a spreeing" instead of "a courting," and that a city has to bear the disgrace of all his errors. They do not realize that a large class of merchants justly consider liquors as much property as cows and corn, and that *capital* is embarked in this business sufficient to purchase more farms than they ever dreamed of. They do not know all this, and therefore act, vote, talk and think as they do.

But there *are* cities as well as towns, and great interests as well as small. A measure that will answer very well for a country village, may be very inapplicable to a metropolis. Those in general who know nothing of the *wants* or welfare of a great capital, frame the laws which regulate its interests and business; and here is where the great evil of all stringent temperance measures arises.

But as we first said, the test is at hand. The true result which has taken years to gain, has at length been reached, and it is now said by the sanguine and the ignorant, that liquor selling is to be as effectually suppressed in the city of Boston, as at Becket or Boston corner. We will see. All good men desire *true temperance* to prosper, and all wise men wish to see justice done. It will soon be seen, however, how far the ends of temperance and justice have been answered by the law that will soon be inaugurated.

By *true* temperance in the last paragraph, we suppose is meant the old fashioned regular or irregular free drinking of men who think they are not drunkards.

We have a perfect understanding of the *wants* of the great capitol in regard to drinking; for we have seen much of it, lived in its midst, and observed its effects for a number of years. We know a number of solid men who have made a fortune out of these *wants*, and we have known a few *sons* of men in the country, who visited the city and dipped into its indulgences at the cost of their character and their life. And we have no doubt, that some of the men who live and grow fat, and most of those who are pining away to die, by this business, will fight for it with a zeal worthy of those patriots who die in the last ditch.

GOV. GARDNER.—The Boston Chronicle says:

Gov. Gardner made a queer speech in the State Temperance Convention, on the occasion of taking the chair of that illustrious body. * * * Is it proper for the Governor of the State, its highest magistrate, to be engaged in these junketings, for such they are, though conducted in sober ways?

Junketings! what does the Boston Chronicle understand by Junketings!

We suppose a junketing means a small or private *feast*: Webster's Dictionary says, besides, a stolen feast.

There was no *feast*, that we heard of, at the temperance convention in Boston, except Cold Water and the Maine Law. But let us read on.

The Governor, theoretically, is the first man in the community, and is the choice of all the people. He should therefore be careful not to appear in the character of the assailant of any portion of his constituents. He ought not to place himself at the head of men who wish to proceed "with a vigor beyond the law." He is supposed to be, and ought to be, impartial, and is bound not to prejudge any cause. He has no right to throw his great official weight into any particular scale, to tell the community that thus and so should they do, and that he is leagued with a particular class for the purpose of accomplishing certain things that are desired by a few, and the which it is by no means certain can ever be realized.

We don't see, exactly, how the uncertainty of the law should make any difference in the Governor's conduct.

He degrades his high office, belittles himself, and insults a part of the people, when he enters a political convention for the purpose of presiding over it. The temperance men have acted politically for some years.—Their organization is of a purely political character, a party character; and the Governor of the State has no business to aid in their action as a party. We believe Governor Gardner is the first of our Governors who has done so, and we hope will be the last.

Governor Briggs used to preside over a legislative temperance society meeting, every year.—Those old temperance meetings were the progenitors of these held now-a-days.

GUNS were fired on Boston Common, on Thursday afternoon, as a *feu de joie*, because Governor Gardner did not remove Judge Loring.

For the Chronicle.

A NUT-SHELL.

Messrs. Editors:—There have been a great number of communications, &c., published in your paper recently, in respect to the High Schools, and many plans and situations proposed for their accommodation. As these necessarily have been published in different numbers of your paper, we thought it might not be unprofitable to collect them all, as nearly as might be, into one article, for reference.

The special committee on High Schools, appointed by the Board of Aldermen, first proposed, by a resolution presented, that the present Court House be sold and the buildings for the High School be erected upon the lot on which that stands; and that Congress Hall be leased and fitted as a Court Room.

After the publication of these resolutions in your paper, several writers gave their views upon the subject, and the following plans were proposed, with the peculiar merits of each one set forth in as convincing a manner as possible, by their respective supporters.

"J." wishes not only the school rooms, but all the city offices, except the court room, to be in a building to be erected on the site of the present Court House; and Jefferson Hall to be fitted as a Court Room.

Some one signing himself "*," recommends the lot now occupied on State street by the old brick school house, and on Court street in part by the engine house.

"Sam" feels certain there is no need of building, and says, "we do not want a new high school house."

Notwithstanding, "T." does not seem to have been convinced by the weighty arguments of "Sam," but declares him "an ignoramus," and that "what he says against building a new school house is not worth noticing, as none but the meanest and most ignorant men object to it."

"Prudence's" plan is to "raise the Court House four or six feet, and extend it south, making suitable rooms for the accommodations of both schools;" he also would unite the two High Schools in one, having one principal and three assistant teachers.

"A Citizen" recommends the removing of the Court House to one side of the lot, and to build the School Houses on the remainder. Or, if it is determined to remove the Court House, he would widen Jefferson Hall ten or fifteen feet, northerly and southerly, and also easterly, for jury and other rooms, and use that as a Court Room.

"A Neighbor" says, buy the lot now used for a stable, nearly opposite the Rockingham, and build a brick Court House, with city offices thereon. Then use the present Court Room for the High School for girls, and the work is done.

"X. Y. Z." would prefer the lot where the Catholic Church is situated, and considers it "the best location in the city for a School House." If this is not taken, then he would recommend the lot nearly opposite the Rockingham House and extending back to Court street, for the building.

"A. J." strongly advises the city to purchase the Academy, and fit that up for the High Schools. And you remark, in making some observations on his recommendations, that if neither this, the Catholic Church lot, nor the Stable lot, can be obtained on reasonable terms, that the city could take that on Middle street, at the head of Cabot street; or some one of those on Wibird's hill.

There are eight distinct recommendations, and we probably have omitted some others.—We did, at first, intend to make some of our own, but will forbear at present, as perhaps it might be well for us all to remember that "too many cooks," &c. 55.

For the Chronicle.

Messrs. Editors:—Permit me to occupy a small space in your columns, in regard to the School House affair. There is a variety of opinions expressed, in regard to where the house shall be located. One has suggested the stable lot in State street, and another to move the Court House to the western side of its present lot. It should be located somewhere in the central part of the city. Now I would suggest the lot on the corner of Court and Pleasant streets, known as the Tripe lot. I do not think there is a more suitable lot in the city;—there would be ample room for play grounds, &c. The land runs south on Pleasant street to the land of Rev. Dr. Burroughs, and east on Court street to land of John Leighton, Esq., and no doubt could be bought on reasonable terms. Y.

☞ Rev. C. A. Eastman will preach tomorrow at the F. W. Baptist Chapel on Hanover street.

☞ Rev. Mr. Maxham, of Medford, Mass. will preach at the Universalist Church tomorrow.

☞ Elder T. H. Berick will preach tomorrow forenoon and afternoon at the Advent Chapel, and in the evening at the Temple.

HIGH SALARIES.

Messrs. Editors:—I see, in the N. H. Gazette of May 5th, the following information:

"In the Board of Aldermen on Thursday evening April 26th, an Ordinance presenting the City Marshal, the Superintendent of the Almshouse, and the Street Commissioner, with $100 each, for the past year, in addition to their salaries, in consideration of the acceptable manner in which they had discharged their respective duties—was offered by Alderman Dearborn, and was passed. Alderman Rundlett opposed the passage of this Ordinance, on the ground that the salaries of those officers were adequate to the services rendered."

You and the public will understand this, as a remarkable argument to be offered by a well-paid public officer, whose income from the Post Office gives him more money per annum, than the salaries of *all three* of the officers from whom he wishes to withhold any additional pay. He spends less hours in his duties than the Keeper of the Almshouse—and though the board of the keeper and family is an item in his pay, yet it is more than offset by the fact that the matron and daughter are helps without wages.

If the people of the city of Portsmouth wish to have a *cheap* keeper, and cheap management, they can try it: but services so arduous as those of Superintendent, are really *worth* as much as those of a postmaster, tho' they don't command so much here.

A TAX-PAYER.

CITY COUNCIL.—A special meeting of the City Council was held on Friday evening, pursuant to a call of the Mayor. The joint special committee to whom was referred the resignation of the City Farm reported, that Mr. Scott would consent to retain his office if the salary was raised, and offered a bill to that effect. The bill passed the Board of Aldermen, but was indefinitely postponed in the Common Council.

A resolution passed both boards, providing for the appointment of a joint committee to revise to ordinances of the city, and also to report amendments to the City Charter, for the action of the Legislature, so that the officers of the city may continue in office until others may be chosen in their places.

SHUT UP YOUR COWS.—At the meeting of the Board of Aldermen on Thursday evening, a petition was presented, for the passage of a more stringent law to prevent cows from going at large. The petition was laid on the table, as it was thought the present laws were sufficient. One of the petitioners, who had been damaged in his property by these stray animals, having read up the law, on Friday caused fourteen of these cows to be impounded. Persons who may discover a loss of this kind can probably obtain information on the subject by application to Samuel Ham, pound-keeper.

WARD MEETING.—A meeting in ward 2 has been called to fill the vacancy in the State representation, occasioned by the death of F. W. Fernald, Esq., and to fill a vacancy in the Common Council, occasioned by the resignation of Mr. Bishop.

PAINTINGS.—H. F. Wendell, at his Auction Store in State St. has several beautiful Oil Paintings for sale, which are deserving the examination of the lovers of the fine arts. Among them are portraits of Franklin and Webster—the latter is exceedingly life-like and natural. The landscapes are very beautiful sketches.

SUICIDE AT EXETER.—Mr. Samuel Leavitt of Exeter, committed suicide by hanging, in his barn, on Thursday afternoon, supposed in a fit of insanity. He had previously threatened to commit suicide. His age was 75.

Hon. Samuel Webster died at his residence in Barnstead on Monday last. Mr. W. was a very highly esteemed citizen, and has received many tokens of public confidence, of which he has always proved himself worthy. He was a member of the Legislature a number of years, Sheriff of Belknap County five years, and Presidential Elector in 1852. He was 63 years of age.—*N. H. Patriot.*

CAPITAL PUNISHMENT.—The Massachusetts House of Representatives have passed a bill abolishing Capital Punishment, by a vote of 166 to 129. The Senate will probably also pass the bill. The Maine Legislature might do the same, with great propriety.—*Eastern Argus.*

A FIRE "ALARM" WITH OTHER "NEWS."—A correspondent writing from South Deerfield N. H. gives us the following incident:—

"The dwelling house of Mr. Ladd, in South Deerfield N. H. took fire in the roof on Friday last, and came near being destroyed. A warning was given by a little grandson of Mr. Ladd, and the flames were speedily extinguished. Mr. Ladd had the misfortune to lose a valuable hog, a few moments before the fire was discovered, and this little boy running to a neighbors gave the "news" and the alarm thus: "Mrs P——our house is all a fire on the top, and the old hog is dead to *boot*.—Where's the boys?"—*N. H. Reporter.*

☞ We commend to general consideration, the article from Fowlers' newspaper, urging many of the restless to "stay where they are," which will be found in another column. If a man will but put forth the same energy at home, that he *must* expend to succeed in California or Kansas—he wouldn't need to move out of sight of the old homestead.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills. If taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Scrofula, or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself shoot, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

ISAAC HAHN

RESPECTFULLY begs leave to return his thanks to his friends and customers in Portsmouth and vicinity for the kind patronage bestowed upon him; and likewise takes this method to inform them that he has just received a great LOT OF LACES AND EMBROIDERIES, some of which will be named below.

Lace Collars from 6 cents to $6;
Cambric and Muslin Collars, from 6 cents to $6.
English Thread Lace, from 12½ cts. to $2 per yard.
Mecheln, Smyrna and Saxony Edgings;
Blk Lace Veils; English and French Chantilla;
A very good stock of Lace Mitts.

Talking about Hosiery and Gloves—cheap enough to be sure.

150 doz. yards new styles dress Trimmings, Tassel Buttons and Parasols.

Mourning Goods—a great variety.

Having made himself acquainted with the demands of his customers, he takes pleasure to announce that his agent in New York has taken especial care to make a selection, which, in beauty and style, will surpass any other establishment in that line, in this vicinity; and as for fairness in trade, he flatters himself of having given ample proof that his endeavor is to sell GOOD ARTICLES only, and at very small advances.

Ladies are respectfully invited to call, as it will gratify him to exhibit his stock, even if no purchases are made. my10

HISSED OFF THE STAGE. — The Boston Advertiser, of Friday morning May 11, says, that after a night session of seven hours, the Massachusetts House of Representatives, at 2 o'clock on Friday morning, expelled Joseph Hiss, by a vote of 137 yeas to 15 yeas. The vote was *clinched* by an immediate rejection of a motion for reconsideration. The evening was begun with some frivolous proceedings, under which the House became impatient, and at last revoked in part the privileges which they had accorded Mr. Hiss. The vote was then taken, and resulted as stated above.—The part of Mr. Hiss's memorial relating to the conduct of members, was ordered to be expunged. 222 members of the House were absent.

CHURCH BOUGHT.—The friends of Rev. H. Whitcher of Concord N. H., have bought the Universalist Church for $1100, including fixtures and furniture. It is to be moved into the South part of the city, to be occupied by a New Freewill Baptist Church and Society. We understand that the Universalist Society contemplate the erection of a larger house.

EXCITEMENT IN WESTERN MISSOURI.—*St. Louis, May 19th.*—According to appointment, on Thursday last a large number of citizens of Kansas, and Platte and Clay counties, Missouri, assembled at Leavenworth.

Much excitement was manifested at the murder of Clark, and a great disposition was evinced to hang M'Crea, but the commanding officers at Leavenworth refused to give him up, and nothing was done.

A letter from the western part of the State, dated the evening of the 3d, states that cholera had appeared in a malignant form, thirteen deaths having occurred in twenty-four hours. It is also reported to be as bad or worse in Kanzas City.

Daily accounts continue to record the ravages by cholera among the emigrants on the Upper Mississippi boats, which are generally crowded with passengers beyond their capacity. An unusual fatality attends the disease.

INDEPENDENCE, May 9th.—*Later from Salt Lake.*—Letters from Fort Leavenworth announce the arrival there of the Salt Lake mail.

The Sioux Indians had driven off the mules from the mail station at Devil's Gate; also all the animals belonging to the traders.—The people of Sweet Water had quitted their settlements for safety. All is quiet this side of Leavenworth, but the Indians are showing some threatening indications.

The mail party, consisting of fifteen persons, traveled only at night, and were not molested. The outward April and May mails were fallen in with in good condition.

MUNICIPAL ELECTION IN PROVIDENCE. The Know Nothings carried the election in Providence on Wednesday, electing the Mayor, the Board of Aldermen and twenty of the appointed twenty-eight Councilmen. The Mayor's majority is 821 over all. The majorities for Aldermen vary from 96 to 1075.—Three of the Aldermen were also on the Whig ticket. The Democrats elected their Councilmen in the Sixth Ward, and the Whig and Temperance ticket prevailed in the Seventh.—The Know Nothings carried the other five wards. The Journal says the election passed off very quietly.

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser,

It has no equal. The experience of thousands, and its constant manufacture since 1848, fully prove all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.

Purchase a Bottle of

PRESTON'S CATHOLICON.

And if you are not satisfied with its effects, call upon the Agent and receive your money again.

Manufactured and sold by WM. R. PRESTON, Druggist, Portsmouth, N. H., to whom orders for Agencies may be addressed. a26 3w3m.

Take this along with you.—'Tis just what you want.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George O. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which hover around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

ENGLAND'S SHAME.—Napoleon said to Las Cases:

"The English may be all powerful, if they confine themselves to their navy; but they will complicate their affairs, endanger their superiority, and lose their importance, if they keep soldiers on the continent."

Even with his wonderful powers of prevision, Napoleon could not have anticipated the depth of humiliation to which, through the mistaken policy of interfering with the affairs of the continent, his once haughty rival has become reduced. He could not have foreseen that a British army would find itself reduced to the mortifying alternative of wearing the French uniform; nor that all England—that is, all the snobs and flunkeys thereof, who compose a large majority of that favored people—would in these latter days prostrate themselves at the feet of his Imperial successor. Doubtless the awful shade of the great soldier of France, must have grimly smiled, when the proud Queen of once haughty England—the sovereign of that unshaken nation which crushed even his mighty power, and chained him to his barren rock—stooped to buckle the ribbon of the most noble order of the garter, on the left leg of a Bonaparte!—Yes, indeed! Waterloo is avenged; and the new motto of the garter should be, "To what base uses may we come!"—*Boston Courier.*

Notice to Builders and Joiners.

THE attention of JOINERS and all engaged or interested in building is respectfully called to the fact that many of our finest buildings are defaced and their general appearance materially altered from the original design of the architect, by the miserably constructed, ill-contrived, and narrow contracted leaden goose-necks, or what is still worse, a skewangle contribution of the upright conductor with which the cornice is adorned—all of which may be remedied by application to

J. E. CHAPMAN,
PRACTICAL TIN PLATE WORKER,

who will give his personal attention to the adjustment of all such defects. Specimens of Ornamental Goose-necks and Conductor Caps, on the most approved plan of modern architecture may be seen at his Tin Ware Factory, where he manufactures to order

CONDUCTORS GOOSE-NECKS & GUTTERS

of all sizes, in the most thorough and substantial manner. All orders left with him will receive immediate attention.

New Bounty Land Law.

160 ACRES.

ONE HUNDRED AND SIXTY ACRES of Bounty Land procured for all Soldiers, Marines, and other persons (or widows or minor children of such as are deceased) who have performed duty for only 14 days in the Naval or Military service of the United States in or 1790: also Bounty Land sufficient to make up the number of 160 acres, in all cases where only 40 or 80 acres have been obtained—on application in person or by letter to I. BARTLETT CLAGETT,
m9 No. 2 Market st., Portsmouth, N. H.

Bounty Land.

THE subscriber is now prepared to present and prosecute all BOUNTY LAND Claims arising under the new law—whereby all who have served *fourteen days* or more in the Naval or Military Service of the United States, during any war since 1790, are entitled. Those who have received less than 160 acres are now entitled to an additional quantity. Having the complete rolls of all the New Hampshire and Massachusetts Militia, and of many Marine, Ship and Flotilla Companies; and having engaged one of the best and most reliable Counsellors in Washington as an agent, the undersigned has UNSURPASSED FACILITIES for prosecuting with expedition and success all cases entrusted to him. No charge made unless successful. Apply in person or by letter to

Bounty Lands.

THE Subscriber is now prepared to prosecute with the utmost promptness all Claims for Bounty lands granted by the law of 1855, which gives ONE HUNDRED AND SIXTY ACRES to all the officers of the Army and Navy, Soldiers, both regulars and volunteers, Sailors, Marines, Flotilla Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to prosecute claims for all claimants for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of Steel Pens; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Bank and Schools, as they will not corrode nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Notice to Builders and Joiners.

THE attention of JOINERS and all engaged or interested in building is solicited to the fact that many of our finest buildings are defaced and their general appearance materially altered from the original design of the architect, by the miserably constructed, ill-contrived, and narrow contracted leaden goose-necks, or what is still worse, a skewangle continuation of the upright conductor with which the cornice is adorned—all of which may be remedied by application to

J. E. CHAPMAN,

PRACTICAL TIN PLATE WORKER,

who will give his personal attention to the adjustment of all such defects. Specimens of Ornamental Goose-necks and Conductor Caps, on the most approved plan of modern architecture may be seen at his Tin Ware Factory, where he manufactures to order

CONDUCTORS, GOOSE-NECKS & GUTTERS

of all sizes, in the most thorough and substantial manner. All orders left with him will receive immediate attention.

ORNAMENTAL CORNICES AND CENTRE PIECES.

LUTHER N. HURD,

NO. 38 and 40 State street, continues to make and put up Ornamental Cornices, Centre Pieces, and other Stucco work, much cheaper and vastly more beautiful than ornaments of Papier Mache. Many specimens of his work may be seen in buildings in this city and elsewhere.

He has lately added to his stock by purchasing that of Mr. Samuel Reynolds; and would respectfully invite the customers of both, and the public generally, to call on him for work in the line of Stucco Ornaments, Plastering, Coloring and Mason Work generally. j6 6m

Morning Chronicle.

MONDAY, MAY 14, 1855.

THE NUNNERY COMMITTEE.—The public are about disgusted with the name of this committee, but we happen to know certain facts which none of the inquisitors seem to have discovered. First, the article in the Daily Advertiser was never seen by Bishop Fitzpatrick, nor did he know that any such article had been prepared, or was to be published. He never heard of it until he saw it in that paper. Second, the editors of the Advertiser never heard of the doings of Mr. Joseph Hiss at Lowell, and never thought of asking the committee to investigate them until they were requested to do so by one of the members of the bar, who has since defended Mr. Hiss with so much energy, and who talked so much of "a plot to rain him."—Third, it is not improbable that the whole doings at Roxbury will be the subject of legal investigation, and that all the gentlemen who visited the Catholic school will have an opportunity to defend themselves before a jury. Would it not be well for the Legislature before it adjourns, to pass a bill of indemnity?—*Boston Trans.*

Never was any movement if is a legislative body worse mismanaged. When the thin skinned members of the Nunnery Committee began to wince under the castigation of the the Advertiser, and to bring their matters before the House, they should have been told, "The Courts are open; sue the Advertiser for a libel, and let the hardest fend off."

Messrs Editors:—In these "hard times" it is of great interest to know what food will give the most nourishment and be of the least cost. I happened to find the following table in an old work, which may be of some interest to your readers, as it gives the quantity by weight of Nutritious matter contained in different articles of food, viz:

	Per cent.		Per cent.
Lentils	84	Oats	74
Peas	83	Meats, average	35
Beans	92	Potatoes	25
Corn (Maize)	89	Beets	14
Wheat	85	Carrots	10
Barley	83	Cabbage	7
Rice	88	Greens	6
Rye	79	Turnips	4

The above may enable some families to eat a good meal at a little cost.

QUITE AN UNDERTAKING.—The Carson League held a meeting in New York on Wednesday evening, and the speakers "announced their intention of prosecuting every violation of the new liquor law." This reminds us of the infuriated gentleman who rushed one morning into the presence of the French Convention, and demanded the immediate arrest of *all* dishonest persons. It is scarcely necessary to add that the poor man was locked up as a lunatic.—*Atlas.*

PREPARING FOR EMERGENCIES.—In the City Council of New York it has been proposed to appropriate $1,500,000 for building a jail capable of containing 10,000 persons, who will be created criminals by the new liquor law.

This is about as wild as the action mentioned in the other paragraph above. A few eminent examples would make quite a difference in the aspect of affairs. Mayor Wood did not have to put all the Sunday shop keepers in jail. As soon as the coon was sure it was Col. Scott aiming his rifle, he came down.

A BISHOP'S CROSS.—The Concord Statesman asks:

Can any one instruct the public in the matter of the single dagger placed before the name of Catholic Bishops or Archbishops? thus:— †JOHN, Archbishop of New York.

Answer.—The Bishops of the Roman Catholic church make the sign of the cross before their names: and the Printers, having no crosses, use single daggers instead.

PROVIDENCE, May 11th.—John S. Harris, a prominent politician of this city was killed this afternoon, in Cranston, by being struck by the locomotive on the Hartford railroad.

Not knowing what sort of a politician he was, we are not exactly prepared to say whether he served two masters or more,—nor whether this dispensation of Providence is a warning to the K. Ns. or to somebody else.

FIRE WORKS.—We would call the attention of the public to the advertisement of Mr. James G. Hovey, the experienced pyrotechnist. His works are too well and favorably known to require more than a mere passing notice.

TUFTS COLLEGE LIBRARY.—The Trumpet learns with much satisfaction, that Mrs. Sarah Campbell, of Cambridge, Mass., sister of the late Professor Popkin of Harvard College, has made a donation of some two hundred volumes of valuable works to the library of Tufts College. They belonged to her late brother, Rev. Dr. Popkin.—For this truly liberal act, the lady will deserve the thanks of all the friends of the Infant Institution on which she has bestowed the favor.

WINDFALL IN THE RIGHT PLACE.—We are glad to hear that Father Cummings, who has been so long the able editor of the Christian Mirror in this city, has become the possessor, as heir or legatee, of some relative, of from $50,000 to $100,000. It could not have fallen into better hands.—*Portland Argus.*

Never contradict a gentleman who stutters. Don't play chess with a widow. Your oldest hat, of course, for an evening party. Take no notes or gold with you to a fancy bazaar—nothing but silver. Never joke with a policeman.—*Punch.*

LOCAL.

CAUTION AND HEALTH.

The discussion on the subject of public buildings, seems likely to verify the current saying, "many men of many minds." This being the case, one more opinion thrown into the box, can do no harm, but help to fill it; and we will hope that at the "shaking up" there will be turned out plans that will be consonant with the financial interests of the city, and promotive of the moral, intellectual and physical welfare of the rising generation. Also that there will not be left out of view the substance of an opinion once expressed by a former fellow citizen, that it is an outrage upon the public, in erecting buildings, &c., to violate good taste, beauty of design, &c.

But the particular object of this communication is to offer a little qualification to remarks in one of the late articles on the subject of trees, shrubbery, &c. I take the position that in all buildings and places of frequent resort and prolonged stay, and very particularly in all places devoted to study, a dry atmosphere, good light, and exposure to the rays of the sun at some part of the day, are of the first importance.

In this view, all cellars and basement stories are unsuitable for such purposes.

The cultivation of trees and shrubbery about the premises, should be very carefully restrained within such limits as will not endanger the above named important objects. The belief of the writer of this article is, that there are places of public resort in this city that are exceedingly dangerous in the above points of view; not so much in winter and those parts of the year when artificial heat is employed, but in summer, when children in perspiration from their play ground, people from their walks and in light clothing, go hastily into these places and remain for one or more hours. If these ideas are sound, they should have due consideration as to existing cases, and future operations. ¶.

For the Chronicle.

Uncle Toby:—I am a constant reader of the Chronicle, and have observed in your different issues a variety of plans and different locations suggested by your various correspondents, in regard to the building and location of the two High Schools, contemplated to be erected the present year. Permit me to suggest the following project.

Let the Court House remain where it is.—Then remodel and modernize the interior of the present Court Room, so as to make it eligible for a first rate High School for boys. Let the present basement, now occupied by the High School for girls, be partitioned off, so as to make a convenient room for the Primary School for girls, now under the instruction of Miss A. E. Mendum, at present located in the Academy, and for which the city pays rent at the rate of $55 per annum. The other part of the basement and building, to be used for whatever purpose, as may best subserve the interest of the city. Then we shall have a commodious High School for boys, and good accommodations for the Primary School for children, already alluded to. Then I propose for the city to buy, at a reasonable price, the Portsmouth Academy and lot; to remodel and ornament the present structure, and take the second story and adopt it for the High School for girls; then you will have a large assembly room, besides recitation rooms, etc., which will constitute a first rate High School for girls. The lower story, with small expense, can easily be altered to make all the rooms wanted by the city government in the transaction of their business—at any rate, more area than is now occupied by them in the building they rent of D. H. Treadwell, Esq., for which they pay $200 per annum. The Grammar School for girls, now under the charge of Miss H. L. Hill, in the Academy, at the rent of $55 per annum, can be transferred to the school room in State street, now occupied as the High School for boys. To estimate the cost of these improvements, I suppose that the Academy can be purchased for $5,000; fitting up the same for a High School and City Hall $3,000; fitting up the Court House for a boys' High School $1000;—making a total of $9,000, for which sum the city will have,—a separate High School for boys, one Primary School for girls, one Grammar School for girls, one separate High School for girls, and a first rate City Hall, compared with the one now used for that purpose, for which the city pays a rent of $200 per annum.

As regards the Court House, let the city hire Congress Hall, and fit it up for the purpose. The objection urged by some, that it is too much travel up stairs to get to it, amounts to nothing. Let those who think it does, go into the Municipal Court Room in Boston, and they will then learn something about "getting up stairs." It will be perceived by the above, that the city is paying the interest of over $5000 for rent of a City Hall and two School Rooms, a sum quite adequate to buy the Academy. It is said by some persons that the Academy cannot be bought for school purposes. Then why is it let for, and now occupied by, one private and two public schools? NICODEMUS.

We understand the Academy can be bought for a Girls' School, and for public offices, but not for a Boys' School. But a Girls' School and City Offices should not be together, any more than the Court House and a School.

FIRE.—Sunday morning, about 3 o'clock, fire was discovered in the large three story house next south of the North church, occupied by William S. Hadley as a hotel. The fire is supposed to have originated from some defect in the chimney. The entire roof was burnt, which was the extent of the damage by fire, but the house was completely deluged with water. The building is owned by Nathaniel Folsom and William S. Hadley; the former is insured in the Portsmouth Mutual, and the latter in the Home Co. New York.

☞ Miss White, teacher of the Franklin Grammar School for Girls, has resigned her place, and her scholars have been added to the school of Mr. Rand, in the same building. The latter school thus becomes a Grammar School for Boys and Girls.

ANNIVERSARY OF PEPPERELL DIVISION.—The Pepperell Division of the Sons of Temperance, in Kittery, will celebrate their Anniversary on Tuesday evening, May 15, at their Hall in Navy Yard Village.

The exercise will commence at a quarter before 8, and will consist of an Address, with singing and prayer. Members are notified to attend.

☞ Kittery Point Bridge is thoroughly repaired, and has been open for travel about a week.

TROTTING MATCH.—A trotting match for $200,—$25 forfeit, will take place at Frink's Tavern in Greenland, on Saturday afternoon, May 26, at 3 o'clock.

Harrison is coming!
Don't be frightened!

☞ A Pickpocket calling himself Augustus Crawford, was picked up at the Worcester depot in Boston, on Friday, with his hand in a lady's pocket. Crawford, who was very well dressed, and with any extent of assurance, became very indignant that the officers should dare charge him with such an offence. He was taken to the station house, when, finding that indignation was not exactly available, he pretended to be very much grieved, and wept like a love-sick school girl; this did not effect the "hard-hearted" officers, and he was sent to jail. The dodge is a new one, and it is quite ingenious.

The operator is well dressed, wears a cloak or a thin outside garment having two pockets—one, however, like the Irishman's well, the bottom of which has fallen out, so that while to the careless observer, the thief appears to stand with his hands thrust into his pockets, his digits in the bottomless pocket are at work with the personal property of his victim.

NARROW ESCAPE.—Ship Miss Mag, Capt. Hinckley, at Boston from New Orleans, had been in contact at 2 o'clock on Tuesday morning with sch Warrenton, Capt Wooster, of and from Hancock, Me., for Boston. The ship lost cat head, rail, &c. The schooner had mainmast carried away, and was otherwise injured, so much so that Capt Wooster decided to abandon her, when himself and crew, and six lady passengers were taken off by boats from the ship. Two other lady passengers, Mrs. Stratton and Miss Wooster, both daughters of Capt. W., were left on the wreck, the sea having become so high before they could be taken off that it was considered too dangerous to make the attempt to board the vessel again. The ship laid by until daylight, and about half past 11 in the forenoon, passed to windward of the schooner, but no one could be seen on board. Fortunately the schooner was discovered from Scituate Wednesday morning, when the life-boat was manned, and the two ladies were landed safely at Scituate.

The schooner was full of water, but as she has a cargo of railroad sleepers she could not sink. The crew of the life-boat anchered her off the Fourth Cliff, Scituate.—*Advertiser.*

SUICIDE.—Mrs. Lydia Terry, wife of Edwin Terry, committed suicide last Sunday morning, at the Mast Yard Station, Concord, N. H., by hanging herself with a skein of yarn. She leaves children to mourn her loss.—*Phœnix.*

SUICIDE IN HUDSON.—James Smith of Hudson, N. H., committed suicide by hanging, on Friday morning last.—*Phœnix.*

On Friday morning, the ship Western Empire arrived at quarantine, from Liverpool, having on board 630 passengers.—*Boston Chronicle.*

CARD.—The undersigned tenders his sincere thanks to the Fire Department and citizens in general, for their prompt and energetic efforts to save his house from destruction by fire, on the morning of Sunday, May 13.

Fire!

JAMES LARRABEE returns his sincere thanks to those friends who aided him in removing his goods, which were endangered by the fire on Sunday morning.

Mr. L. would announce to his friends and the public, that for the present, he may be found at the store recently occupied by Mr. Nowell, in Daniel street, where he will promptly attend to all orders for carriage and harness work. m12

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

LATER FROM CALIFORNIA.

NEW ORLEANS, May 11.—The steamship Empire City has arrived at this port from Havanna, with California males of April 17th.

The steamship Illinois, from Aspinwall for New York, had put in Havana for coal.

The Golden Age, which left San Francisco on the 17th April, with 750 passengers and $1,300,000 on board, struck a rock on the night on the 28th ult, off the island of Quibo, about five miles from Panama. Perfect discipline, however, was maintained among the passengers and crew, until communication was held with Panama, when the steamship J L Stephens went to their rescue, and landed them all in safety at Panama on the 3d inst. The steamship Panama was despatched to the assistance of the unfortunate vessel, and with strong hopes of saving her, although the tide ebbed and flowed in her.

The news from California is of no great importance.

The rains continued, and the mines producing well.

In commercial circles confidence was gradually returning.

The Legislature would adjourn on the 13th of April, but an effort was to be made to elect a U. S. Senator.

FATAL RAILROAD ACCIDENT.—Mr. Michael Tallis, well known as an accomplished musician, and member of several of the Boston bands, has been killed on a railroad in the vicinity of New York. Mr. Tallis was well known and much respected. He leaves a wife and four children. He was on his way to visit a relative at the South.

We learn that the Rev. T. G. Brainard has asked and received a dismission from the pastoral charge of the Presbyterian church in Londonderry, and accepted a call from the Congregational Church in Halifax, Mass.—Rev. Josiah Ballard of New Ipswich, was dismissed from his pastoral relation, at his own request on the 26 ult.—Rev. Daniel Goodwin, of Brookline, was also dismissed from his pastoral relation, last week.—*Manchester American.*

Mr. Buchanan, the proprietor of an extensive vineyard, reports that one-half of his grapes are destroyed, by the unfavourable spring weather.

The State of New Hampshire.

To the Inhabitants of Ward No. Two in the City of Portsmouth, qualified to vote for Senators in said State.

(L.S.) YOU are hereby notivied to meet at Jefferson Hall in said Ward, on SATURDAY, the 26th instant, at two and a half o'clock in the afternoon, for the following purposes:

To choose by ballot one person to represent said City in the General Court of said State the ensuing year, in room of Frederick W. Fernald, deceased.

To choose by ballot one Member of the Common Council, in room of Ransom B. Bishop, who has resigned.

Given under our hand and seals this eighth day of May, A.D. 1855.

EDMUND M. BROWN,
EDWARD J. MOULTON.
Majority of Selectmen of Ward No. 2 in the City of Portsmouth.

A true copy, Attest, EDMUND M. BROWN,
EDWARD J. MOULTON,
Majority of Selectmen of Ward No. 2, in the City of Portsmouth.

CHECK LIST NOTICE.—*Ward No.* 2.—The Selectmen of Ward No. Two give notice that they will meet at the Collector's Office in State street, on FRIDAY, May 25th, at 5 o'clock, P.M. and on SATURDAY, May 26th, the day of election at half past 12 o'clock, noon, for the purpose of receiving evidence of the qualifications of voters in said Ward, and of correcting the List of Voters by adding thereto those who may have been omitted, and by erasing therefrom those who have not a right to vote.

The List of Voters, as corrected, will be left with the Clerk of the Ward, for the inspection of the inhabitants till the day of Election.

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser,

It has no equal. The experience of thousands, and its constant manufacture since 1848, fully prove it all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.

Purchase a Bottle of

PRESTON'S CATHOLICON,

And if you are not satisfied with its effects, call upon the Agent and receive your money again.

Manufactured and sold by WM. R. PRESTON, Druggist, Portsmouth, N. H., to whom orders for Agencies may be addressed. a26 3w2m.

Take this along with you.—'Tis just what you want.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, will nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Peaslee, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

New Bounty Land Law.
160 ACRES.

ONE HUNDRED AND SIXTY ACRES of Bounty Land procured for all Soldiers, Marines, and other persons (or widows or minor children of such as have deceased) who have performed duty for *ONE 14 days*, in the Naval or Military service of the United States since 1790; also Bounty Land sufficient to make up the number of 160 acres, in all cases where only 40 or 80 acres have been obtained—application in person or by letter to I. BARTLETT CLAGGETT,
m9 No. 2 Market st., Portsmouth, N. H.

Bounty Land.

THE subscriber is now prepared to present and prosecute all BOUNTY LAND Claims arising under the new law—whereby all who have served *fourteen days* or more in the Naval or Military Service of the United States, during any war since 1790, are entitled. Those who have received less than 160 acres are now entitled to an additional quantity. Having the complete rolls of all the New Hampshire and Massachusetts Militia, and of many Marine Ship and Flotilla Companies; and having engaged one of the best and most reliable Counsellors in Washington as an agent, the undersigned has UNSURPASSED FACILITIES for prosecuting with expedition and success all cases entrusted to him. No charge made unless successful. Apply in person or by letter to
STILLMAN B. ALLEN,
m24 1s Kittery, Maine.

Bounty Lands.

THE Subscriber is now prepared to prosecute with the utmost promptness all Claims for Bounty Lands granted by the law of 1855, which gives ONE HUNDRED AND SIXTY ACRES to all the officers of the Army and Navy, Soldiers, both regulars and volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1852 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Journal of Proceedings, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

AMERICAN AND FOREIGN OFFICE.
Agency for business with U S Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1836) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*.—Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor in Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *mill work*, or for planing very *thin, crooked* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Gold Pen; and effectually obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Bank and School Boys, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

EDUCATION *vs.* LEARNING.

We especially commend to our readers the extracts from a well-timed article in the Newburyport Herald. This matter is worthy of consideration, in these days of superficial "education."

"I have given my boys and girls education," says the anxious father ormother, "and now if they cannot do well it is not my fault." This may not be so after all. You may have given them learning; but education when used for acquittal from consequences, should have an extended meaning. It should at least embrace these points—the best physical health that circumstances will permit, with the best mental discipline and the most correct morals attainable by them:—more than these even; a training for some pursuit or calling that will ensure support, and such a cultivation of the will, as may give them self-reliance and ability to overcome difficulties.

The learning acquired in schools may be of very little practical use to the individual.—A person may know much of science, much of literature, may have cultivated a thousand graces and accomplishments, and still be miserable and shiftless himself and worthless to the world. Many parents mistake on this point. They will deny themselves the comforts of life and endure continued toil, that their children may be relieved from manual labor, and attend school, thinking they will be able to get a living without working for it. They imagine, and teach their children to think, that *learning* will maintain them—that it will furnish food and clothing—wealth and ease—greatness and honor; when perhaps it will aid their ruin. If they come to manhood forming no settled character, prepared for no particular pursuit, learned in no trade, the vague ideas they have formed of life unfit them for its realities, and the refinements acquired are greater hindrances, than any want of learning is to the man of energy and nerve.

We would by no means undervalue mental improvement; but what we object to is the sickly, weak and imbecile training by misdirected affection, that places value upon one's knowing every star in the heavens, every plant in the fields, every dead language, and all the elogies ever dreamed of, but withdraws the labor of the hands from the common affairs of life, and the thoughts of the head from all that is practical. This is often the education the wealthy give their children; and the result is that their grand-children are paupers. In our large towns and cities, where there is less manual labor for boys, we have to seek a constant supply of youth from the rural districts to keep good the stock of merchants, mechanics and professional classes.

The Jews had one custom that should have descended to all generations after them—every man taught his son some trade. Rich or poor it was the same; and it was a common proverb among them, that if a father did not teach his son some mechanical occupation, he taught him to steal. This is true to a greater extent than many are aware of; for while so much crime is attributed to intemperance and ignorance, the statistics of the prisons show that illiteracy in those who have no regular trades or pursuits, is the greatest cause of vice. In this country we should do well to follow the Jewish custom. Whatever the ultimate aim in life, a portion of the time of youth cannot be put to any better use than learning some branch of mechanism. It will develope the physical powers, and should the person never need it for support, it will still give him more independence than wealth, in his realizing that if business fails, or a profession is unprofitable, he has back of those, all the means of competence. We are not greatly in favor of laws that interfere with social life, but a statute requiring every youth to be taught some mechanical business would do more for the morality and wealth of the community, than one that should totally suppress intemperance. The first duty of every individual having charge of the young, is to educate the hand with the head.

Beyond the instruction of both the head and the hand, there is another point not always regarded—the formation of a fixed and determined will for the accomplishment of ends. Intellect and skill are of less importance than will. The person who vacillates may, and generally will fail, whatever knowledge or genius, where the man of energy, courage, and faith will succeed. In most instances, men are what they will to be; and therefore what they are fitted to be.

A NEW EDITOR.—Rev. Dr. S. H. Tyng, of St. George's Church, New York, has become a member of the editorial profession.—He has joined hands with the Rev. Drs. Anthon and Canfield, of the Protestant Churchman. The Courier and Inquirer says: "We welcome the Doctor among the editors, and cannot but think that with a church and a newspaper both at his command, he will have a moderate chance of being heard"

A QUID PRO QUO.—A London paper contains the following article of information:

In return for the splendid tiara, valued at 2,000,000 reals, recently presented to the Pope by the Queen of Spain, his Holiness sent to Her Majesty the body of St. Felix the martyr.

TUESDAY, MAY 15, 1855.

THE AMERICAN PARTY AND SLAVERY.—The Washington Organ, an American paper published at Washington, in speaking of the resolutions of the Massachusetts and New Hampshire K. N's, says:

If our friends at the North prefer the dissolution of the Union, to a surrender of all claim to interfere with the institutions of the South, they may perhaps succeed in their plan. We, of the south, have gone into the American Organization to remedy the evils of Foreignism, Romanism, and Demagoguism, and we do not intend, now or hereafter, to consent, that the question of slavery shall be agitated, or in any way recognized by an organization created for a different purpose, and having no legitimate authority to interfere with this local question.

To this the Manchester American replies:

The AmericanOrgan is informed that no one wishes "to interfere with the institutions of the South," only so far as the Constitution authorizes. The Organ does not "consent that the question of slavery shall be agitated by the American party." The said Organ is informed that the subject of slavery *will* hereafter be agitated at the north at any time when free northern men shall think proper. But the Organ continues—

We trust that the whole South and West will be fully represented in the National Council, when it meets, and that sectionalism will receive a quietus at its hands.

We hold to the policy of our friends at the south to show themselves in all their strength at the present crisis.

Any weakness in our party at the South might encourage the anti-slavery men at the North, to create a sectional issue upon the plan set forth, in the despatch from Concord, above published. The manifestation of our strength at the South, would prevent such a movement.

The American then closes with the following remarks:

We wish to create no sectional issue; but the North will submit to no more aggressions upon its rights. The North bids the South keep its institution where it is—but it will tolerate no more Nebraska perfidies. The South need not organize against any crusade from the North, because the North intends none—she means merely to defend her own rights and interests.

The Organ in the main, treats the subject reasonably enough, contending against disunion tendencies. It should understand that no one, or but few, at the North, advocate disunion. But what they do advocate, is the rights of the North. They are not again to be hoodwinked into a constructive support of slavery, farther than the guaranties of the constitution impose. They are not going to balance compromises again. They will agree to act with the South in reforming the evils of Jesuitism, and demagoguism, and foreignism; but if the conditions of that concert are, that they remain silent on the question of slavery, they inform their southern friends that they ask for no such alliance.

KANSAS.

GOVERNOR REEDER.—The Washington Union says that Gov. Reeder, of Kansas, is at Washington, not for the purpose of invoking the action of the general government in regard to his administration of his duties as Governor of Kansas; but simply to make preparations for his return, in a week or two, with his family, to the Territory which he proposes to make his future home.

The settlers of Kansas have issued a memorial to Congress, giving an account of the outrages at the recent election, and praying for protection from the armed mobs which have invaded their Territory. They say that they make a last appeal, not to the North nor the South—not to political party—but to the representatives of the whole union. They beg that no men will sport with their fearful condition, by endeavoring to make capital, or build up party at the expense of their civil and physical existence. They appeal, they say, not for favors, but for rights guaranted to them by the constitution, by the law of their organization, and pledged to them as the condition of their settlement in the Territory.

The article in the Washington Union, referred to above, concludes by saying: We are not disappointed that general excitement has resulted from the local troubles in Kansas; but we unhesitatingly say to the true friends of constitutional principles, in every part of the Union, that no man could more faithfully represent the conservative element of the country, or will more steadily and conscientiously labor to bring order out of confusion, than the present Governor of Kansas.

GOV. REEDER.—The wise telegraph tells us that Gov. Reeder is not in Washington for the purpose of invoking the action of the general government, but simply to prepare for his return to the territory, which he proposes to make his future home. As the gentle squatters of Missouri have threatened to send him to a very long home upon his return, it strikes us that a slight invocation of the action of the government would be prudent, even if he is not in Washington for the purpose.—*Atlas.*

LOUISVILLE, May 12th.—The Courier of this morning publishes a long letter from Prof. Morse to Bishop Spaulding, in answer to the Bishop's charge that he (Prof. Morse,) could not prove that Lafayette ever used the words,—"If ever the liberties of this country, (the United States) are ruined, it will be by the Romish Priests." Prof. Morse proves that Lafayette did use the expression,and also makes it appear that Bishop Spaulding's evidence to the contrary is not trust-worthy.

The New York Religious Anniversaries came to a close on Friday evening. The Tribune declares triumphantly that the anti-slavery meetings were carried on with more spirit and were attended by greater numbers than the other societies.

MAINE POLITICS.

They are droll affairs, sure enough: droller even, than those of New Hampshire. We have already given our readers a sober chapter of Prospects, from the Eastern Argus, and a ludicrous chapter on the Republican Party, from the Augusta Age. Now we give another, not less ludicrous, from the Portland Advertiser, headed "*Anti*-Republican Cross-Fires." We should like to see the old fogy who can be sour or stupid enough to read it without a smile.

It is curious to observe the wretched piece of work which the foes of the Republican party make in the very outset of their attacks. Such recoils from the old damaged guns of democracy, such cross-firing among the allies, and such desperate efforts to surround themselves! In order to advance operations, they have evidently made a division of duties—in which each detachment is energetic enough, only their efforts happen to fight against each other more than the common enemy. It will be time for us to take them in hand when they have got through with each other.

But to illustrate: the democratic State Committee, as we have seen, are very shy of using party names in the present contest. "Higher than the behests of *mere party*," is their generous enunciation. Their duty, plainly, is to blarney the straight-out Whigs; and hence they drop seductive hints concerning "those who now propose to co-operate with us," and proclaim with weak enthusiasm, "let a spirit of *co-operation* and *fraternization* animate patriot citizens, &c. This may be called the demonstration of the main body, and its language is that of the subterranean gentleman—

"Vanguard, to right and left the front unfold,
That all may see who hate us, how we seek
Peace and composure, and with open breast
Stand ready to receive them."

We now turn to the left wing under the command of Capt. Poor and Lieut. Sanborn. These men claim to be the surviving heroes of the old Whig party, who have not only uniformly fought its "good fight," but, almost alone, have kept its "faith." Their hobby is that nine-tenths of their old compatriots have forsworn every principle and practice of the true Whig church, and have strayed away into hostile ranks. Hence, with either a perverse or treacherous courage, they fight them. They declare that *they* stand on the old Whig ground alone, battling locofocos in the ancient style, and the Morrillites, because they are no better. A Republican, in their estimate, is nothing but a democrat with the sting of abolition in his tail—and so they can have no followship with either. "We shall turn neither to the right nor the left," says the State of Maine. Here is fidelity and steadfastness worthy of note—if genuine!

But the rear guard of the Nebrascals comes up, with the Argus fluttering in the wind, and contemptously thrusts aside the Whig remnant which the State Com. has been laboring to entice. It abuses them as of no sort of consequence in the present campaign. And what is worse, it rejects their beloved Whiggery as a sham. Instead of admitting that the bulk of the Whig party has gone over to Mr. Morrill, the latter and all his friends are declared to have become good old-fashioned Whigs! The Governor is found fault with for even outdoing his intensely federal predecessor in office! What can our straight-out friends say to this? But it is manifestly of no consequence to the Argus *what* they say—"They are neither of them (Bangor Journal and State of Maine) two years old," sneers the custom-house organ. But J. A. Poor and Dan Sanborn, Esqs., are more aged than that, and surely they ought to know something about their own political sentiments. "They are imposters," is the reply, "the Whig party is as well off as ever, with thousands of good but deluded democrats into the bargain."

And so the anti-Republicans "take a box all round." The trouble is, *they are in a wrong position*—which, of necessity, always entails confusion, inconsistencies, follies and defeat.

CONSTITUTIONALITY OF THE MAINE LAW. The Middleton, Conn. News, says:—The Maine Law is not constitutional; but wife whipping, windows stuffed with old hats and rags, delirium tremens, riots, and bloodshed, sapperless children clothed in rags, heart broken wives, parents and children, heavy losses, insecurity of life and property, temptations to the ruin of the rising generation, and millions of property wasted, are all perfectly constitutional.

THE HISS CASE.—The New Bedford Standard says:—We need not repeat that we consider all this legislative action in regard to Hiss, as grossly illegal and extremely ridiculous. He was arrsigned by the Legislature for a breach of decorum. He was acquitted and resigned. After his resignation was read, he ceased to be a member of the Legislature; consequently his subsequent arraignment, the withdrawal of his resignation, and his expulsion, are wholly illegal. The Legislature had nothing to do with him, and he had nothing to do with them.

The Cholera appears to be pretty thoroughly developed on the upper Mississippi, and deaths have occurred not only among steamboat passengers, but in many of the town between St. Louis and St. Paul. Its early appearance at other points further East would not be strange.

"RIGHT OF SEARCH."—The boxes of a book-selling firm in Portland, which were sent from Boston last week in one of the steamers, were broken open on arrival there by the police, to search for liquors. None were found, however. A grocer's porter was also stopped in the streets of Portland, last week, and his baskets examined, to see if his burden was dry or wet. It was very *dry*.

LOUISVILLE.—The Lower Court of Kentucky has decided that the late Mayor Speed holds over until 1856, and the late election of Mr. Barbee, the Know Nothing candidate, was illegal. The case is to be carried to the Court of Appeals.

PUBLIC BUILDINGS.

Messrs. Editors:—After so much has been written and discussed in relation to a new High School House, it is with great diffidence that I briefly submit my views concerning it, and the necessity of erecting a commodious City Building.

1st. Taking into full consideration the various proposed locations for the school house, the court house lot appears to be the most convenient and suitable. I understand it is contemplated to build the school house two stories high, of brick. Now if this building is situated mid way on this lot, ample space will be afforded, in front and in the rear for the respective yards of the two schools. A street may be easily opened, from the Universalist Church to Auburn street, and the boys can enter the school house on this street, and the girls on Court Street.

As to the Court House it seems to me, the sooner that *that* disappears the better. It has been, and if it longer stands will continue to be, a very expensive building. Let us have a Court House that is substantial, convenient and at least *half* as good as that which is now in process of construction at Exeter. The fact is Portsmouth is getting behind the times. Its public buildings are all inferior to those of any other large place in the State, and instead of being an income are a very great expense to the city.

2d. It is admitted generally that we need a commodious City Building, but because of the expense the day in which to erect the same is ever and ever deferred. But is it not for the real interests of the city to take this matter in hand *now*? Such a building is not only needed now but for all coming time. A high rent is paid for rooms which certainly should belong to the city. No town or city should be dependent upon private property,—and even then be insufficiently accommodated. The best site for a city building, I think it will not be denied, is on the old Market House lot in the rear of Market Square, together with the land extending through to Penhallow street. A good substantial city Building, three stories high, erected here, would answer all the wants of the city. The old building would contribute much material in the construction of the new. The basement story of such a city building, might be appropriated for the Post Office, (with Sam's consent,) and certain city offices, with an entrance on Market Square and also on Penhallow street; the second story for the Court of Common Pleas, and the City Council chambers; and the third story for a spacious City Hall.

It will be objected to this second proposition that the Market lot cannot be occupied for this purpose, but there is "a way where there is a will"; and further, that the city cannot at present incur the expense. This latter argument will answer well until such a building is erected, and Portsmouth is satisfied that an active public spirit, energy and perseverance are necessary to give a character to the city, create new channels of business, new enterprises, and make the city what it ought to be, not only the foremost in the State, but to rank among the first in New England. Portsmouth certainly possesses eminent natural advantages over many other cities, which even within the last twenty years were scarcely known but now have populations exceeding forty or fifty thousand. The fact is, what is most wanted,—the essential to make Portsmouth a large commercial and flourishing city, is PUBLIC SPIRIT.

OSSIAN'S BARDS give a Concert tomorrow evening. They sang at Great Falls, last week, and the Journal of that place gives them the following high praise:

"Ossian's Bards, under their present organization,are not to be compered with any other company that we ever listened to. In those four very essential points, viz., harmony—variety, purity of sentiment, and *real* humor, we doubt if they are *equalled* in America.—We looked for much, and are happy to inform our readers that our expectations were *more* than realized. Dodge, though a great favourite here, must own up beat to Harrison, whose powers for improvising and creating fun are truly wonderful.

ANNIVERSARY OF PEPPERELL DIVISION.—The Pepperell Division of the Sons of Temperance, in Kittery, will celebrate their Anniversary this evening, May 15, at their Hall in Navy Yard Village.

The exercises will commence at a quarter before 8, and will consist of an Address, with singing and prayer. Members are notified to attend.

TEACHERS' INSTITUTE.—We have received copies of the Catalogues of the two Spring sessions of Rockingham County Teachers Institute,—the first at Hampton, the second at Candia. Attendance at Hampton 106 members, 32 gentlemen, 74 ladies; at Candia 157,—63 gentlemen, 94 ladies. Both passed resolutions in praise of the institution.

LOST.—On the morning of the fire at my house, a silver WATCH—probably taken from the room in which it hung: the finder will be suitably rewarded on leaving it with
my14 WM. S. HADLEY.

SATURDAY AFTERNOON.—It is said the principal wholesale fancy goods stores in Boston have made arrangements to close their places of business on Saturday afternoons, during the coming summer.

THE VEGETABLE PULMONARY BALSAM has become the *most popular* medicine ever put forth, for the cure of *Coughs, Colds and Consumption.* That it is worthy of its high reputation is made sufficiently evident by the *immensity* of its annual sales.—Messrs. Reed, Cutler & Co. are above quackery, depending alone upon the intrinsic virtues of their medicinal preparations for their disposal.—Humbug is so plentiful that it gives us real pleasure to offer this trifling and *gratuitous* tribute of our recommendation to a Medicine we know to be of *real merit.*—*Vermont Burlington Sentinel.*

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which peopled the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and the kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, wilted in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

FROM CALIFORNIA.

NEW YORK, May 13th.—The steamship Illinois arrived here this morning from Aspinwall via Kingston, she did not put into Havana, the news there was obtained from the El Dorado.

The Illinois brings about 700 passengers and $1,115,000 in treasure.

The disaster to the Golden Age is reported as follows:

On the 29th of April at 2 A. M. the Golden Age struck on a sunken rock off the south west end of the island of Quibo, she commenced leaking badly, and it was deemed advisable for the safety of the passengers, mails and treasure, to run the ship ashore, which was accordingly done. A smooth sandy beach having been selected for the purpose, there was a strong probability of the ship being got off. After a detention of two days the passengers, mails and treasure were transferred to the John L. Stephens and landed on the 2d of May at Panama in safety.

The Sierra Nevada, from San Juan, arrived up at San Francisco on the 9th of April, and the Golden Gate from Panama on the 13th.

Business in California was very dull and money tight. Several mercantile houses had failed.

Seventeen vessels from Atlantic ports had arrived in six days.

The miners were doing well, but owing to the scarcity of coin, very little dust reached the market.

The mint had resumed operations. Rain had fallen steadily in the valley for a week, and in the mountains, snow to a great depth had fallen.

The unsatisfactory state of commercial pursuits was driving large numbers of clerks and mechanics to the mines.

The news from Kern River is as contradictory as ever, but the diggings are represented as by no means so rich as at first represented.

The Know Nothings were successful in the city elections all over the State. At San Jose, however, they had been defeated by a general fusion.

Both branches of the Legislature had fixed upon the 30th for adjournment.

The revival of the Senatorial question was considered very doubtful.

An Anti-Gambling Law of a very stringent nature had passed both Houses, and is calculated to effectually close all the gambling houses in the State.

Dates from Portland, Oregon, to April 7th mention that the Know Nothings had triumphed in a municipal election.

Every article of merchandise was dull of sale, and in many things a considerable decline had taken place. The closing rates were Gallego and Haxall flour in lots $14; extra choice butter 40c; crushed sugar 9 1-2; Lackawana coal $12; Cumberland $20; clear pork $18 a 19; mess $15; hams 20 1-2; spirits of turpentine 55 a 65c.

A party of five gentlemen including Mr. Carter, Purser of one of the mail steamers, and Dr. Watson of Taboga, were drowned while sailing in a pleasure boat in the Bay of Panama.

The trial of Martin Eastwood, for the murder of Edward Brairton, commenced in Rochester, N. Y., on Monday. The Union records this incident:

The widow of Brairton was present within the bar, and rose just as the calling of the jury commenced, and walked in front of the prisoner and exclaimed— "Oh! Eastwood, you are the murderer of my husband!" She then walked back and led forward her child, about two years of age, and said, "My child, this is the murderer of your father!" He was found guilty of the murder of Brairton, and sentenced to be hung on the 29th of June, since which Lewis Lerock has made a confession, and been sentenced to 8 years in the State Prison.

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser,

It has no equal. The experience of thousands, and its constant manufacture since 1846, fully prove all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to: many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.

Purchase a Bottle of
PRESTON'S CATHOLICON,
And if you are not satisfied with its effects, call upon the Agent and receive your money again.

Manufactured and sold by WM. R. PRESTON, Druggist, Portsmouth, N. H., to whom orders for Agencies may be addressed. a26 3w JS

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. S. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of. Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

A GOVERNOR'S HOTEL BILL.—Governor General Head being invited by the authorities to visit Montreal in March, lodged with Mad. St. Julien, a female hotel keeper, who has had the audacity to charge him $1600 for three days entertainment. The corporation, indignant at the exhorbitance, refuses to pay, and Madame has, without due respect for the powers that be, brought action for the amount against His Excellency. That gentleman would gladly pay it, and have done with the suit, but he cannot settle it without offending the authorities, who are willing to pay any reasonable amount. The Montreal Courier relates, as an apology for Madame's extortion, the story of George I, who was inordinately fleeced by a publican in an obscure Dutch village. No remonstrance could induce the sharp Boniface to relent, his sole answer being —"All very well, Mieuheer, but we don't catch a king every day in these parts."—*Atlas.*

ENGLAND AND AMERICA.—An able article in the last number of the Westminster Review upon the Constitutions and Governments of various countries of the earth, says that it "is no longer England, *but the North American Republic*, that has become the pole-star to which from all sides the eye of strugling nations turn." The New York Times thinks this is very significant admission to come from an English source.

Bounty Lands.

THE Subscriber is now prepared to prosecute with the utmost promptness all Claims for Bounty Lands granted by the law of 1855, which gives ONE HUNDRED AND SIXTY ACRES to all the officers of the Army and Navy, Soldiers, both regulars and volunteers, Sailors, Marines, Flotilla Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who have served fourteen days in any of the Wars of the United States since the year 1790, and in the event of their death, to the Widows or minor children, unless 160 acres have already been obtained; and where warrants of less than 160 acres have been obtained, new ones will be procured sufficient to make up that amount.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and cleanness of the Gose Quill, with at times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several irresponsible Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and as less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

THE JEWISH SABBATH.—It is unlawful to ride on horseback or in a carriage—to walk more than a mile from their dwelling—to transact business of any kind—to meddle with any tool—to write—to play upon any musical instrument—to bathe—comb the hair—and even to carry a pin in their clothes which is unnecessary. These, and a great many others, are complied with by the most rigid. There is one command in the law of Moses, to which all Jews most scrupulously adhere:—"Ye shall kindle no fire throughout your habitations upon the Sabbath." (Exod. xxxv. 2.) Consequently, they never light a fire, or a lamp, or a candle, on the Sabbath day, nor eat food prepared on that day—all must be done on Friday. As it is impossible to spend the Sabbath in cold climates without fire or light, the Jewish families who keep servants make it a point to have a Gentile in their service to do these things; and among the humbler classes a number of families generally unite in securing the service of a Gentile neighbor for the day. Nothing could wound the conscience of a Jew more than to be under the necessity of putting fuel on the fire, or snuffing his candles, on the Sabbath.—*The British Jews.*

THOUGHTFUL BENEVOLENCE AT THE POST OFFICE.—Paying postage on letters left at the Post Office unpaid, is not a "*new* kind of philanthropy." The late Mr. Law, of Baltimore—an Irishman by extraction if not by birth, knowing the heedlessness of the Irish, used to go to the Post Office the day before the mail left for the Atlantic steamers, and pay postage on all the letters of the poor that would have been left behind without such pre-payment. This he did unknown to any one except the Postmaster; and his payments had sometimes to be pretty large. After his death, this and numerous others of his good deeds, many of them equally original, came to light.

There was quite an excitement at the north part of the city on Wednesday night, owing to the disappearance of two children, one belonging to Mr. Sewell B. Noyes, and the other to Mr. Allen Pride, the oldest being but four years of age. A hundred persons were searching for them all night without success. They were returned on Thursday morning, by Mr. Newall Ordway, having been found in the woods some two miles back towards Turkey Hill, where they had been all night. The weather was quite cold, and if they experience no evils from their wanderings, they may be set down as a tough pair.—*Newburyport Her.*

BABY IN A BAND BOX.—Mr. Ziba Babbitt, one of "the fathers of the town," made a call at our office which proved to be interesting. In his official arms he carried a lady's band box, in which nestled in innocent and unconscious slumber, what we were told was considered a fine male infant, apparently one week old, the history of whose brief existence is yet almost a mystery. It appears that the band box aforesaid had been converted into a May basket, and with its contents was found suspended, May morning, at the door of the residence of the eminent Counsellor, N. Morton, Esq., accompanied by a neat note, in a neat lady like hand, saying "this infant came from a respectable family."—*Taunton Gaz.*

BOLD GROUND.—Orestes A. Brownson, a somewhat noted Roman Catholic writer, recently lectured in New Orleans. The Creole reports him as follows on the destiny of the Romish State:—"It must become the arbiter between the State and the subject. It must guard the man by interposing its flaming sword as a defence. *It must construe constitutions and expound laws*, deciding where is the limit of centralized power, and what is its absolute duty to perform."

The British government has presented the Republic of Liberia with a vessel of war, and the Emperor Napoleon has sent 1000 stand of arms, and accoutrements.

MARINE DISASTER AND LOSS OF LIFE.—The steamer Keystone State, at Philadelphia, May 12, from Savannah, reports, Friday night, in Delaware Bay, was run into by the schr. Adrian, from Philadelphia, for Fall River, coal laden. The Adrian sunk in 15 minutes. Three of the crew were saved; but George B. Hallett, the captain, and Prince A. Lovell, the cook, were lost. Off Bombay Hook, at 2 o'clock Saturday morning she was again run into by the schr. Little Tour. The schooner filled and went down in ten minutes, but all hands were saved.

DEATH OF A PRINTER.—Died at Littleton, N. H., 9th inst., of consumption, George C. Patten, aged 27. He leaves a wife and two children. Mr. Patten was a printer, and for four years worked in the office of the Boston Daily Advertiser. Subsequently for some months, until failing health compelled him to relinquish it, he was employed as manifold copyist of telegraph news for the Associated Press of Boston. He was a man of fine talents, and of exemplary character in all the relations of life.

A WALKING BIBLE.—Father Shehane, an old Universalist preacher in Alabama, is called by the people "the walking Bible."—In a county court it was discovered on a certain occasion that there was no Bible in the court house to swear the jurors upon. The Judge casting his eyes on the venerable preacher, said, "there's Shehane, he has the Bible in his head, they can lay their hands on him, and that will answer every purpose."

Morning Chronicle.

WEDNESDAY, MAY 16, 1855.

DREADFUL RIOTS.

The Louisville (Ky.) Democrat of the 7th inst. contains an account of a series of Know Nothing riots, of which the First and Second wards of that city were the scene, on Saturday, the 5th inst.

The Democrat says,—Saturday morning early, a crowd of jackalls, hyenas and bawdy house bullies took possession of the polls in the First and Second wards, swearing that no anti-Know Nothing, foreigner or not, should be allowed to vote, or even approach the polls, and they kept their word faithfully.

They stoned Dr. Strader, obliging him to fly for his life. They assaulted an aged German, standing in the door way of his house, and beat him severely. They attacked Mr. George W. Noble because he refused to tell for which party he voted, and knocked him down several times. An old German seventy years of age, was beaten nearly to death. A crowd pursued two young Germans into a brewery, broke the furniture, robbed the money drawers, and severely beat the proprietor, his wife, and several employees, sparing neither age nor sex. Mr. William Gray, who had been watching for an opportunity to vote, took advantage in the afternoon of a moment when the rioters were chasing a foreigner, and voted. Upon coming out, he was met by the crowd and attacked, one of them striking him a severe blow on his head. He drew a double barrelled pistol and fired. Before he could fire a second time, three pistols were discharged at him. He however fired a second time and then fled, and was finally rescued by some police officers. His hat was pierced by six holes, and two balls were lodged in the fleshy parts of his body. Eight bullets were cut from a fence behind which he had sought shelter. He would undoubtedly have been killed but for the exertions of the police.

The Democrat estimates that as many as one hundred or one hundred and fifty persons were injured during the day by the brutal assaults of the Know Nothing "guard." These scenes of riot and bloodshed reflect shame and disgrace, not only upon the actors in the affair, but upon the city and upon the secret organization with which they were connected, and the entire community in which they occurred.

The Eastern Argus remarks, on this intelligence:—

Such are the legitimate fruits of the fanatical Know Nothingism excited in our land.

And the same paper contains the following article on a kindred subject.

The people of Kansas have prepared a long memorial to Congress, setting forth the outrages committed by the Missourians in the late election, and asking its protection against a repetition of such wrongs, by enforcing the provisions of the Kansas bill. We shall give some extracts from this eloquent appeal of our brethren in Kansas. Language is inadequate to express our condemnation and abhorrence of the shameful and outrageous course of the Missouri Know Nothings in this matter.

It appears from all the extended accounts we have seen, that these Missouri Know Nothings which the Argus condemns and abhors, are slavery propagandists, and were doing the bidding of the renowned Senator Atchison!

It matters little by what name a party calls itself, if it advocates intemperance, injustice, slavery and violence, or like Senator A. reduces them all to practice.

When we get further accounts from the Kentucky Know Nothings, who made the riots in Louisville, we may be able to understand this matter better than we do now. As yet we see but one side of it. As we look at it, it is bad enough.

THE PARKVILLE OUTRAGE.—Mr. George S. Park, of Parkville, Mo., whose printing establishment was recently destroyed by a mob, has issued a card to the public, relative to that affair. He says he shall not leave Parkville, as ordered by the mob. Mr. Park is a native of Vermont. He emigrated to the West when quite young; he served under Houston in Texas, and was at the battle of San Jacinto; he afterwards served as an officer in the service of the United States, against the Indians on the western frontier. He was the principal founder of Parkville, and, in his card, declares that the representation that he is an abolitionist is false. Mr. Park was absent in Kansas territory, when his press was destroyed. A late but rather doubtful report from Western Missouri, states that his house has been burned by a mob and that he has been "lynched" in Kansas. It is believed by those who know him, that he would not submit very tamely to mob violence.

MASSACHUSETTS LEGISLATURE.—On Monday, in the Senate, the "personal liberty bill" was passed to be engrossed, without debate, by a vote of 22 to 8.

In the House, a bill was passed to a third reading to create a State Agent to purchase liquors for the town agencies, and also to perform the duty of selling agent for the city of Boston, in case the city shall refuse to appoint an agent.

Some disturbance was created in the House, during the afternoon session, by an attempt of Joseph Hiss to take his seat as a member from Boston and participate in the proceedings. He was turned out of the House and the Sergeant-at-Arms was directed to keep him out.

It is probable the man had been drinking.

FATAL ACCIDENT.—At South Danvers, 3d inst., James W. Jacobs, son of Joseph Jacobs, Representative from Danvers, aged 17 years, commenced climbing up a derrick near the new building erecting for the Warren Bank, when his companions commenced to swing it to and fro. The supports of the fabric gave way, and it fell with the boy, injuring him so that he died in a few moments.

POLICE COURT, PORTLAND.—In the Police Court, Saturday, occurred the first examination on the charge of liquor selling under the new law. Singularly enough this was against a woman, Mrs. Isabella Watson, who was adjudged guilty, and ordered to pay a fine of $20 and cost, and to be imprisoned thirty days in the county jail. Mrs. Watson appealed, and recognized with surety in $200.

James McMahone, for selling liquor to Thomas McGee, was ordered to pay a fine of $20, and to be imprisoned thirty days. McGee was committed to jail on Friday, for thirty days, having been convicted of drunkenness, and refusing to testify where he purchased his liquor; but on Saturday he thought better of the matter and came in and testified against McMahone, who was committed to jail in his turn.

James Elliott, drunkenness, sentenced to the House of Correction for sixty days.—*Portland Adv.*

AN INTERESTING HOUSEHOLD INVADED. John Murphy and his wife, who, with their five children live in the old building next to the Fox Block on Exchange street, became so noisily jubilant late Saturday night as to attract the notice of the police. Accordingly a couple of the guardians of the peace attempted to enter Murphy's castle, but the lord thereof met them at the gate, and with upraised hatchet kept the invaders at bay until more policemen, including Deputy Ring, arrived on the spot. The place was then carried by storm, after a stout resistance by man and wife. Murphy's hatchet grazed the hand of the Deputy Marshal, and shaved off a piece of skin; and the devoted wife, determined to protect her "poor dear husband," made so sharp an attack with a club from the rear, that it was deemed necessary to slightly diminish her vivacity by an application of the "billy." Murphy fought like a desperado, and was not disarmed of his hatchet until they had floored him and wrenched it by main force from his hands. The whole scene was agreeably heightened by the screams of the five children, between the ages of six months and seven years, one of which was on a bed, another in the cradle, and another on the floor. Murphy was taken to the watch-house covered with blood, and swearing vengeance on all concerned in disturbing him. The wife was left to take care of her children, but before morning the watch found her again raising Ned. A bottle of gin, which was found in the same place, indicated the cause of the row.—*Portland Adv.*

REMOVAL.—Mr. Rufus Small has removed his residence from Biddeford to Dover, N. H., where he will hereafter carry on business. Mr. Small has been actively engaged in building houses, auction and other business, for a number of years, and always succeeds, by his enterprise in carrying through what he undertakes, and to the satisfaction of those with whom he deals. He has the reputation of meeting promptly and honorably his business engagements, and his ability and disposition to do so is unquestioned. All persons to whom he is indebted will be promtly paid on sending him their bills at his new residence, and all who are indebted to him, or wish to confer with him on business, are requested to address him at Dover, N. H., and he will give their letters prompt attention.—*Biddeford Union.*

We clip the above from the Biddeford Union, of the 20th inst., and cheerfully give it a place in our columns. Mr. Small has located himself at the American House in Dover, where we are happy to say, he is meeting with that encouragement from our citizens which his indomitable energy and enterprise has so richly been won. We have the assurance of gentlemen of undoubted integrity, of the ability and capacity of Mr. Small, to execute any undertaking in which he may engage, and we commend him with confidence to those of our citizens with whom he may have occasion to transact business.—*Dover Gazette.*

AN ELEPHANT'S COMPANION IN TROUBLE. A Malay named Solomon Dehman, who was brought over in ship Venice, to tend upon an elephant, was sent to the Almshouse as soon as the elephant was landed. Being discharged from that institution, he went into the streets in his half naked native costume, and was arrested and taken before Alderman Clement on the charge of indecent exposure. Instead of measures being taken to furnish the poor fellow with clothes, he was sent to prison to answer to the charge of misdemeanor.—*Pennsylvanian.*

LAKE WINNIPISAUKEE.—The Steamer Dover, (Capt. Sanborn,) and the Lady of the Lake, have commenced making their regular trips on this lake. A new steamer, built at Moultonborough Falls, by Mr. Bryant of Boston, and to be commanded by Geo. G. Bumpus, will be ready to make her trips next week. The boat is 110 feet in length, deck 16 feet, outside of wheels 22. She will make regular trips to and from Lake Village daily, and also to Alton Bay, Wolfborough, Tuftonborough, Meredith Village, and other places bordering on the Lake.

THEOLOGY AND DANCING.—The French in Paris have got a new excitement, which divides public attention hitherto concentrated upon the war. The Archbishop of Lyons, in his pastoral letter for Lent, has declared that the cholera was sent merely as a punishment for the eagerness with which the ladies of Paris run after pleasure—"joining in a certain lascivious dance called polka, suffering every man but their own husbands to clasp them in the waltz, which latter dance may be considered the last sigh of 'expiring virtue.'" The only remedy, therefore, for the cholera is to put an end to the polka. The Count Montalembert and another father of the church have taken up the cudgels for the polka and dancing generally, which they consider not only moral in its influences, but of a certain political consequence. "Displays at balls, theatres, and promenades kept up the industry of France, and gave labor to the poorer classes." Whether the political economy on the one side is any better than the theology on the other is a question which the Parisians do not take the time to investigate; they go on with their dancing, satisfied that, as long as it contributes to public amusement, it must be founded in some real public want.

FIREMEN.

Messrs. Editors:—Can you tell me why firemen and engineers should toil so hard for the benefit of Insurance Companies, without pay and without thanks from them? Can you tell why insurers should have a license beyond other men for finding fault with engineers for deficiency or error in judgment? And can you tell why insurance offices should not contribute towards the support of the fire department? Our fire department in this city, costs something like $3,000 per annum.

A BURNT CHILD.

☞ We cannot answer all these: but will do something towards it. In this country, where Mutual Fire Insurance is common, the fire companies, so far as they are paid, are paid on a fair plan, viz. by a tax on property. But they are not fully paid: and the agents or insurers have only the common right of all grumblers to exercise their birth right of saying how things ought to be.

Every one, however, does not insure: and very few persons insure fully. So that the firemen toil not for insurers alone, but for the insured, and for the uninsured also. One building burns another,—and stopping a fire saves property for all classes who are exposed.

In London, the Insurance Companies employ and pay what they call the Fire Brigade, which puts out the fires without the City's having any thing to do with the matter, except that the Police give the Alarm and preserve order.

This system, however, is hardly practicable with us, under our complex government, and with Insurance Companies chartered in one State and insuring in another.

THE CONCERT this evening promises to be one of the best of its kind. Ossian's Bards receive the most unstinted praises from every quarter; and their programme certainly offers great attractions. And yet it costs but fifteen cents to hear them.

☞ On Tuesday at 12 o'clock, the Portsmouth Bath House, with its furniture, was sold at Auction by J. P. Bartlett, for $945. The purchaser was Lyman D. Spalding.

☞ The Telegraph wires were extended across Portsmouth Bridge on Tuesday: and the Office in this city is expected to be open and in operation on Thursday, May 17. The office is in Deer street, near the depot of the Eastern Railroad.

FROM CALIFORNIA.

NEW ORLEANS, May 14th.—The steamer Prometheus has arrived from San Juan, bringing California dates to the 24th ult.

The Northern Light sailed from San Juan for New York on the 8th inst, with 350 passengers and $300,000.

There is but little news of interest from California. Two more heavy failures occurred in San Francisco, viz: Jose Duncal for $80,000, and George B. Upton, Jr. for $100,000.

Saunders the forger had escaped in a vessel bound to China.

Business continued very dull, and prices were much depressed.

The California papers teem with the usual details of crime, and numerous suicides are reported.

WOMEN AMONG THE MORMONS.—A letter writer, dating from Salt Lake City. Feb. 28, says:—The Mormons, after their passions, (or, as they call it, their holy desires to people the earth) are gratified, seldom pretend to support their numerous wives. Brigham Young declared last conference that he did not know how many wives he had. 'Tell the Gentiles,' said he, 'I do not know half of them when I see them.' The majority of these poor women are compelled to work for their daily bread, and many are in such a destitute condition that they are forced to seek the charity of strangers. It is an actual fact that one of the wives of the chief of the Apostles gains her livelihood by washing for the boarders of a public house in town. Indeed it is nothing uncommon for these lords of creation to send their wives out in the canons for wood, and any day you can see women chopping logs and driving cattle to the mountains.

Here would be a great field for your strong minded women. If a few Bloomers and fast young ladies would come out to Utah and raise the cry of 'virtue and independence' in the valleys of the mountains, the whole Mormon female community would rise in a mass to shake off the shackles that bind them.—But there is no one here to lead them on. The fear of being 'sent to eternal hell across lots,' as Brigham classically expresses it, deters them from such a course, and the desert plains that hem them in on every side prevent them from slipping secretly away to California or the States.

RAILROAD CONDUCTORS ARRESTED.—The Burlington Free Press of last week says that Dufresne, well known to the travelling public as conductor on the Champlain and St. Lawrence Railroad, for nearly twenty years, and George Griswold, conductor on the same road, were recently arrested on suspicion of embezzling money received for fare.

A petition praying that Mr. Smith O'Brien may be allowed to return to England, has been signed by several members of the House of Peers, and by nearly one hundred and thirty members of the House of Commons.

Fresh Shad.

50 FRESH SHAD just received by REUBEN RANDALL.

The Cincinnati Daily Times, the Western organ of Know Nothingism, gravely asserts that Hiss is without doubt a Jesuit in disguise—having been, as he said, brought up a Catholic, and has palmed himself off upon the American party as a patriot, for purposes best known to himself and his accomplices.

THE VEGETABLE PULMONARY BALSAM has become the *most popular* medicine ever put forth, for the cure of *Coughs, Colds and Consumption.* That it is worthy of its high reputation is made sufficiently evident by the *immensity* of its annual sales.—Messrs. Reed, Cutler & Co. are above quackery, depending alone upon the intrinsic virtues of their medicinal preparations for their disposal.—Humbug is so plentiful that it gives us real pleasure to offer this trifling and *gratuitous* tribute of our recommendation to a Medicine we know to be of *real merit.*—*Vermont Burlington Sentinel.*
[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m a2 d&w

THE CROPS, near Petersburg, Virginia, have sustained a great deal of injury, from the dryness of the spring and the chinch bugs. In Florida, corn, cotton, cane, &c, are unusually backward. In Kentuckey, the Maysville Eagle says: "No rain of any consequence has fallen for several weeks, in this section, and the grass is growing too slowly to furnish food. The prospect for the small grain crop is good, and the corn is coming up finely.—New York spring opens finely, both for work and for the growth of whatever is planted or sown. In Iowa everywhere the wheat looks better than it has for years. In Wisconsin the winter crop of wheat looks remarkably promising. The Chigago Tribune of May 2d, says: "We do not recollect a season for many years, when on the first day of May the country has looked so beautiful, or the growing crops of wheat, oats and grass so thrifty, as they now do. The amount of wheat sown is fully *one-fourth larger* than ever before.

The Rochester Democrat of the 5th says: We learn from Ephraim Goss Esq., of Pittsford, who has just returned from quite an extensive western tour, that in the six States through portions of which he passed, the wheat crop looks well, and there is a pretty large breadth of land sown. But in Southern Michigan, it surpasses anything heretofore seen in the western country. It is considerably more forward than in western New York, and promises such a yield as has never been surpassed in any portion of the Union.

The famine prices of everything eatable, which have prevailed during the past year, have had the effect to wake up farmers to more extended cultivation of the soil; and in the grain growing regions of the west, particularly, great efforts are put forth to produce a large crop. And to the success of their efforts the deep snows of the past winter have materially contributed; the winter grain having been carefully covered and preserved from the frost during the cold season, and brought forth this spring in the best condition.

DECEASE OF AN EMINENT SCHOLAR.—Died at Middlebury, Vt., April 29, of an affection of the heart, Rev. Thomas Abbott Merrill, D. D., after an illness of several weeks. He was born at Andover, Mass., in 1780, and was subsequently a resident of Rockingham county, N. H. He graduated at Dartmouth College in 1801. He was eminent as a scholar at college, having been the classmate of Daniel Webster, and a successful competitor with him for the first honors of his class. He was a man of most decided intellectual power, as this circumstance alone would prove. After his graduation he officiated as a Tutor in Dartmouth College, and in 1804 was chosen Tutor in Middlebury College, in which capacity he served until the following year. He was settled as pastor over the Congregational Church in Middlebury, December 19, 1805, a relation which was continued until his death, though not, for a few years past, discharging the active duties of that office. The funeral sermon was preached by Rev. James Meacham.

SIX INCHES OF SNOW.—We were visited last night with a heavy fall of snow, which, this morning, despite of the continued thawing, covered the ground to the depth of six inches. The storm commenced with an East wind, which changed towards morning to the South and West. Snow has continued falling all the forenoon, but the weather is so much milder, that it thaws faster than it comes.—Old settlers tell about the storms that they have seen in their younger days; but we believe that in size, quantity, time and occasion, this cannot be beat by any former experience. —*Lockport (N. Y.) Courier, May 8.*

Mourning Goods—a great variety.

Having made himself acquainted with the demands of his customers, he takes pride to announce that his agent in New York has taken especial care to make a selection, which, in beauty and style, will surpass any other establishment in that line, in this city; and as for fairness in trade, he flatters himself of having given ample proof that his endeavor is to sell GOOD ARTICLES only, and at very small advances.

Ladies are respectfully invited to call, as it will gratify him to exhibit his stock, even if no purchases are made. my10

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser,

It has no equal. The experience of thousands, and its constant manufacture since 1848, fully proves what can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.

Purchase a Bottle of
PRESTON'S CATHOLICON,
And if you are not satisfied with its effects, call upon the Agent and receive your money again.

Prepared and sold by WM. R. PRESTON, Druggist, Portsmouth, N. H., to whom orders for Agencies may be addressed. a26 3wsp.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

RENDERING PRISON BARS USELESS.—Seven men recently escaped from the debtor's prison in New York, which led to a strict investigation into all the circumstances of the case, and the singular fact has been revealed that a Hungarian chemist, who was among the fugitives, had manufactured some solution, the application of which to the iron bars at the windows of the prison, had reduced them to the softness of lead, so that they could be cut or sawed off with ease.

Bishop Whitehouse has issued a private circular to the clergy and vestries of the Episcopal Church in the Diocese of Illinois, to the effect that he intends to retire from his present position. Among other reasons for this step, he gives as one that he is not adapted to the present social and moral condition of the West. The matter will go before the House of Bishops for their acceptance, and it is generally understood that the diocese will interpose no obstacles to the contemplated resignation of the bishop.

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HEETS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HEETS, BROTHERS, PATENT, 1853" and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

AMERICAN SOLDIERY.— The last Westminster Review has an article on America which widely contrasts with much that has hitherto come from the British press. For instance, it says:

"One knows not what is most to be admired in the Mexican war—the facility with which an army of volunteers submitted to discipline, the perfection of their weapons, new inventions of America, handled with a skill previously unknown—the goodness of their Commissariat in a wild and vast country, or the flexibility of their mechanical adaptations as to reporting, printing, and communicating homeward. For fifty years past, the merchant ships of the United States have notoriously been far better built than those of Great Britain; and as in 1812 our gunners were very inferior to theirs, so at the crisis of the Mexican war, into which they plunged out of a long peace, their practice in small arms was immeasurably superior to any thing the trained British regulars had at that time attained."

"Speaking of snuff," said Mrs. Partington smiling, as she stood admiring a small pot of the pungent powder, delicately scented, that Col. Rhoades had sent to her with a letter sweeter in its profusion of compliment than the gift it conveyed—she stooped down and closed her eyes, inhaling the delightful aroma that arose from the jar. "Speaking of snuff," said she, laying her hand tenderly on the brown cover of the jar as if it were a sensuous thing and she was fearful of hurting it, "such as this can never be dilatory to the health. The flavor is beautiful as the balm of a thousand flowers. Talk of the injurious tenderness of snuff, indeed! I say it has the effect to extenuate life, for there was old Mrs. Aims, who took snuff all her life, lived till she was nearly a centurion, and then at ninety seven had her days shortened by leaving off taking it. I don't think there is anything harmonious in it, and many a poor creatur with a guitar in his head has been cured by it. There's Mrs. Dorner's"—— She was here brought to a dead stop by an exclamation from Ike, who had been quietly trying the effect of snuff upon the cat, who was calmly sleeping by the stove, and had found it was unsafe to administer, unless the feline claws were first secured.—*Post.*

TAKING A LANDLORD AT HIS WORD.— We have heard of cool things, but never anything cooler than the following: The landlord of a hotel at Whitehall called a boarder to him one day, and said: "Look o' here! I want you to pay your board bill, and you *must!* I've asked you for it often enough, and I tell you now, that you don't leave my house until you pay it! "Good!" said his lodger; "just put that in writing; make a regular agreement of it; I'll stay with you as long as I live!"—*Knickerbocker Magazine.*

Shakspeare's profession was not authorship but the stage. Milton was a schoolmaster and secretary. Addison, too, was a secretary of state. Pope was a man of private fortune. Fielding was a justice. Richardson kept a shop—so did Godwin. Cowper lived on his patrimony, and on gifts from his relatives. Wordsworth was a stamp-master. Croly is a rector. John Wilson was a professor. Shelley was a gentleman of fortune, and heir to a baronetcy. Byron was a peer. Carlyle has an estate. Browning is a man of fortune and family.—*Gilfillan.*

Also Extra Pay to the Sailors and Marines who were in government vessels on the coast of California, from the commencement of the war with Mexico until Feb. 1852, or during any part of that time, and all other Claims for Naval Service. Pensions to the Widows of Revolutionary Soldiers, and to the Widows of officers and soldiers in any of the wars who have died in service, or since their discharge, by reason of wounds received or disease contracted while in the line of duty. Also, to officers and soldiers disabled in the service, and to the Widows of officers, sailors and marines who have died in the Naval service.

LAND WARRANTS under the Act of 1855, procured for Soldiers and Seamen who were in actual service fourteen days under State or U. S. Officers, in the war of 1812, Florida war, or war with Mexico, and for their Widows, or Children now minors, unless 160 warrants have already issued; and where warrants less than 160 acres have been obtained, new ones will be procured sufficient to make up that amount, on application in person or by letter, as above.

Morning Chronicle.

THURSDAY, MAY 17, 1855.

NULLIFICATION.

We see it stated, that Mr. Atchison, late Senator from Missouri, commanded one of the parties which invaded Kansas, at the same time Mr. Sumner, a Senator of Massachusetts, was lecturing in various places, counselling and urging people to trample the fugitive slave law under foot. Thus we see that one portion of the people dislike and disregard one law; another portion trample upon another law; one Senator violates a law, lest a territory becomes a free State; another tramples and spits upon another law, because a slave may be returned to his master by its authority. One nullification follows another; and who is to say when and where the disregard of law is to end?—*Eastern Argus.*

The question is well put; but not easily to be answered in direct terms. A plain principle, however, may be stated, which will help to promote a clear idea of *law* and its obligations. The above quotation seems to regard slavery as exactly equal with freedom, having the same right to legal protection; and also to consider every *act* in the form of a statute, to be really a law.

Both these ideas are the merest fallacies.—Slavery is a wrong in itself; it has no rights; it can acquire none by statute. It may grasp *power*, but it has no foundation in *right*, principle or equity, and therefore its defence is not *law*,—but mere strength or craft, in the oppressor.

But liberty and life are the *rights* of men; and law is and ought to be their defence.

So also, it is easy to enact any wicked idea or corrupt practice into the form of a statute; and give it, so far as the form goes, a legal sanction: but conscience, common sense, humanity, revolt against, overthrow, and trample it under foot. It is no law. No honest man need feel bound by it.

There is a remarkable difference between the two Senators named; but *both* the acts here called in question are wretched pro-slavery statutes, as we have shown repeatedly.

We had the honor to write one of the earliest protests against the new fugitive act and against Mr. Webster's speech in its favor.—So of the Nebraska-Kansas bill—designed to extend slavery; we denounced it early and often.

Atchison was an advocate of both. He is now carrying out the same idea on which they are both founded. He is a consistent man: the champion of slavery, drunkenness and violence,—he practices what he preaches.

The Lowell Courier says—"It is not generally known why the Legislature provided that the Liquor Law should go into operation on the 20th. The Millerites have appointed the 19th for the end of the world, and the members thought that if it should happen, it wouldn't be worth while to give up their liquor *for so short a time*. So they made the law of no effect till the day after the 19th, hoping, if they did go up, to get credit for passing the law without having been put to any trouble by its operation. We take it this was just the reason."

We take it, this was a desperate attempt in the Courier, to be witty; though we do not think it remarkably successful. There is no harm in recording the fact, however, that the timeists, among the Adventists, have fixed on the 19th for the general conflagration; and that the Massachusetts liquor law begins to operate on Sunday the 20th.

The New York Tribune says that the Massachusetts House of Representatives,—"so far as personal character is concerned, is as honest and respectable a body as ever sat in Massachusetts." The Tribune, it will be recollected, is down on the American party.

That is the thing, exactly. Hiss, Eames and others, are a disgrace; so are Atchison, Douglass and others. Nevertheless, the great body, both of the General Court and Congress, are men of better character, otherwise they could not be disgraced.

☞ Col. Kinney was brought before Judge Kane, of the U. S. District Court, at Philadelphia, on Tuesday, and held in the sum of $4500, to answer a charge of violating the neutrality laws, in fitting out a vessel in that District against Nicaragua. The alleged vessel is also prepared for sailing, with ammunition, stores, and 300 men. Mr. Pressey, of the Girard house, became Col. Kinney's security. Geo. M. Dallas appeared as his counsel.

Ex-President Fillmore a Know Nothing.—A correspondent of the Buffalo Democracy says that he will prove by affidavits, that ex-President Fillmore has joined the Know Nothings. The Albany Journal copies the correspondence of the Democracy, and reads the said Fillmore a severe lecture.—*N. Y. Courier.*

The Albany Journal is no friend to President Fillmore. If the Know Nothings please to nominate Mr. Fillmore for President, they will do it—and it will be hard to beat him.—*Boston Courier.*

☞ Fowlers & Wells' Phrenological and Water Cure Journals for May are received.—The former has two portraits—one of Frank Palmer the leg maker, and the other of Dr. Dixon, with other illustrations.

Archbishop Hughes' Promised Vindication.—Archbishop Hughes' statement in refutation of Senator Brooks, appeared in the New York papers of Tuesday. The Archbishop has employed a brace of lawyers to search the records for him, and report how they stood. The lots recorded as belonging to him are seventy-seven in number, and are occupied by churches, school houses, &c.—Though the fee of these lots is nominally in the Archbishop, there is no doubt that equity would step in, if he should attempt to oust the congregations who worship upon them. Bishop Hughes says that competent judges estimate the value of these seventy-seven lots to be about $385,000, but there are mortgages recorded on them to the amount of $245,640. The Bishop says that in order to reduce this property to possession he should have to turn fifteen congregations into the streets.

He acknowledges that the titles of these lots are nominally vested in him in accordance with the usages of the Church, but he receives not a farthing's income from them; neither does he trouble himself at all about the management of the temporalities vested in him, &c. He insinuates that sundry editors, who have been particularly hostile to him during his controversy with the Express and Senator Brooks, are too poor in the resources of their printing offices to possess any type which would represent the symbol of Christianity, and, as the next substitute thereto, or rather in ridicule thereof, they substitute the sign of the assassin—the dagger. They imagine apparently, that this substitution will make tremendous havoc on the reputation of Archbishop Hughes.—*Boston Chronicle.*

There is no reason why American newspapers should have a type to represent the Roman sign of the Cross. They have rarely if ever, any occasion to use it. The Bishop's allusion to this matter is an exceedingly small business; and his defence is very lame.

Foreign Catholic Bishops in the United States.—The New York Evening Express says—"A correspondent, in answer to an inquiry in the Express, a day or two since, as to how many of the Bishops recently sitting in Provincial Council at Baltimore were foreigners, says there was *not one American among them.* Bishop Baily of New Jersey, and Bishop Spalding of Kentucky, he adds, are the only Bishops of the Romish Church in the country, born on its soil."

The injunction granted in the case of Miss Bunkley, the escaped nun, and her book, was heard Friday. It came out that the real work of Miss B. consisted of 18 pages, badly written ungrammatically and badly spelled—while the book, as stereotyped, comprises 344 pages. The publisher's lawyer plead earnestly to have the injunction dissolved, because the book was needed to effect the election in the State of Virginia. The Judge would not dissolve the injunction, and the Know Nothings may be defeated for want of the disclosure in Miss Bunkley's book!—*Salem Journal.*

Rev. Asa Cummings.—It appears that Mrs. Cummings, wife of Rev. Asa C. of Portland, inherits the 50 or $60,000 from her brother. The Portland State of Maine says of Mr. C.

There is no man in this community by whom such a legacy would be better used. A little anecdote has come to our knowledge which illustrates the character of the man. At the time when he bought his house on Spring street, real estate in this city was much depressed, and houses sold at very low rates. Notwithstanding this fact, Father Cummings gave $200 more for the house than any one else would offer, considering it worth the amount. Not long after, through the influence of the railroad, and other improvements, real estate rose in value, and Father Cummings, unwilling to make gain out of such an event, sent $300 more to the gentleman of whom he purchased the house. If this is not true benevolence, we do not know what is.

Be Careful.—It is important for all persons to mind their "particles of speech," as Mrs. Malaprop has it, and also particles of writing. The following is a case in point:

A merchant, not so celebrated for the elegance of his diction as for the length of his purse, wrote to his correspondent in a distant city for a lot of flour, adding, by way of showing his impatience, that he wanted it "the worst kind." He was not less surprised than chagrined on reception of the article, to find it full of weevils, sour and musty.

Scan. Mag.—A New York paper states that nothing has been heard of the parties in high life, who eloped from that city, a few weeks since, though they are supposed to be at the South. The names of the parties are given by the same paper. They are Mr. Dwight, recently known as one of the largest jewelers in the city, and Miss Halsted, an unmarried lady, 28 years of age, surrounded with all the appliances of affluence, and was the object of the fondest hopes of her parents. The flight was consummately arranged, and so skillfully executed that not the slightest suspicion was created either by the family of Dwight or that of Miss Halsted. Dwight has left a wife and two children.

There was no man in the community who made louder professions of piety, or made himself more officious in personal exertions to make others feel how hopeless was their case unless they followed his example of piety, than this Mr. Dwight. And he was really regarded as one of the pillars of the church of the Puritans, Rev. Dr. Cheever's.

The editor of the Elmira (N. Y.) Republican has found out where the Know Nothings assemble. It is in a cave close by the town, the entrance to which is a hole just large enough to admit one man at a time. The last one in takes the hole along with him, and thus they defy detection.

In the Home Missionary Society Prof. Haddock, D. D., of Hanover, N. H., late U. S. minister to Portugal, moved the following resolution:—

Resolved, That we owe it to the old world to sustain and extend the Protestant religion in the new.

LOCAL.

Mercantile Library Association.—This Society, now two years old is in a flourishing condition, and bids fair to be and remain one of the institutions of this city, no less permanent than the Athenæum. Two years ago, in March, several young men, of whom Mr. Chas. C. Harvey was the prime mover, proposed the plan of forming an Association for the purpose of building up a library, and improving their minds by discussions, essays, &c. and in the following April the first regular meeting was held, and the officers chosen. Two of the members promised to become responsible for the rent, before a room could be obtained.

At the the time of the first semi-annual meeting, the library numbered about *fifty* volumes, and the number of members was 70. By a proper representation of their condition to certain individuals who were friendly to the plan of giving encouragement to our youth at home, a small fund was raised and applied to the purchase of books; and about the same time several valuable donations were received from friends in Boston.

The library has been gradually increased by presentations, and by purchases, until, at the present time, it numbers over *twelve hundred volumes*, of which 360 have been added the past week—200 by purchase, and 160 presented by James F. Shores, Jr. The selection of books is probably as good as can be found in any other library of the size in the State.

Within a few months a Reading Room has been added, which is furnished with nearly a hundred newspapers from all parts of the country, and also with the most popular periodicals of America and England. The room thus far has been well patronized by our citizens.

The institution, it is known, projected and carried out a successful course of popular Lectures last winter, which besides their intrinsic value, aided the funds of the Association.

It is contemplated to apply for an act of incorporation, at the coming session of the Legislature—to which body two members of the Association are elected.

Health.—The annual notice of the Health Officers for the preservation of the health of our citizens, is published today on the fourth page. Persons interested should govern themselves accordingly.

The Ballardvale Machine Shop, which for two years has been standing idle, and which the company sold about a year ago, at an immense sacrifice, to A. Kittredge, of Haverhill, has just been let for two years for the purpose of manufactoring India rubber goods.—Some fifty persons will be employed, which will give an appearance of life to that almost "deserted village."—*Salem Journal.*

Sudden Death.—A man named M. Goodenow, harness maker, was found dead in his shop on Cambridge street, East Cambridge, Monday morning, sitting on his bench, with his awl in one hand and thread in the other, leaning back. He leaves a wife and children. The death was doubtless from an affection of the heart.

Mr. Park, of the Parkville Luminary, has gone to Illinois, where he owns a farm. Mr. Park is a Boston man, and a slaveholder. The objection to him on the part of the *Parkvillians*, is that he does not think that they have any right to vote in Kansas.—*Telegraph.*

Left for Europe.—Amos P. Tapley, Esq., and Rev. Charles C. Shackford of Lynn, left Boston, in the Africa, on Wednesday, for Liverpool. They intend to journey in company on the continent, and will be absent about four months.—*Lynn News.*

Hall, the negro barber, who was arrested at New Orleans for robbing a man of $1400, by administering chloroform while shaving him, at Dunkirk, N. Y., was tried at Mayville, N. Y., on Saturday, and sentenced to fifteen years' imprisonment.

A Democratic State Convention in Maine, for the nomination of a candidate for Governor, will be held in the city of Augusta, on Thursday, the 21st day of June next.

Return from a "Reverie."—Donald G. Mitchell, Ik Marvel, has returned from Europe—the husband of a wife, the father of a babe.

HOUSEHOLD LYRICS.—BY SQUIBS.

Thirty cents a pound for butter,
Twenty ditto for good beef,
Ought to make an angel sputter,
Or to be beyond belief.

Flour good for thirteen dollars
For a barrel can be found,
Yet the girls *will* wear lace collars,
And must each have a silk gown.

Wood to burn is getting dearer
Than was ever known before,
And it costs as half a dollar
To *look at* a Grocery store.

Everything in price advancing,
Makes the poor man look aghast;
Yet the daughters must have dancing,
While the sons are living 'fast.'

To a sudden stop, however,
All these things do surely tend,
Hard times *cannot* last forever;
Even they must have an end.

In what Estimation it is Held by Public Men.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the Vegetable Pulmonary Balsam, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."

Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. Preston, J. H. Thacher, and D. Kimball, and sold by the Druggists throughout the United States. 2m a2 d&w

LATER CALIFORNIA NEWS.

NEW YORK, May 16.—The Northern Light arrived this forenoon. She bring news to the 24th ult, 361 passengers, and $278,000.

Owing to the general distrust in banking houses, the passengers have a large amount of specie in their own hands.

The recently discovered mines at Sand Hill, Yuba county, were reported to be yielding on an average $50 per day for each man.

It is said that the planting of wheat in the agricultural districts had been much larger than ever before, and this too with California flour selling at $6 per bbl.

Outside efforts to get up another trial to elect a U. S. Senator were quite vigorous, but the chances were quite slim.

According to letters from Sacramento the question had assumed a new and complicated phase, as under a strict construction of the law relating to elections, there appears to be no doubt that Dr. Gwinn is intitled to a seat in the Senate. The constitution declares that a plurality of votes shall elect where not otherwise declared in the constitution. Dr Gwin having received a plurality on the first ballot, it is contended he was then constitutionally elected.

Two hundred and sixty-four ejectment suits had been commenced in San Francisco under the statute of limitations.

Markets dull and prices downward. Haxall flour $14. N. O. Sugar, 9 1-4 cts. Mess Pork $16.

NEW YORK, May 15th.—The steamer Granada arrived at this port this afternoon with dates from Havana to the 10th inst. The news is unimportant. The U. S. Mail steamer El Dorado left Havana on the 10th for Aspinwall.

The bark Grapeshot returned to this port with the fugitive Baker, the murderer of Bill Poole on board. The Grapeshot arrived off Palmas in seventeen days from this port and laid on and off, until the Isabella Jewet hove in sight, when they boarded her and captured the fugitive.

The Grapeshot arrived eleven days before the Isabella Jewet, the latter being boarded off the island of Palmas. Baker was ignorant of his being pursued. He was on board the Isabella Jewett two days before she sailed, and shed tears when he met Turner.

CHICAGO, May 14.—Mr. J. W. Peterson, of the Parkville Luminary, has returned to this city, his former residence.

The Baptist Home Mission convention met here this morning. Dr. Cone was elected President. The attendance was very large. There were delegates from thirteen States.—The report of the provisonal committee was adopted, and the committe continued until the society remove from Nassau street to the Bible House. Resolution were passed unanimously approving of the course of the committee and minority of the Home Mission Board, and strongly condemning the majority, directing the convention to organize a new society, and pledging the convention with the committee appointed last week in Brooklyn. A great conciliation meeting was held this P. M. Dr. Armitage and all present pledging themselves to harmony and co-operation.

ROBBED OF EIGHT HUNDRED DOLLARS.—The Nashua Gazette says:

As Captain Oliver Sprague was returning from Nashua to his home in Hudson, last Friday, a couple of boys having a dog asked him to give them a ride. On the way, they abstracted his pocket book, containing $800, which he had taken while at Nashua. It is probable the boys saw him take the money, and knowing who he was, placed themselves on the road he would take, in going home, and contrived this way to rob him. The boys rode only a short distance with him, and he did not discern his loss until he arrived at home They have got upon the boys' tracks, and will probaly secure them.

CINCINNATI, May 14th.—The provincial council of the Catholic Church commenced its session at the Cathedral in this city yesterday. There was a very large attendance, and the ceremonies were extremely imposing.

ALBANY, 15th.—Judge Conklin, late U. S. Judge, in compliance with a request from the executive committee of the New York Temperance Society has written an opinion with special reference to the search and seizure clauses of the prohibitory law, and sustained the law on these points.

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser.

It has no equal. The experience of thousands, and its constant manufacture since 1848, fully prove all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and merely to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.

Purchase a Bottle of

PRESTON'S CATHOLICON,

And if you are not satisfied with its effects, call upon the Agent and receive your money again.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Wood, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston.
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Pipe, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong. from Pa.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and cleanness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices where they never need writing, nor in Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Apply to the Patentee,
WILLIAM H. FOSTER, Portsmouth,
Or to YEATON & HALE, Portland. f7

EARLY BAPTIST MINISTERS IN NEW HAMPSHIRE.—The first minister settled over a Baptist Church in this state, was Rev. Walter Powers, in Newton. The church there was constituted in 1755, one hundred years ago. This is the first Baptist Church organized in the state. It is said that Mr. Powers was ordained the same year. That church lost its visibility, and was revived again, some few that had been members remaining, 1796.

The second Baptist minister settled in the state was Rev. Maturin Ballou, in Richmond, in 1770. His son, Rev. Hosea Ballou, a well known Universalist preacher and writer, was settled over the Second Universalist Society in Boston, 1817, and died Jan. 7th, 1852. A son of this last is Maturin M. Ballou, proprietor of the Pictorial, formerly Gleason's, published at Boston.

The third Baptist minister was Dr. Samuel Shepard, ordained at Stratham in 1771. He soon moved to Brentwood, which town was his home till his death in Nov. 1815, at the age of 77. Samuel Shepard Conner, a grandson of his, a native of Exeter, was for a time a member of Congress from Maine.

These were the first ministers settled over Baptist Churches in the state. There was, however, Rev Eliphalet Smith, who was ordained in Deefield. It might have been before that of Dr. Shepard, but the date is not given. The Church there was constituted in 1770, and it is said he was ordained soon after. Most likely it was later than the ordination of Dr. Shepard. Perhaps the Baptist Church association at the next meeting, which will be in the coming autumn, will have a Centenial sermon preached.

TAKING THE ADVANTAGE.—It has been observed that as the time for the execution of the new liquor law approaches, the hard-drinkers have given loose to their appetites, determined to drink while liquor was to be had.—We know one instance of an old gentleman, whose good woman is careful that liquor shall not be in his way at home, that attempted to provide for the future, and caught laying in his stock. He purchased a gallon; and not to risk the whole of it upon a single adventure, determined to put it in small bottles and hide it in different places about the house.—The difficulty was to get rid of the wife, while the operation was performed. So he informs her that a daughter, on another street, was unwell and desired her immediate attendance. She absent, he goes to work filling his bottles, when the wife finding she had been deceived and suspecting some trick, hurried back to find out the cause. A Maine law seizure was made upon the spot, and to the consternation of the old fellow, his wife set the bottles flying out of doors, crack, dash, faster than my witch of olden times broke crockery by upsetting the tables. A single drink was all that was saved from the gallon; and most mournfully does the veteran of the bottles look forward to the stoppage of his purchases.—*Newburyport Herald.*

THE FORCE OF THE NIAGARA RIVER.—The force of a body of water like the Niagara river, at the Falls, was shown in a remarkable manner, last week, in an attempt by Mr. Roebling, the civil engineer, to sound the river. He let fall from a height of 225 feet, a 40 pound weight of pointed iron. The ball sank for a second of time, then made its appearance again on the surface, about 100 feet down the stream, and skipped along like a chip, until it was checked by the wire. The velocity of the weight, when striking, was equal to 124 feet per second, and its momentum 5000 pounds. This will give some idea of the force of the current.

The passage to Nantucket from Boston, by railroad, &c., has been lately reduced to one dollar and fifty cents. Starting in the morning, Nantucket can be reached by one o'clock. The Nantucket Inquirer thinks that these low rates will induce many to visit that place during the coming summer.

Morning Chronicle.

FRIDAY, MAY 18, 1855.

AN INFAMOUS CASE.

Under the head of "An infamous case of Extradition," the Boston Daily Advertiser relates and comments upon the case of an Irish woman from the town of Monson, Mass. who with her infant, was on Tuesday forcibly sent back to Europe in the ship Daniel Webster. This practice of sending back these poor creatures, (says the Boston Telegraph,) is one that needs to be carefully looked after by the press and the public. It is liable to great abuses.

So it is, indeed:—and it is also a great abuse to send paupers hither.

Here are the main portions of the Advertiser's article:

Among the crowd of human beings on board that proud vessel was one poor woman with an infant daughter. Her passage and that of her daughter were paid by the rich and powerful commonwealth of Massachusetts.—She left our free and happy shores, unwilling and reluctant. She went away against her own free will, constrained by force of the civil authorities of the State. Her cries, as she begged not to be thus cruelly banished, were, we are told, most piteous, and such as to cause the accidental witnesses of the scene to burn with indignation.

The offence of this unfortunate woman for which she was thus violently and ignominiously expelled from Massachusetts, was the fact that she was born in Ireland and is called a *pauper*. Her infant daughter, who unconsciously shares her mother's sad fate, is a native of the commonwealth of Massachusetts; but she too partakes of that hard lot of poverty which it has been reserved for Massachusetts to make a crime; and a crime which Massachusetts punishes as no other crime is punished in America, by banishment—banishment from one's native land.

The name of this victim to Know Nothing intolerance was Mary Williams; her infant, Bridget, is but a few weeks old. About 35 paupers, perhaps more, were sent away at the same time in the same vessel, at the expense of the State. These facts we learn from eyewitnesses of the scene, and from other certain and authentic sources of information.

The rendition of Anthony Burns from Massachusetts to Virginia, under a law of the United States designed to give effect to an express stipulation of the Constitution, caused an immense excitement in this community.

A very just and proper excitement; against a contemptible act, designed *ostensibly* to prop up the most rotten spot in our political fabric; but *really* enacted, so far as northern votes and speeches went, by the hope of pelf or power.

The rendition of Mary Williams and her infant Bridget, under our own law, by our own authorities, scarcely caused a remark.

Nobody outside of Massachusetts, knew anything about the matter. And if, in Boston, where it was known, some wealthy man, or some half dozen poor men, had given a very moderate sum to Mary Williams, she would have ceased to be a pauper, and might have staid here.

He was sent back under a law of the United States, binding on the people of Massachusetts whether agreeable or disagreeable.

He was sent back by a violation of the simplest law of evidence, on the testimony of two interested witnesses who swore to a proved falsehood.

She was sent under one of our own laws, which the same legislature that elected Henry Wilson to the Senate and voted to remove Judge Loring from the bench might repeal in a day.

Truly they *might*—and so might the whig legislature, last year. Somebody must have passed this oppressive law in the first place.—Wonder who it was!

He was sent back to the care of a master, bound in law to feed, clothe and protect him.

Exactly; he clothed him with a pair of handcuffs; and protected him first by putting him in jail, and afterwards by selling him like a beast in the market.

She was sent to be landed on a foreign shore, where there may not be a single person to know or care that she has arrived. He was sent away, a strong man with stout limbs, able to bear misfortune and hardship should they fall upon him, with some degree of firmness. She was sent away, a weak woman, with an infant a few weeks old, demanding all her care, and with nobody to protect or assist her.

Here is a hard case, truly: the guilt which belongs to somebody, demands and will receive its due; and she, the feeble sufferer, will yet have her good things, and her tormentors evil things.

The treasury of the United States bore the expense of the rendition of Anthony Burns. The treasury of Massachusetts paid for the rendition of Mary Williams.

We don't pity the treasuries very much.

But then he was a negro, 'a man and a brother,' while she was only a white woman; a woman and a mother.

No vigilance committee rallied at the rumor of the embarkation of Mary Williams. No young and enthusiastic counsel hurried to proffer her their services. Judges were not solicited at unseemly hours for writs of habeas corpus; and nothing was said about the *de homine replegiando* in her case.

Why not? If there was wrong there, surely there ought to be *law* and lawyers enough in Boston to set it right.

Sheriffs and coroners were not plagued with processes that they did not like to serve. The quiet of the city was not broken; only a few heart-rending cries disturbed the silence of Long Wharf on Monday evening—the deed was done, the woman was embarked, and yesterday morning the vessel sailed with her living and unwilling freight.

There is something singular, though it is doubtless accidental, in employing the ship Daniel Webster, to do this service of carrying the white paupers back to Europe. Mr. Webster, as is well known, plead against a Massachusetts Alien Passenger Law in the U. S. Court,—and, in Congress he plead in favor of the fugitive act, under which Burns went back into a Virginia slave pen.

FRENCH SPOLIATIONS.

Mr. Causten, of Washington City, who has for many years zealously labored to procure justice from the government in behalf of citizens of the United States, claiming compensation for French spoliations prior to 1800, has reviewed the President's Veto Message of the last session in a pamphlet of forty-five pages. We have received a copy of the pamphlet. The review presents in a forcible manner, the grounds upon which the claimants rest their case. It is an appeal from President Pierce to the people. It is remarked by Mr. Causten, :—

If the first Consul and President Jefferson, who ratified the convention of 1800, and Mr. Madison and Mr. Pickering, who as Secretaries of State conducted the negotiations leading to it, and Chief Justice Marshall, one of the envoys to France to demand compensation for these claims, are worthy of belief—which no man can doubt—then it must be acceded that these claims were taken by the United States for the public use; and, consequently, that President Pierce is in error in asserting the contrary.

This is the main point in the case, and if Mr. Causten's view of it should be made apparent to Congress, the vetoed bill may pass by a two-thirds vote at the next session, or Congress may refer the whole subject to the new Court of Claims.

AN EDITOR'S EXCUSE AND AN EDITOR'S ABUSE.—The editor of the Richfield (Mo.) Enterprise apologises for the non-appearance of that paper for three weeks, in the following manner:

"At the time we should have been procuring paper, we were in the territory of Kansas, doing, as we consider, a good deal towards the advancement of pro-slavery interests, and giving to the territory institutions similar to those of our own great State. We hope this will be satisfactory, and promise better things in future. We have failed to publish the Enterprise for three weeks, which we promise to make up by way of extras, whenever necessary to do so."

In another part of the same sheet, he says:

"We have solemnly pledged our *sacred honor* one to the other, that the North and East shall not dictate us concerning our habitations. If eastern men choose to associate and intermarry with negroes, they have the right to do so, but they *shall not* force upon us the necessity of following their immoral and infamous example.

We do not intend to make a threat, but we will say to the eastern and northern abolitionist and freesoiler, that we have in Missouri one hemp factory employed to make suitable ropes for hanging negro thieves, and by h—l we will use them."

Don't intend to make a threat? This sounds something like a threat.

The editor who writes this, seems to be one of Senator Atchison's kind of Know Nothings,—i. e. men who know nothing but evils, of which the two greatest are violence and slavery.

WAR DECLARED.—The Boston Evening Times of Tuesday says:

The opponents of the law have but one course to pursue. They must not turn to this side, nor to that. They must not for a moment look backward. They must look the enemy straight in the eye, and stand to their cause and to their arms. They have to grapple with a subtle enemy—an enemy whose vigilance is unceasing as his acts are unscrupulous and uncompromising. The liberals must act well together—they must fight earnestly and vigorously. If they do so, there need be no fear of a triumphant result.

Of course, the reader concludes some wicked tyrant has issued a dreadful edict, which will kill men, make wives widows, and children orphans,—fill the land with weeping, send fathers to the States Prison, and families to the poor house.

Not so; the wicked law to be opposed, the enemy to be crushed, is an edict against the trade in intoxicating drinks.

WHITESIDE INVESTIGATOR.—We have received a copy of a good looking weekly newspaper, of medium size, with the above title. It is printed in Fulton city, Whiteside County, Illinois; and is now in its seventh volume. The publishers are Messrs. McFadden & Laighton, who have just taken charge of the establishment,—Mr. Octavius Laighton, of this city, being the last named. The character of the paper seems to be progressive.

Rev. Theodore Tebbets, a son of the late Judge Tebbets of Rochester, has accepted the invitation of the First Unitarian Church in Lowell—late Dr. Miles's—to become its pastor, and will assume the pastoral duties in July. Mr. Tebbets, who is still at the Divinity School at Cambridge, is a young man of fine talents, and bids fair to become distinguished in his profession.—*Dover Enq.*

LOCAL.

CITY COUNCIL.

THURSDAY, May 17.

BOARD OF ALDERMEN.—Petition of J. P. Lyman and D. Kimball, for sidewalk in Austin street—referred; that Linden street be accepted by the city—leave to withdraw.

An offer by J. M. Lord, to lease the Hanover street chapel for a High School, was referred.

Application was made by assistant marshals for an increase of pay,—referred to a special joint committee.

Voted, that a reward of $15 be offered for the detection of persons breaking windows in school houses.

Notice was received from Mr. H. H. Ham, respecting the care of city clocks, his time having expired, stating that he wished to be reappointed, but that the present pay ($30) was insufficient. He was re-appointed, and the subject of compensation was referred to Ald. Dearborn and Wilson.

The ordinance increasing the pay of the City Marshal and Street Commissioner was passed in concurrence.

The resolution concerning the city Courts, sent up from the Council, was referred to a special committee.

COMMON COUNCIL.—A resolution was introduced accompanied by a bill to be approved by the City Council, for presentation to the Legislature, abolishing the Police Court, and establishing a Municipal Court, having civil jurisdiction in cases where the amount at suit does not exceed $20. The resolution was adopted.

OSSIAN'S BARDS gave us an excellent Concert, on Wednesday evening, going through with their programme in good style. Their chorus singing was fine, especially in subdued passages. Mr. Tanner has much improved since his appearance here with Dodge last year, and sang his base solo well. Mr. J. G. Clark, the musical director and composer of the Bards, sings a fine tenor. We are indebted to him for a copy of the beautiful glee written and composed by himself, "The old mountain tree," with which the concert was opened. Their imitations of Scotch bag-pipes were admirable—also the barn yard serenade, and other pieces, comic and sentimental. Mr. Harrison made a great deal of fun with his comicalities and improvisations—which last were certainly remarkable, and alone would repay for attending the concert. Besides discoursing well on general subjects, he made many good local hits, (especially about the proposed new school house) and several times drew the attention and laugh of the audience to particular persons in it—all "to the tune of Adam and Eve."

IN THE POLICE COURT, Wednesday, Timothy Sullivan was sentenced to ninety days in the House of Correction, as a common drunkard.

Jeremiah Murphy, for an assault and battery upon his wife, was sentenced to thirty days in the House of Correction.

DESTITUTE CLERGYMAN—SAD CASE.—The Boston papers state that Rev. Elijah G. Welles, an aged and destitute clergyman of the Presbyterian denomination, and who in his best days has been professor of elocution in several colleges, was carried to Deer Island, to die in the company of thieves, rogues, and the outcasts of society. The Chronicle says the record of his death there is a foul disgrace on the church whose members have listened to his ministrations—that he dies a pauper, while perhaps they raise half a million for a new church. The Traveller says, a clergyman of a neighboring city went to have him removed from the Island; but finding him dead, had his body carried to Cambridge, and after funeral services, placed in the new cemetery there.

☞ The Dover Enquirer understands that George W. Brasbridge, Esq., of Great Falls, was put in nomination by the Governor and Council, on Tuesday, for Sheriff in Strafford County.

☞ A correspondent of the Boston Chronicle, states that there are *eight* American-born Bishops of the Roman Church in the United States—not *two* only, as stated in the N. Y. Express.

☞ The Western papers begin to express fear of the cholera, from the fact that it is raging with violence in many places near the Mississippi river. In Detroit, Mich., Westport and Kansas city, Missouri, and at Jefferson Barracks, the disease has been suddenly fatal.

☞ A New Orleans correspondent of the New York Tribune, announces the dissolution of the Cuban Junta. Two of the steamships owned by the expedition are to be sold to pay the outstanding debts of the blundering Junta.

FLOUR.—A San Francisco paper says that a clipper had been engaged to take flour to New York, and other vessels were also engaged to take flour to Boston and elsewhere from San Francisco.

THE OXYGENATED BITTERS—Sold by J. H. THACHER, Apothecary, corner of State and Pleasant sts. m18 3

"Sick was the Sun, the owl forsook his bower,
The moon-struck prophet felt the maddning hour"

THIS was before AYER'S PILLS came along. Now they are for sale by J. H. THACHER, Apothecary, corner of State and Pleasant sts.

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1836, (*nineteen years*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."

[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't blow yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Dry Goods

To be Sold at Great Bargains for 30 Days.

THE STOCK OF GOODS at No. 13 Market street will be sold at Great Bargains for 30 days, as the business must be brought to a close.

All those indebted to me are urgently requested to pay before the first day of July, as my business must be closed, and the debts then unpaid must go into the hands of an attorney for collection.

my11 W. J. LAIGHTON, Agent.

INGENIOUS LEGAL PROCEEDINGS.—We learn that Mr. Joseph Hiss was arrested Wednesday morning on an action for debt, and in answer to the summons to appear, raised a question of privilege, and pleads that he is a member of the Legislature from the city of Boston. The question of privilege will come before our courts, and the legal tribunals will be called upon to decide the constitutional question involved in the action of the House in the expulsion of said member.—*Boston Transcript.*

The Courier says, "it is expected that the proceedings of the House of Representitives of last Thursday evening will be reversed and reversed! If they are not reversed, and if he has not been arrested on "mesne process during his going unto" the House of Representatives, he will have to pay his debts like any other honest man."

Any other honest man!—Honest men pay debts when they can; rogues only when they must.

The whole movement appears to be a mere sham, got up by Hiss' counsel, Butler, to keep Hiss before the people.

"ENFORCING THE LAWS."—An erroneous impression prevails in the community in regard to the enforcement of the laws in connection with the military. The military power has never in any one instance been called upon in this country to *enforce* the laws. Their mission is of an entirely different character. It is to "preserve the peace" of the community, which may be in danger at the hands of maddened men whose passions have got the better of their reason, and who forget the respect due to the laws. When the officers of justice are powerless to effect this, the strong arm of the military is called in to their aid. To the honor of our citizen soldiery be it said, that not a case is on record where they have proved false to their trust.—*Boston Jour.*

Most important distinction! The military of Boston, and the U. S. Marines and Soldiers, were called out last year, not to *enforce any law*,—but just to preserve the peace while the patriots manacled a stolen negro, and shipped him for the sunny south—against the first principles of law and evidence—not to mention the gospel.

NEW YORK, May 16th.—In the Superior Court, yesterday, a new trial was granted in the notorious Peverelly arson case, on account of the technical meaning of the words "adjoining premises."

The fire marshal's investigation into the recent attempts at arson in the St. Louis Hotel in this city, has developed some suspicions against Charles A. Haskins, the proprietor of the hotel, who was arrested, and held to bail in the sum of $5000.

The annual address of the president of the state council of know-nothings of New York, is published this morning, and sets forth that since February there has been an increase of 200 Councils in the State, making the present number 1160, and embracing, according to the most reliable estimates, about 170,000 members.

ROME AND SARDINIA.—A letter from Rome says:—

The Sardinian Minister has been withdrawn from this city, and we have information that the Duke de Guiche, the French Minister at Turin, is expected here soon, as a mediator between the alienated courts. It is still said in well informed quarters, that Cardinal Wiseman will be transferred from England to Rome in the course of the season.

E. N. DOE.—In our last paper we stated that this gentleman, whose absence had excited the fears of his family and friends had been heard from. We now regret to be obliged to add, that although he was, in fact, seen in Boston one day after his sudden disappearance from Portland, he has not since been heard from. Intelligence concerning him should be sent to Hon. ALFRED MARSHAL, China, Me. *Augusta Age.*

The organizing, arming and drilling of the colored population of Cuba still continues.

Yucatan Indians continue to be introduced into Cuba under the consent of the Mexican authorities. Nearly 200 of them were landed at Havana on the 11th, from a Spanish brig, and sold under contracts made previous to their arrival. It is said that they were brought away by force. The Governor of Sagua La Grande has been restored to his post.

Havana continues healthy, and business active for the season.

COAL.—The Philadelphia Ledger says the enormous aggregate of 133,335 tons of anthracite coal, was brought into that city over the three great transportation lines terminating there, during the week ending may 12th. An amount unequalled at this early season; which activity continuing, the Ledger says, will bring prices down.

LOST—Between Pray street and Mr. Thacher's store, a small GOLD PENCIL marked with the initials of the owner's name. The finder will please leave it at No. 4 Pray street, or at this Office, and receive the thanks of the owner.

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser,

It has no equal. The experience of thousands, and its constant manufacture since 1848, fully prove all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stoughton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are cheated by the extravagant advertisements of a worthless article and spend their money for that which is naught.
Purchase a Bottle of

PRESTON'S CATHOLICON,

And if you are not satisfied with its effects, call upon the Agent and receive your money again.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.
Have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the re-ult of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping. also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

Current—the universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, Bermondsey, Patent, 1853," and each box of genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

PERSECUTION IN FLORENCE

FLORENCE, March 31st., 1855.

Passing through Florence, on my return to Paris, I unexpectedly find the material of a letter waiting to be put into shape. Something has actually happened during my absence—and this in a city not renowned for the number or startling nature of its incidents, has taken me by surprise. Here is the Florentine budget for the last six weeks.

A man suspected of reading the Protestant Bible, from the fact that he had been singularly lax of late in his attendance at mass, was waited upon by a deputation from the Government and the Church. His house, his books, his papers were examined, and he and his family interrogated. He did not deny, or attempt to deny, that he had long entertained doubts, both of the divine mission of the Pope, and of the virtues of the priesthood; he asserted that he determined to investigate the doctrines of the Reformed religion, and to learn something of the character and practices of its professors. This he had done, but without seeking to propogate his doubts and hesitations among others, an offence which he knew to be punishable. But he had supposed, he said, that he might be allowed to set his mind at rest upon a subject so important. The committee asked a variety of questions, and succeeded in convincing itself that the man was a confirmed Protestant, and was quite lost to Catholicism in this world, and to beatitude in the next. "You will hear from us soon, Sir," said the committee, in taking leave: "be careful and not leave the city."—Four days after, *and at 4 o'clock in the morning*, the guilty apostate was summoned to listen to his sentence: hard labor in the prison irons for one year: the prison selected being distant, and, if I am not mistaken, on some Mediterranean island. The verdict was immediately carried into execution. Such are the winning ways employed by the modern Inquisition to preserve souls to God; to discountenance Lutheranism, and to maintain this country in its present matchless ignorance, misery and degradation.

This is in the true spirit of the Roman Church. Not one of its organs in this country, will condemn the act; holding it to be all proper, because done in a Catholic State. They don't do such things in *this country*, though. No indeed! simply because the priesthood have not the power—that's all.

THREE ITEMS.

First, Lawrence.—Quite an excitement has been caused in Lawrence in relation to liquor selling; last week the teacher in one of the schools discovered that one of the boys about twelve years of age, had in his pocket a bottle of poisonous brandy from which he was in the habit of drinking in school; owing to abuse at home, he had been for some time sleeping in sheds, &c., and living as he could, until the teacher interested herself in procuring him clothes and food; it was found that he was in the habit of trading the latter with Irish women for *brandy*. A day or two after this discovery, in some fit of excitement he jumped into the river and was drowned.—The superintendent of schools, Dr. Packard, is calling public attention to the fact, and to the further fact that there are 300 places in the city which dispense such drinks as produced this fatal catastrophe. The city marshal has posted bills in all directions informing all concerned that these places will be closed on the 20th inst., and enjoining all good citizens to take notice.

Second, Boston.—We understand the liquor dealers have determined to make no alteration in their business after the 20th, but pursue the same line of trade they do now, and abide the issue. "Keep on just the same."—*Boston Post.*

Third, Cambridge.—STUDENTS IN TROUBLE.—Five persons, named Joseph S. Smith, Wm. S. Wilson, Robert Hall, Edward R. Bascomb, and E. Walker, who claim to be students of Cambridge University, were arrested in Cambridge Street, Boston, on Saturday night, on a charge of disorderly conduct. It is alleged that three of the party were intoxicated, and refused, when called upon by the officers, to refrain from their loud outcries. The attempt to arrest was resisted by their more sober companions, when the whole five were taken into custody. On the way to the station house on Leverett street, one of the prisoners named Bascomb slipped his wrist from the handcuff and started off, but was soon recaptured. His companion, Walker, to whom he had been handcuffed, also started off with the iron bracelet hanging to his arm. While running through Leverett street, however, he made a mis-step and fell down a flight of stone steps, inflicting so bad a wound upon his head that it was found necessary to take him to the Hospital. The others were committed to jail.—*Boston Traveller.*

PLAYING WITH WILD ANIMALS.—On Saturday afternoon, a man having a little child with him, visited the menagerie in Howard street, Boston, and while looking at the lion, the man took the child in his arms and was in the act of placing its hand on the animal's head, when it suddenly struck the child with its paw, tore off one of its ears and badly bruised the side of its face.

Five children were killed near Empire City, in Oregon, on the 26th of March last, by the falling of a spruce tree two hundred and fifty feet in height, which was standing at a distance of two hundred feet from the house in which the children were sleeping. The heavy branches crushed through the roof and floor of the house, instantly killing five of the eight persons who were within at the time.

ORNAMENTAL CORNICES AND CENTRE PIECES.
LUTHER N. HURD,
NO. 38 and 40 State street, continues to make and put up Ornamental Cornices, Centre Pieces, and other Stucco work, much cheaper and vastly more beautiful than ornaments of Papier Mache. Many specimens of his work may be seen in buildings in this city and elsewhere.
He has lately added to his stock by purchasing that of Mr. Samuel Reynolds; and would respectfully invite the customers of both, and the public generally, to call on him for work in the line of Stucco Ornaments, Plastering, Coloring and Mason Work generally. j5 6m

Morning Chronicle.

SATURDAY, MAY 19, 1855.

WHAT IS CATHOLICISM?

The Portsmouth (N. H.) Chronicle will occasionally print a cock-and-a-bull story about Catholics or Catholic countries, in order to make his Chronicle sell among the old women of that ilk. The last thing of this kind, is a statement from the ham-*Bee* about Spain, upon which our contemporary remarks:—

"But it is, whether he (the Catholic) and his priest shall rule here so as to subvert our American institutions and introduce those of Rome, Spain, or Portugal."

Now, my dear Mr. Chronicle, you know as well as we do, that neither the Catholic people nor priests wish to introduce foreign customs, or subvert our institutions, and knowing this, do you not bear false witness against your neighbor, by publishing such bugaboo stuff? Do be honest, friend Chronicle.—*Boston Pilot.*

It is often much easier to say a thing is false, than to prove it so.

A free press, free speech, and common schools, are all American, New England, protestant institutions. The priests of the Roman church have done, and are doing, all they can to break down the latter. No country where their church bears rule, allows, or ever allowed the two former: and they would not be allowed here one day, after the papal power gained the ascendency.

The exception, so often claimed, of Lord Baltimore's catholic colony in Maryland, proves nothing. Their charter, to be sure was liberal, and made their laws so. But if they had shut out protestants, the protestant government of England would have vetoed their law and annulled their charter. They were liberal — because they could not very well help it.

LIBERTY.—The Platte, Missouri, Argus, of last week, publishes the proceedings of a mass meeting held at Webster, in that State, at which the following extraordinary resolutions were passed:—

That self-defence requires the expulsion of every person bringing into reproval negro slavery. That robbers and traitors have no right to the protection of the law. That they ratify the proceedings at the Parkville riot. That they approve of the resolution in regard to Methodists, and add, all ministers preaching any views prejudicial to slavery. That they have no arguments against abolition papers, but the Missouri river, boufire, and hemp rope. That they pledge themselves to go to Kansas, and help to expel those who are corrupting the slaves. And that they call a grand meeting at Parkville on the 5th inst.

CHEERING NEWS FROM MAINE.—The Augusta Age has a long article, headed Northern Know Nothingism in a Quandary. The tail of the article is as follows.

Three cheers for the disruption of the Know Nothing organization!—three cheers for the downfall of the Morrill dynasty!!

This puts us in mind of a Concord, N. H. paper, which kept shouting all winter, "Satan's kingdom tumbling down." Well: in the spring, sure enough, something did tumble down. Perhaps it will be so in Maine.

The Rev. Leander Ker, of Platte city, Missouri, delivered an address on the eve of the election, in which he called upon the villains who surrounded him to go into Kansas "as men, as patriots and christians, and do your duty to yourselves, your country and your God!"

Where's Douglass? He ought to rebuke Br. Ker for such talk, in the same style as he rebuked the 3000 ministers who protested against slavery extension, in the name of the Deity. But it is not very likely that he will.

A NEW POLITICAL ORDER.—A new secret political organization has originated in Kentucky, and spread extensively throughout the western States, called the "Sag Nichts," (Say Nothings.) The order numbers over two thousand in the city of Louisville alone. It is intended to extend it throughout the Union, and embrace the whole anti-American party. Its oaths and obligations are of unusual solemnity. They have pass words and signs, and are divided into squads of ten, each with a commanding officer, who is responsible for their appearance whenever their services are required for voting or fighting.—*Boston Transcript.*

SPLITTING HAIRS AND SHINGLES BY THE SAME PROCESS.—The Secretary of the treasury has written to George Law, Lockport, N. Y., to inform him (we quote the official paper) that—

"Shingle bolts," as described by him being an article produced by "splitting" in addition to "sawing," are not entitled to free entry under the provisions of the reciprocity treaty.

KNOW NOTHING SECRECY.—"Jeffersonian democrats," federalists and old fogies, pretend to be intensely horrified at the secret feature of Know Nothingism. How then can they excuse the action of that caucus which put Jefferson in nomination for the Presidency when he was first elected? How too excuse the action of those men who in secret session formed and voted the Declaration of Independence? How excuse the secret sessions of the old Continental Congress which sustained and carried on the Revolutionary war to a successful termination? or the convention which framed and sent out to the States the federal constitution? Let us hear the opinion of those sapient editors who think that every thing concocted in secret, must be of a bad character.—*Lowell News.*

REV. ELIJAH G. WELLES.

Rev. Jos. L. Bennett, of East Cambridge, who buried Mr. Welles, gives the following account of him, which shows that he was not reduced to such suffering as some have supposed. Mr. Bennett, in the Transcript, writes thus:—

For the sake or removing from him the charge of being "a vagabond," and in order to rid the church and clergy from the odium which seems to rest upon them, I beg leave to make a few brief statements.

My first introduction to him was in Boston one year ago. Out of respect to his age and calling, I invited him to visit me at Cambridge. He accepted my hospitalities often, and gradually gave me many facts in his exceedingly adverse life. Mr. W. was a Presbyterian clergyman of the old school—bitter towards his opponents—as a writer satirical to a fault, as seen in his book, "Things New and Old." His wife, a sister of the late Edward Griffin, DD., died twenty years since. His two sons, though both of a finished education, are prodigals in the west.

Last New Year's day, a gentleman rode with me to his door, and left what we thought was needful. Before the week was out, he came to my house, stating that he was in arrears at an eating house and his lodging place to a certain amount, and he must have money enough to square up the old score. He wished me to borrow the money for him. I did not do that, but pacified him by writing a note to his landlady to be paid in ten days. Until about that time I had rendered him all the aid he asked, without calling on others. Unexpectedly to myself, a gentleman gave me $5 for him, another also sent the same sum, and soon the required amount was made up.—During the winter three clergymen to my knowledge have given him fuel and money, so that he has never suffered either for food or raiment.

On the Friday before he was sent, to Deer Island, he walked from his lodging place, No. 11 Avery street, to my house, as usual; took tea, and received the money he asked. On Sunday or Monday he was suddenly seized by a kind of paralysis, it is supposed. The lady of whom he hired the chamber not hearing him go out as usual, knocked at his door, and hearing no answer, went into his room, and found him lying on the bed with all his clothing on, even to his boots.

He seemed to be hardly conscious of her presence, having scarce strength enough to call for drink. The lady, being alarmed, sent for two physicians whom Mr. W. had been in the habit of calling upon. They prescribed nothing for him, but may have endeavored to have him removed to the hospital, according to the wish of the landlady, who, having no male person about her house, could not undress and nurse a full grown man like Mr. W. Becoming impatient with the delay of the physicians, she called upon the gentleman at the next door to come in. He made known the case of Mr. W. to the city authorities.—They thought best to transport him to the institution on Deer Island. On his arrival Dr. Moriarty found him in a dying condition.—He died in a few hours after, and on Tuesday was buried at Cambridge cemetery, near Mount Auburn. The funeral was at my house.

By the way, we are not able to see why a *clergyman*, if poor, should not be taken care of, and finally die, in an almshouse, as well as any other man. Poverty, if honest, is not disgraceful;—and we hold the almshouse in high estimation, as a fruit of christianity.

MR. HILLARD'S OPINION.—The Boston Telegraph says,—We are informed that Mr. Hillard, in his recent letter on the liquor law, in that portion of it in which he sets forth what would be the duty of police officers when they were called upon to make complaints on information from others, did not mean to be understood as saying it would not be their duty to make complaints of such violations as came under their cognizance; but that they ought in this law, as in other similar penal enactments, to make complaints of such violations of it as came under their notice, in the course of their line of duty.

Mr Hillard has sent a note to the Mayor of the Chief of Police in accordance with the above explanation. The police can enter complaints and take cognizance of offences against the law precisely in the same way that they do in any other case. All that the friends of the prohibitive law ask, is, that the city authorities would be as active, but no more, in enforcing laws against the traffic in strong drinks as they are in enforcing laws against theft, arson, &c.

THE SUPPLY OF FLOUR.—A St. Louis correspondent of the New York Tribune states that he has trustworthy data for estimating that there is in different ports on Lake Michigan a stock of flour and wheat equivalent to 656,000 bbls. of flour. It is further estimated that Lake Erie will turn out 300,000 bbls., and that Canada will furnish at least 500,000 bbls. more in wheat and flour. This would give a total of 1,456,000 bbls. from the lakes and Canada. The New York Price Current recently estimated the amount of flour and wheat on hand as equivalent to only 700,000 bbls. of flour. We are inclined to think that that the estimates of the St Louis writer are the most reliable. The wheat crop of last year was not affected by the drouth, and was acknowledged to be large. The fall receipts were, notwithstanding, comparatively light, which was attributed to the low water in the mill streams, by which the millers were prevented from grinding. Making all due allowance for the enchanced consumption of wheat in the interior, to supply the deficiency of the corn crop, there must still be a fair supply to come forward.—*Boston Journal.*

The Hampshire Gazette learns that Daniel Streeter, Plainfield, Ms., committed suicide by hanging, on Monday of last week. He left home on that day for a walk, and said he would be back in a few minutes. On Wednesday he was found suspended by the neck from the limb of an apple tree, by a small cord, with his knees near the ground. It was supposed that he was suffering from insanity, caused by the excessive use of rum and opium.

LOCAL.

For the Chronicle.

Messrs. Editors:—Permit me among others to say something of the High School in contemplation to be built. I am very much gratified to see that the city authorities are so willing to let the community have a word to say by way of advising for the best. There is naturally a difference of opinion, out of which we may evolve the best result; and there has been enough said on the subject to give some idea how the people feel.

There is one subject that should be kept in sight, viz.: the expense of land and buildings for the desired purpose. Many writers on the subject have been indulged with a hearing through your paper, and thus you have favored the public with a pretty thorough discussion of the subject.

I will try to recollect all the sites that have been named for the High School, namely, the Court House lot,—the Stable lot, State street,—the Academy lot and building,—the Catholic Church and lot,—and the Tripe lot on Pleasant street.

I will now make my objections, looking farther ahead than the present day. None of the places have struck my mind as the best and most convenient. This school house whenever it is built, should be an independent building, not attached to any other building. The school should be located on high land, that it should at all seasons of the year be pleasant, and not shut out by any other building from the light of the sun. Much attention should be given to its location, on account of buildings near it. It should be so located that easy access could be had in case of fire; and in the event of fire it should give other buildings a good berth. The fire department have a great many wooden buildings to contend with in case of fire, and good judgement should look ahead for such a possible evil.

I have no opinion in favor of tearing down, altering and moving buildings, that are built for one purpose, to fit them for another. Let them remain, and the expense saved to go into a new building. It is my opinion, that the Court House stands on the best spot for such a building in the city, and should be reserved for that purpose for some years to come; and when the city is ready to build a handsome public building, with a spacious Hall, then they can calculate for the Court House and all the city offices in the same. There never should be any school attached to a public building for city or county purposes In the location of the buildings, all private advantage to property should be out of sight, for it often weighs to great public disadvantage.

I have had so much to do with taking down, altering and building up, as to know that it is very expensive, and after all we do not get what we want, and so the money spent is thrown away. The best location for the new School House, and the most pleasant in the city is the lot on the westerly side of the Episcopal Church, on Chapel and Bow streets, owned by a gentleman in Boston; and I am surprised that it has never been named before. The lot no one can object to on account of pleasantness, as it commands a fine view of the Piscataqua river and Navy Yard; and has all the pure air that is possible. I would like for the city authorities to examine the lot, and see all the advantages over any that has been mentioned in your paper; also look at the gravel, bricks and rocks, that would work into any building to great advantage. The lot might be purchased on fair terms. The only possible objection that can be made, is, that it is not so central as some might wish, which cannot be of much consequence, compared with the beauty of the site. It might make a walk five minutes longer to some, which ought not to weigh a feather. The next best lot is that on State street, now occupied by a stable, and there are objections to that; it is too compact, and the location naturally wet and low. The Academy building was built for a particular purpose; let it be occupied for the same purpose if it can be, and thus give a better opportunity to those who attend the public high schools. Let the school house be built where it may, it should be so that the boys may not be exposed to play in the streets at the time of recess, as it is a great annoyance to near neighbors, and exposes the boys to the danger of being run over by any carriage passing with speed in the streets. W.

☞ The views of W. on this subject are entitled to consideration; the lot he recommends, is one of the highest spots in town, and on most accounts eligible. One other spot has been mentioned, which W. has omitted in his enumeration, viz. the ample and beautiful lot on Middle street, opposite the South end of Cabot street. Either of them would make a good site for a School. There are some citizens of good judgment, who wish to see a girls High School by itself,—and for that the lot on Middle street would be admirable,—while the Church Hill lot would be a good place for boys.

One is about as central as the other.

☞ A subscription of $100, by liberal taxpaying citizens, has been raised to supply the deficiency in the salary of Mr. Scott, Superintendent of the City Farm and alms house. This addition secures his services for the present year.

☞ There will be a Temperance (Moral Suasion) Meeting at the Temple on Sunday evening at half-past 7, unless the building is otherwise occupied. All are invited to attend.

ICE.—Mr. Geo. L. Stokell commences to circulate the pure Rockingham ice, on Monday morning next, to customers throughout the city. See his advertisement, for terms, &c.

"Silk was the Sun, the owl forsook his bower,
The moon-struck prophet felt the maddning hour"

THIS was before AYER'S PILLS came along. Now they are for sale by J. H. THACHER, Apothecary, corner of State and Pleasant sts.

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATHL. P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."

[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

FUGITIVE RUMOR.—There was a rumor flying about town yesterday afternoon, to the effect that a fugitive slave arrived in the harbor in a vessel from the South, and while the U. S. officials were waiting for the vessel to reach her wharf, some members of the "Vigilance Committee" boarded her, personating U. S. officers, and took the fugitive away in their custody.—*Boston Atlas of the 16th.*

We think the rumor has foundation—that the affair took place yesterday morning about 3 o'clock—that the fugitive is a stalwart, intelligent mulatto from Virginia—that he was put on shore at South Boston point, where a hack was in readiness to convey him to a place of safety, and that he is now where the "wicked cease from troubling." It is said that $500 reward is offered by his late master for his capture. He will be lucky who gets it. All of which tends to prove that we live in "the land of the free, and the home of the brave."—*Telegraph of the 17th.*

NEW YORK, May 17th.—The mate of the American schooner Bay City, writes a long letter from Rio Janeiro, explaining the alleged outrage committed upon that vessel by the British brig-of-war Bonita. According to the mate's version of the story, the difficulty was all occasioned by the obstinacy of Capt. Wardel, of the Bay City, in not showing his colors or heaving to, necessiating the firing of seven or eight guns from the British cruiser in order to bring the schooner up, and satisfy them that she was not a Russian privateer.

BUY THE BEST SPRING MEDICINE.

THERE is no article now before the public that contains the medical properties of PRESTON'S CATHOLICON, and as a Spring

Blood Purifier and Appetiser,

It has no equal. The experience of thousands, since its manufacture since 1848, fully prove all that can be written or said in its favor. Numerous articles are offered for all diseases that flesh is heir to; many of them are worthless compounds, and put up to evade the Maine Liquor Law—consisting of poor Rum or Gin, sweetened with molasses, strongly tinctured with Sassafras and Stonghton Bitters, and thus the innocent who wish to purchase an article of Medicine of real worth, are duped by the extravagant advertisements of a worthless article and spend their money for that which is naught.

Purchase a Bottle of

PRESTON'S CATHOLICON,

And if you are not satisfied with its effects, call upon the Agent and receive your money again.

Manufactured and sold by WM. R. PRESTON, Druggist, Portsmouth, N. H., to whom orders for Agencies may be addressed. a26 3w78.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston

Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.

Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or deck, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the top-sail yards. On the passage to this port, (Charleston, S. C.,) it experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

For the Chronicle.

EVENING.

The shadows of evening encompass me now,
The daylight is passing away;
And cooling breezes play round my brow,
Mourning the dying day.

The sun has closed his fiery eye,
And sunk to his hidden rest;
I would fain let the cares of the day go by,
And recline on the green earth's breast.

The clouds in the gloamin' begin to fade,
The star of evening brightens;
The night bird sails in the deepening shade,
The little fire fly lightens.

The voice of the frogs comes soft on the ear,
The whip-poor-will cries from the grove;
The trees show clear 'gainst the atmosphere,
No breath bids their branches move.

Still, and like mortals in thought, they stand,
And wrapping them silently round,
A mantle of gloom that will slowly expand,
Creeps over the fading ground.

A mantle of gloom falls on mountain and dell,
It is blending all objects in night;
And the eye can scarce tell where the shadows fall,
And where the last lingering light.

Though the world be dusk, yet the broad expanse
Of the Heaven above is clear;
And the sky afar still invites our glance
When there's nothing to hold it here.

Morning Chronicle.

MONDAY, MAY 21, 1855.

FLOUR.—A correspondent of the N. Y. Tribune makes the following estimate of the number of barrels of flour in the country at the opening of Lake navigation, reckoning five bushels of wheat as equivalent to one barrel of flour: Lake Michigan 656,000; Lake Erie 300,000; Canada 500,000; total 1,456,000. This affords little prospect for famine. The Tribune adds:

Suppose 456,000 barrels to be absorbed by the destitute points in the interior, and we shall then receive at tide-water *one million* barrels—enough at the rate of winter consumption, 8000 brls. per day, to last one hundred and twenty-five days, or until the middle of next September. With a favorable prospect of a good crop all over the country, there is not a shadow of reason for any alarm about a short supply.

The Detroit Democrat states that the sight of the wheat fields in the northern part of the State is perfectly glorious. The breadth sown is unusually great, and the staple is a deep green, almost to blackness, rank, strong, thick and high. With all allowance for casualties, it may be most confidently predicted that the wheat crop will be most unusually abundant and excellent.

There is much complaint in the Western papers of a drouth now prevailing in Illinois and Missouri. The St. Louis Mirror says—

From every portion of the country we receive complaints of the want of rain. The effects of another drouth such as we had last spring and summer are too disastrous to be conceived.

The San Francisco correspondent of the N. Y. Journal of Commerce, under date of April 24th, writes:—

The growing crops of grain throughout the State of California promises well, and hereafter we hope to raise sufficient for our own consumption.

Some of the holders of Chili flour, yesterday offered to sell the balance of their stock at $4 per brl. to any party who would engage to ship it out of the country. One reason of this course is, the fact that the flour was shipped here contrary to the express advices from the factors resident in this city, and arrived here under orders to be sold peremptorily on arrival. Besides, the consignees are large holders and speculators in domestic flour in this city, and on that account are particularly anxious to relieve the market. The whole stock of Chili flour is now about 70,000 barrels, (in sacks); of all other kinds 130,000, or its equivalent in wheat. Total of present available stock, 200,000 barrels.

Accounts by steamer Northern Light to the 24th ult. state that the clipper ship Charmer, of Boston, 1100 tons, would sail for New York in 15 days, with a full cargo of flour and wheat. The approaching harvest, bids fair to be the largest ever gathered. Gallego flour, with the accumulated freight, and other charges, was selling in San Francisco for one dollar per barrel less than in Boston, at the present time.

PORTLAND.—We infer from articles in the Portland "State of Maine" newspaper, and in the Temperance Journal, that the intensified Maine Law is actively enforced in that city, by Judge Carter, Mayor Dow and the police.

The State of Maine intimates that they do not enforce the law judiciously, but the Journal says it works well.

Among other things, the Mayor notified the apothecaries to keep open their shops on Sunday only from 7 to 10 A. M.—from 1 to 2 1-2, and from 6 to 7 in the evening, for the sale of medicines *only*,—not cigars, soda, &c. They obeyed, and the loafers did not congregate.

TEMPERANCE RAILROAD. — The Boston Courier contains an official notice, that no "great or small beer, alcohol, or liquors of any kind, will be brought on the Albany Northern Railroad, or Rutland, Butlington and Cheshire Roads, into Massachusetts." That series of roads, then, mean to obey the new law.

RAILROAD ACCIDENT.—A serious accident happened upon the Southern Michigan railroad last Friday, at Elkhart, Ia., by which ex-Senator John S. Wells of New Hampshire narrowly escaped death. The engine and tender were overturned into a ditch, and the cars badly smashed—the baggage car entering the next passenger car ten feet, shivering both to atoms. The second and third passenger cars were also badly shattered. The train was crowded with passengers, yet none were killed. Mr. Wells was in the first passenger car, and was thrown beneath it upon the ground, the timbers passing over him, and so closely confining him that the cars had to be raised with jackscrews before he could be extricated. We are happy, however, to state that he was not seriously injured, and proceeded to visit his brother, ex-Lieut. Governor Wells of Chicago.—*Boston Jour.*

A most fortunate and providential escape, from a most imminent providential danger.

Will not somebody please to make out a politico-providential dispensation of reproof to some party, and warning to repent,—lest they also get under the train, and *come within one* of being crushed to death.

LOUISVILLE, May 17.—The Know Nothing Convention now in session here has nominated Hon. Humphrey Marshall, late Commissioner to China, as their candidate for Congress from this district.

MEXICAN NEWS.—New Orleans papers of Friday contain the details of Mexican news to the 8th.

Santa Anna, as already announced, had left the Capitol for Michoacan.

A report obtained circulation in the city of Mexico that a body of troops in Sonora had revolted, and that a pronunciamento had been issued.

The Mexican government has ordered the suspension of all payments, except those under treaties respecting the foreign debt.

Sickness continued to prevail in the city of Mexico, particularly the small pox, which had made great ravages.

On the 28th of April the supreme government had 4000 troops concentrated in the capitol of Michoacan.

Lieut. Don Jose Mana Pira had been sentenced to six years imprisonment in the fortress, and to be dismissed from the service, for fighting a duel with the Spanish Consul.

The "Universal" states that letters from Premandivo give the account of many murders having been committed by the Indians. The place was attacked by a band of about 1000 savages, and all the houses in the town were sacked. The military commandant and the postmaster were shot. Some of the principal merchants were beheaded, and many women violated and carried off.

NEW YORK, 17th.—Senator Brooks this morning publishes a lengthy reply to the last manifesto of Archbishop Hughes, but without introducing anything of importance. He confines his efforts to an analysis of the alleged contradictory statements of his antagonist during the progress of the controversy.

An attempt to extort money from P. T. Barnum was brought up in the Mayor's Court yesterday. The charge was that Barnum was guilty of crim. con. with a German woman, the wife of one of his employees, but after hearing the evidence, Justice Osborne dismissed the case, as being one of attempted extortion.

KANSAS.—Geo. S. Park, late of the Parksville Luminary, has published a long letter in the St. Louis Democrat, in which he says that Stringfellow and Atchison have organized a force, sworn to turn out and fight when called upon; that all are to share the damages accruing to any one member, even at the price of disunion; all are to act secretly to destroy the business and character of all northern men; all dissenting to their doctrines are to be expelled; all Benton and whig presses are to be destroyed; that the destruction of the hotel at Kansas, and the presses at Lawrence, are decreed; and that they would not stop until every free soiler is driven out of Missouri and Kansas.

Mr. Park says that he telegraphed to Governor Price of Missouri, and to President Pierce, for protection; but no answer was given. He traces to Atchison the destruction of the Luminary establishment, and promises more developments.

CUSTOMS OF EDEN.—The Manchester Mirror says:—

The "vegetarians" of New York are already circulating a petition for a law to suppress "the brutal practice of eating animal food." Directly we shall legislate ourselves back to the manners and customs of Eden.

Well; worse things might happen, than legislating or moralizing ourselves backwards or forwards, into a state of primitive innocence and simplicity. Let nobody be frightened at such a prospect, if he can see it. It is a vision worthy to be entertained by a saint.

FIRST CASE UNDER THE NEW LAW.—Edward Flanegan was convicted on Friday in the Bangor Police Court, of three offences—selling three glasses—and was sentenced to $20 fine and costs on each, with 30 days imprisonment for the first offence, 60 days for the second, and 90 for the third, making 180 days, and in case of non-payment of the fines and costs, the imprisonment to be doubled, making 360 days or a little short of one year, in the House of Correction! He was committed. When it is remembered that petty larceny was long ago punished by the death penalty in England, the punishment for selling rum will be considered merciful.—*Boston Mail.*

Judge Metcalf of Ohio, decided, a short time since, that the counterfeiting of a two dollar bill on the State Bank of Hartford, Ct., was no crime in Ohio. The Legislature of that State had not only forbidden the circulation of foreign bills under five dollars, but by the act of May, 1854, made such bills *worthless*, and all "disbursements, or payments, or exchange for other property of value, made, or attempted to be made therewith," of no value. Hence, the counterfeiting of such 'worthless' bills can be no crime.

HAY.—The Albany Argus says there is reason to believe that the scarcity of hay in that region is owing altogether to its having been kept back. The season thus far has been very propitious for grass, and good hay bids fair to be abundant at moderate prices. The Rochester Union says, that there never was so much hay offered in the Rochester market as on Wednesday. There were upwards of 60 loads in Front St. and the most were sold. Hay had been scare for some time back, and prices run up to the extreme point. This caused an influx as stated.—Prices ranged from $10 to $17 per ton, only a little selling at outside prices, and the most at about $13.

FATAL TRIFLING.—In Memphis, Tenn., a few days since, a young man in joke told Mrs Wormley that her husband had been seriously injured by a dray. She asked if he was not jesting, and although immediately answered in the affirmative, she swooned and defied all efforts at resuscitation—dying shortly after.

ST. LOUIS, 18th.—The sixty first session of the General Assembly of the Presbyterian Church, commenced in the Union Church yesterday. The attendance is large. A. K. Skinner of New York, preached the opening sermon. New York has been selected as the next place of meeting.

LOCAL.

☞ By order of the Chief Engineer of the Fire Department, Engines Nos. 3 and 6 will make a grand trial of capacity, on Market Square, this evening. The object of this trial is to prove to the City Council that No. 3 is entirely unfit for service. All who saw the operations of that tub at the Granite House fire, cannot but admit that unless a new engine is purchased, it would be better to disband the company.

☞ The Theatrical Company at the Cameneum are now drawing good houses, and presenting a varied entertainment each evening. The company as now organized comprises considerable talent, and the members are said to comport themselves with propriety, on and off the stage.

Correspondence of the Chronicle.

FIRE IN EXETER.—A large wooden building, or rather three closely connected, situated about two miles and a half from the centre of Exeter, were totally destroyed by fire on Friday evening. They were owned by John Perkins & Son, and occupied by them as a Paper, Saw and Grist Mill, and have been kept in constant operation. The fire is supposed to have caught from friction of the machinery.

The proprietors lost a mill by fire near the same spot about six years since. They were probably now turning out as much work the year round, as any similar establishment in the village.

Another wooden building, near by, used by the same firm exclusively as a paper mill, was not injured.

Loss, including machinery, $7000; insurance $3000.

AN INCIDENT.—It is said that after the fire had been burning about half an hour, it was thought best to give an alarm in the village, and an Irishman was accordingly despatched, upon a horse. He rode quietly into the centre of the village, and then reining up, asked a gentleman passing,

"Where can I find the ingines?"

"What engines?" was the reply.

"The wather ingines, to be sure?"

"In their houses, probably, and the men all over town. What do you want of them?"

"Indade, I would be telling them that all 'Pickpocket' is a-fire."

"Why don't you cry fire, then?" and suiting the action to the word, the gentlaman soon set the town rushing towards "Pickpocket," much to the chagrin of the verdant son of Erin.

NO PERJURY.—The effort made on the part of some of the government officers to indict Mr. S. M. Booth, of the Milwaukie Free Democrat, for perjury, for making oath some time since, before Justice Smith, that he had been falsely imprisoned through the agency of Judge Miller and District Attorney Sharpstein, met with a failure; the grand jury throwing out the bill by a vote of 14 to 8.—*Boston Courier.*

All right:—a jury worth having. By the way, we would like to see the *names* of the Grand Jury who indicted some men in Boston for constructive treason.

LOSS OF SPIRITS.—A man in Lowell had laid in (for his own use, of course) a couple of barrels of the ardent;—which for safe keeping he had deposited in the woodshed. One night last week some hardhearted wretches, little caring who went dry, provided they had plenty to drink—surreptitiously entered the shed and trundled off the liquor. As the law does not recognize the "craypher" as property, the police have been directed to search only for those who stole the casks.—*Lowell News.*

UNPAID LETTERS.—Notwithstanding the general publicity which has been given to the change in the postal laws, that all letters must be prepaid, the number of unpaid letters placed in the Boston Post Office, averages about fifty per day.—*Bee.*

WHAT IS BAGGAGE?—In a recent suit in New York, the question came up, whether a gold watch is an article of wearing apparel, to be deemed baggage. The Superior Court decided it as an article of wearing apparel, and when not carried about the person, but in a trunk, while travelling, is to be deemed baggage.

AN ACCIDENT.—The proprietor of a lager beer shop died in this city a few days ago. The next morning our citizens noticed a slip on the door which read, "closed on account of an accident in the family."—*Charlestown Adv.*

David Newman, who died lately in Granville county, North Carolina, was a cabin boy of Paul Jones, a cannonier for Rogers at Tunis, an actor in the scenes at Tripoli, and at Sandy Fork a corporal in the Philadelphia regiment.

THE OXYGENATED BITTERS—Sold by J. H. THACHER, Apothecary, corner of State and Pleasant sts. m18

"Sick was the Sun, the owl forsook his bower,
The moon-struck prophet felt the madning hour"

THIS was before AYER'S PILLS came along. Now they are for sale by J. H. THACHER, Apothecary, corner of State and Pleasant sts.

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."

[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. E. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m a2 d&w

ARRIVAL OF THE BALTIC.

LATER FROM EUROPE.

NEW YORK, May 18th.—The mail steamship Baltic, Capt. Comstock, from Liverpool on the afternoon of the 5th inst., reached her dock about a quarter before six o'clock, bringing 160 passengers.

THE WAR.—The seige of Sebastopol was progressing, and the allies were apparently gaining ground. The bombardment, however, had slackened, if not entirely ceased, in order not to exhaust the ammunition.

Lord Raglan admits that it had not produced the result looked for. The list of casualties to the allies was not heavy.

The general impression in England appeared to be, that the seige will be abandoned for the present, and that while Kameisch and Balaklava are left to the defence of a few corps, the main body of the allied troops will try to penetrate into the interior, and cut off the supplies from Sebastopol, and then completely invest the town.

Numerous reinforcements were constantly reaching the allies.

The French reserve of 8000 near Constantinople was expected to be sent to Balaklava.

The Russian official accounts are to the 24th of April, and represents the damage sustained as of little account, and as actively repaired during the night, while the skirmishes from the city were generally successful. The loss sustained by the garrison from the 11th to the 15th of April is set down at 7 subalterns and 436 men, and 6 superior and 34 subaltern officers, and 1899 men wounded.

The English captured the first Russian pit on the night of the eleventh, after a desperate encounter, in which Col. Graham Egerton, the field officer in command, was killed.

On the 20th, an attack was made on the second Russian rifle pit, and it was also immediately abandoned.

According to the statement of two Polish deserters, there are 100,000 Russian troops in the vicinity, 6000 of whom have arrived from Sebastopol.

The forts on the north side of the harbor have taken part in the canonade, carrying their shots clear over the town into the lines of the allies, during the first week of the bombardment.

The English alone fired about 2200 tons of shot, and 500 tons of powder, so that the total consumption of the allies for the week probably amounts to some 6000 tons of shot and 1500 tons of powder.

GREAT BRITAIN.—A bill for a loan of £16,000,000 was read a third time, and passed on the night of the 1st by the House of Commons, and on the same night was ordered to be committed to the House of Lords.

The monthly returns of the Board of Trade are published. They are five days short as contrasted with those of the month ending 5th of April, 1854, owing to the going into effect of a new regulation. They show a falling off of about £1,000,000.

Metals have experienced the greatest decline, owing to the diminished demand for iron for railway works in the United States.

Throughout the country a strong feeling against the ministry is being manifested.—Indignation meetings regarding the conduct of the war, have been held in Derby, Sheffield, and other places, and a meeting of the inhabitants of London will be held, at which an administrative reform association is proposed to be organized. Similar meetings, prompted by the principal men of all political parties, are to be held in Liverpool, and other towns.

FRANCE.—The Emperor of the French had a narrow escape from assassination on the evening of the 20th., while on his way to join the Empress in their usual evening ride in the Champ Elyses. The Emperor was accompanied by the officers of his household, and when near the Barbiere Del Etoile, he was approached by a well dressed man, with an action intimating a desire to present a petition. He had advanced to within five or six paces of the Emperor, who had not observed him, when he was discovered by a policeman, who, thinking it was the intention of the stranger to present some document to the Emperor, advanced quietly to inform him that such an act in the street was strictly forbidden. As the policeman was proceeding towards the man, a cab was driven rapidly between them, and in the interval the individual had drawn a double barrelled pistol, and aiming point blank at the Emperor, discharged both barrels, but without effect.—He was immediately seized by the police; but not until he had drawn another pistol, and made another attempt to shoot. It is said one of the balls grazed the Emperor's hat.—The would-be assassin is an Italian, named Pianozi, and was a volunteer in Garivaldi's army. He was in London while the Emperor was making his visit, and would have made the attempt there if it had not been prevented by the great concourse of people. The Emperor proceeded with his ride, and visited the Opera Comique with the Empress in the evening, where he was greeted by an immense outburst of loyalty and enthusiasm.

Pianozi is in close imprisonment and in a terrible state of excitement from the effects of rage and fear. He will be tried about the middle of May.

The cost of the Norwalk disaster to the New York and New Haven Railroad has been $280,000, and there are still unsettled claims against the company, outstanding.—It will not probably escape the liabilities and losses on account of that terrible affair short of $300,000.

The New Haven Register records the death of a public character of that city in the shape of a horse, fifty years of age, the property of Elihu Sanford. The animal 'distinguished himself' at the Presidential inauguration of J. Q. Adams. He was buried with all the honors.

Take this along with you.—'Tis just what you want.
The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
FOR THE CURE OF
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,
AS well as Liver Diseases, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are peculiarly highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, the cheapest medicine.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received the highest unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *shred out knots* or *knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work in a better manner than to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st., opposite Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered by other agencies, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the whole sum in case of failure within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disinguitable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' names.

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Apply to the Patentee,

TO CARRIE.

Thine eyes are blue, heavens loveliest hue
Itself in them transcending;
The red and white on thy cheeks unite,
Their varied beauty blending;
Thy dark brown hair, on thy neck so fair,
In careless grace reposes;
And thy teeth of snow through their portals show,
Like lilies imprisoned by roses.

But O! whene'er thy voice I hear,
So full of tender feeling,
Each gentle tone sweet music's own,
The depths of love revealing;
How can I list, and yet resist
The charms that round thee hover?
Then hear my vow; believe me now
Thy fond, adoring lover.

Let poets raise their incense-lays
To beauty's fragile bower;
Far more than grace in form or face,
Is that which is thy dower.
Thy spirit, bright with heavenly light,
Which beams so kindly on me;
Thy mind's pure charm, thy heart so warm,
These are the spells that won me. P. B.

COURTS AND JURIES.

A writer in the Dover Enquirer says,—

In the 11th year of the reign of William III, King of Great Britain, (A. D. 1699,) the Governor, Council and Representatives of the Province of New Hampshire passed "an act for establishing courts of public justice within this province," viz: a Court of Sessions to be holden by Justices of the Peace; an inferior Court of Common Pleas holden by four Justices appointed by the Governor to hear and determine actions triable at the common law, not exceeding the value of twenty pounds; and a Superior Court of Judicature, by one Chief Justice and three other Justices to be appointed by the Governor. An act was also passed to return able and sufficient jurors to serve in the several courts of justice.

The English system, in substance, had long before been adopted by the province, and continued until our State constitution was established. The Court of Common Pleas and Superior Court (juries attending each) were also kept separate and distinct. When the constitution was formed, it recognized these Courts as separate tribunals, and provided that the General Court shall forever have full power and authority to erect and constitute judicatories, and courts of record, or other courts, &c. and declared that "parties have a right to trial by jury, and this method shall be held sacred," except in Admiralty cases, and that in order to reap the fullest advantages of the inestimable privilege of the trial by jury, great care ought to be taken that none but qualified persons should be appointed to serve. Under the constitutional authority, our Legislature did organize and reorganize the existing courts separate and distinct, each being independent in their several jurisdictions as by the common law, and the statutes specifying their respective duties. The jury were made an independent tribunal so far as parties to actions should see fit to submit their cases to their determination. Such has been our judicial system from time immemorial, until within a comparatively recent period.

* * * * By the act of Dec. 1835, a radical change was made in our judicial system. The justices of the superior court were made *ex officio* presiding justices of the courts of common pleas, with two county justices as their associates—one additional justice of the superior court was appointed—the *jury trial* at the superior court, for the first time in the history of our jurisprudence, was *abolished*, and the presiding justice of the court of common pleas was authorized to transfer, at his discretion, questions of law arising in the trial of any cause, to the superior court. This act is held by many sound lawyers to be unconstitutional; because in violation of the spirit of the constitution it merges the two courts in one—because it *abolishes the trial by jury* at the superior court, thus depriving parties to suits, of that inestimable privilege at the highest court; and because the constitution makes the superior court the supreme court of probate. Now appeals from the probate courts where facts are in issue, are tried by jury in the court of common pleas.

Under the present system, the chief cause of the long, almost endless delay of justice, is the transfer of legal questions, arising in the trial of causes in the courts of common pleas, to the superior court. A large proportion of the verdicts of the jury are set aside, and upon new trial of the same causes, other legal questions arise, which are transferred; so that litigation seems to have no end, and is ruinous to the parties in respect to property.

Attempts have been made from time to time since the act of 1832, to patch up the present system by legislative acts, and creating circuit justices. The latter were intended as a relief to the justices of the superior court. They cannot cure the radical defects of the system, which is unlike any other judicial system devised in this or any other country. The two radical defects are the abolition of the jury trial at the superior court, and the transfer of questions of law—which have the effect of rendering the jury verdicts generally, at the courts of common pleas, of little value.

LIFE IN BOSTON.

The Mail of Monday says:

It is said that more drinking houses than usual were open yesterday. The dealers in "ardent" laugh at the new prohibitory law, and the fools who framed it.

The same paper says:

Mr. Z. B. Porter, of North Cambridge, will close his bar after the new law goes into operation.

The great rum meeting was to be held in Faneuil Hall on Monday evening,—and the Boston Chronicle complains that,

On Saturday night and Sunday some evil-disposed or fanatical individuals caused to be posted up throughout the city, a placard intended to throw odium upon the meeting in Faneuil Hall, or to incite a riot.

The Chronicle farther says,

The meeting is called by some of the best and most enterprising men in Boston, and the speakers are gentlemen of character and highest respectability; and no doubt the company present will all be of the same class, if the authors of the placard alluded to do not sneak into the hall.

The coal dealers in Boston, also held a meeting, where some of them were in favor of employing counsel to resist the new law for weighing coal—but finally they only agreed to petition for the appointment of a weigher near each coal yard.

☞ On Sunday morning at half-past one, the Lee street Unitarian church at Cambridge, Mass., was found to be on fire, and was burnt to the ground. On the same night, and nearly at the same time, a large slaughter-house in Brighton, near Cambridge, was burnt.—Probably the same gang of incendiaries burnt both buildings.

THE KNOW NOTHINGS.—The composition of the American party is most singular. In some States they are strongly free-soil—as in Massachusetts, and generally in New England; in the Middle States they are most thoroughly conservative; in California they are hunker, even to the endorsement of the Nebraska act; and in the South, where their great strength lies, but has not yet been tested, they are firm adherents to the slave system, and include even such men as Atchison, who was ready to act the assassin to plant slavery in Kansas, and Gen. Quitman, who headed the party that was to seize Cuba to perpetuate the peculiar institution.

Some think they see in this, the germ of speedy dissolution. It may so operate when they come into power, but not before that; and other parties are no better situated. The country is so extended, and at this time so divided in sentiment, that success is impossible without a combination of factions. There is the same difficulty, and more, to harmonize these factions among the whigs or democracs, as among the Americans; and when power is attained, it will be as difficult for the Americans to keep together. No party has been able to reach a second term for twenty years, and possibly they may not for twenty years to come. The American party may crumble and divide; it cannot do so more than the others have done already—nor will the process commence, till success brings responsibilities.—*Newburyport Herald.*

KNOW NOTHINGS IN ILLINOIS.—The Chicago Democrat, John Wentworth's paper, of last week, says:

The Know Nothing State Council has been in session for the last two days, at Harmony Hall, in this city. Nearly two hundred delegates from various portions of the State have been in attendance.

We understand they had a very stormy time yesterday afternoon. The Council is divided on the Jonathan and Sam question. The Jonathans, who were first started in this city by a gentleman who was candidate for a high official position, at the late city election, appear to be in the ascendant.

The Sams are anti-foreign and anti-Catholic. The Jonathans are anti-slavery, but not against foreigners. They will admit all foreigners who disavow temporal allegiance to the Pope.

The Sams are backed up by Judge Douglas, who was yesterday visited by large numbers of the members of the Order, of pro-slavery tendencies, who are delegates from the southern part of the State. He evinces a great interest in the progress of Sam, on account of what that gentleman has already done in making Kansas a slave State.

The Jonathans, however, are taking the lead in this city. Already large numbers of Germans, English, Scotch and Irish have joined them, and they promise to swallow up Sam completely, who is now chiefly supported by Old Hunker Whigs, Old Hunker Democrats, and old fogies generally, with Judge Douglas to cement the whole if possible into one mass, in order to revenge himself upon the foreigners, who are instinctively opposed to his pro-slavery principles, and who can never be got to sanction the iniquity of making slave States out of soil once consecrated to freedom.

WISE'S LAST WORD.—Mr. Wise has written a 'last word' to his democratic friends, in which he says:

The *personnel* of the party was never more purified, and the numerical majority was never larger than it promises to be at the coming election. As in 1801, the democracy stood "like a wall," and rolled back the tide of federalism, so now it stands and will roll back the tide of fanaticism. It will prove itself to be the visible invincible! It is roused, and will rally to the polls 10,000 voters more than ever gave the *viva voce* before!

THE HARD CASE.—The Boston Bee says, in regard to the return of Mary Williams, a pauper, and her child:

The public ought to be informed of the truth of this and similar instances. It has been stated that the child of the pauper returned was born in this country. This is true. It is a notorious fact, however, that women in "delicate situations" are sent to this country as paupers, and our State Almshouses at Tewksbury and elsewhere, have been frequently converted into Lying-in-Hospitals for the victims of foreign crime. Money has sometimes been forwarded by responsible parties to pay the return passage of mother and child, after the accouchment. In the instance, which has called forth so many crocodile tears from the Advertiser and other old fogy partisan papers, the woman was sent to the almshouse immediately upon her arrival here, and in six or eight weeks subsequently, she became a mother, and has now returned to Europe.

FIREMEN'S RIOTS.—In New York city, on Sunday forenoon, a savage fight took place in Pearl street, between Fire Companies Nos. 13 and 21. Clubs were freely used, and several of the rowdies engaged were severely injured. In Ward No. 13, subsequently, another fight took place in a Lager Bier saloon in William street.

These are some of the first fruits of the free trade in liquors, under the new jumble of laws.

☞ A woman called Crazy Kate, moved by the 'Spirits,' made a disturbance in Rev. Dr. Hodges' church, New York, and on the Dr.'s descending to quiet her, she pushed him over a bench and broke one of his legs. Kate was thereupon arrested and taken out.

RIOTERS CONDEMNED.—In New York, on Saturday, the jury in the case of the Williamsburgh election rioters, after an absence of eighteen hours, brought in a verdict of guilty against four of the sixteen persons indicted. Sentence reserved for Thursday next.

CHURCH PROPERTY.—A church property secure bill, similar to that enacted in New York, has been introduced in the Connecticut Legislature.

LOCAL.

For the Chronicle.

CATTLE IN POUND.

Having suffered much, with hundreds of other individuals, from the long neglect of the city authorities to prevent cows going at large about the streets of this city, the subscriber drew up a simple petition, signed by forty worthy citizens, which was designed to do away the evil with as little expense as possible, and with little trouble to the city authorities. This was passed in before the Mayor and Aldermen for consideration, but was laid on the table without action.

The day following the subscriber caused fourteen cows that were in and about his premises, to be put in pound, agreeably to existing laws. Finding the city had neglected to provide a pound-keeper, he was under the necessity of acting as one himself, and locked up the fourteen cows and returned the key to the former pound-keeper, who refused to have any part in the business of this year.

The same evening the City Clerk, who had three cows in pound himself, with several others holding offices in the city, went to the pound and took their cows, and gave orders to the man who held the key to tell the rest of the owners they were at liberty to do the same; and also circulated reports that the writer had made himself liable for heavy damages.

Finding the evil not removed, a similar task fell on the subscriber, who caused to be taken, strolling at large in the street near his house, seven cows, and had them secured in the pound by a new and heavy lock, and handed the key to the Mayor, with written notice of what was done by him; and he also notified the Mayor of the city's neglect of providing a pound keeper.

I learned from the Mayor that he had sent or authorized the City Clerk to turn those seven cows out of the pound; all of which, I presume, will be legally investigated by competent judges of law, at some future time.

CHARLES ROBINSON.

OLD IRONSIDES.—The U. S. Frigate Constitution was spoken on the 8th, just south of the island of Cuba, bound to Havana. She has been ordered to this port.

PERSONAL LIBERTY BILL.

This anti-slavery Act of the Massachusetts Legislature, was returned to the Senate on Monday by Gov. Gardner, with his *veto*, on the ground that it is an "unconstitutional enactment, tending to an armed conflict between our State and National systems of government."

Whereupon the Senate passed it, over the veto, by a vote of 32 to 3;—and sent it to the House, where it was also passed by a vote of 229 to 76. So it becomes a law by the requisite majority of two thirds in both Houses.

EXPELLED.—The Augusta Age and Eastern Argus contain copies of two documents which purport to be from E. N. lodges, expelling and denouncing Gov. Morrill for accepting the Republican nomination. Mr. Morrill will probably survive the infliction.

REGISTRATION OF LETTERS.—We are glad to find many newspapers "down" upon this new law, which is to go into operation on the first of July, and is called the smallest piece of humbug fathered by the existing Administration. A correspondent, mailing a valuable letter, pays five cents extra to have it registered. If it is missing then, prompt and special measures are to be taken for its recovery; but no responsibility is devolved upon the Department. It the letter is lost altogether the correspondent recovers not a dime. All he gets for his extra five cents is a valueless receipt, and the promise of "extraordinary care in the safe transmission" of the letter. That we should suppose to be the duty of the Government without the extra charge; and this additional tax of five cents seems very much like the quarter of a dollar with which a hotel guest bribes a neglectful waiter to furnish him the dinner which he has already contracted to pay the landlord. If the government insists upon its monopoly of letter carrying, it certainly should assume all the responsibilities of common carriers, and we hope the press will continue to denounce the plan. What the community want is a money order system similar to that which has been adopted in England, and which is more safe and simple.—*Newburyport Union.*

Amos Kendall, when he was Post Master General, recommended the English system of post-office drafts for small sums of money—an excellent recommendation. But Kendall was unpopular, though a most efficient Post Master General. Besides, the whig papers generally sneered at the plan, and indulged in insuendoes about dishonest postmasters, &c.

By the way, we have ever considered the Post office monopoly to be unconstitutional.

THE SELLER SOLD.—Last week an auctioneer put up his flag in one of the back streets for the sale of a house. For some days previous the people of that neighborhood had been alarmed by rumors of the small pox, and seeing the flag their worst fears were confirmed. Not a person passed through the street that day, and at the hour of sale the auctioneer found himself alone on the premises.—*Newburyport Herald.*

OHIO.—Senator Chase is talked of in Ohio for Governor.

Out of more than twelve millions of passengers who were carried during the last year over sixteen railroads, only twelve were killed, and of the twelve, *eleven* were standing on the platform when they met their death. So says the report of the New York State engineer and surveyor, and travelers on railroads should remember it and "keep off the platform."

THE OXYGENATED BITTERS—Sold by J. H. THACHER, Apothecary, corner of State and Pleasant sts. m18

"Sick was the Sun, the owl forsook his bower,
The moon-struck prophet felt the madning hour"

THIS was before AYER'S PILLS came along. Now they are for sale by J. H. THACHER, Apothecary, corner of State and Pleasant sts.

IN WHAT ESTIMATION IS IT HELD BY PUBLIC MEN.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior to all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."
[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic *Pills*, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. TRACHER, and D. KENNAL, and sold by the Druggists throughout the United States. 2m a2d&w

WILMINGTON, Del., May 19.—The Rev. Theodore Parker of Boston, addressed a large audience here last evening. His subject was slavery. This was his first appearance in a slave state, and his discourse was listened to with the closest attention and most intense interest. The lecturer was greeted with frequent applause during the delivery of his discourse, and at the conclusion the audience complimented him by a vote of thanks.

SYRACUSE, May 20th.—George Elliott, a brakeman on the freight train, going west, at 2 o'clock this morning, fell between the cars, and had both legs cut off below the knee, besides being otherwise seriously injured. He died two hours after the accident.

POTATOES SEEKING A MARKET.—The price of potatoes is evidently on the wane, and all house keepers will rejoice that the odious monopoly, which has reigned for some time, will speedily be broken up. As a further evidence that there is no possible chance of a scarcity here, we note the fact that a schooner arrived at this port this morning from Boston via New York, with a cargo of 3000 bushels, and finding but a poor market, the master very prudently tacked ship, and sailed again for New York. We hope he will be successful in finding a market, though, if he expects to get as high prices as the article has commanded for several months past, he may have as tedious a time as Japhet had in finding his father.—*Baltimore American, Wednesday.*

DANGEROUS LEAP.—Some police officers went into a house in the rear of 134 Prince street, Boston, on Saturday evening, where they found John Rohan making a general assault upon every one around him, with a pair of tailor's shears. They attempted to arrest him, when he jumped through a third story window into the street. He was somewhat injured, and Dr. Moore was called to attend him.

Probably the man was not a *total* abstinent.

On Friday afternoon, Mr. Eliphalet Baker, who is building on Tremont street, Boston, detected an Irish boy in the act of stealing some of his lumber; and seizing the boy was taking him to the station house, when he was attacked by an Irishman and woman, who beat him severely, breaking out some of his teeth.—*Boston Adv.*

Brigham Young has been tampering with a United States jury in a most important case, cheating justice of its due. Three Indians, clearly proved guilty of participation in the massacre of Capt. Gunnison and his party, were brought in guilty of manslaughter merely, and sentenced to three years' imprisonment. Young instructed the jury to bring in such a verdict, in order to propitiate the Indians, upon whom he relies in case of trouble with the government. The adulterous scoundrel will have to be taken in hand before long.—*Boston Chronicle.*

A SENATORIAL FOOTPAD.—In their memorial to Congress, the citizens of Kansas state, in respect to the invaders from Missouri, by whom they were overpowered, that "the leader and captain of one of these bands was a distinguished citizen of Missouri, and *late the presiding officer of the Senate of the United States,*" and that he had bowie knife and revolver belted around him, apparently ready to shed the blood of any man who refused to be enslaved. Such is the meaning and intention of the Nebraska bill, according to one of its most active originators—Senator Atchison, late president of the U. S. Senate.

Judge Edmunds has discovered that there was a veritable John F. Lane, who was an officer in the U. S. army, and died by his own hand in Florida, while suffering under temporary insanity. The Judge argues that Mr. Ewer, of the California Pioneer, was unconsciously impressed by this spirit, while writing his famous fictitious account, about which there has been so much controversy. He has received a communication from the defunct Lane, through a medium in Dedham, Mass., confirming this theory.

A NEW STYLE OF BABY.—The police, a few days since, visited a certain house in this city, under the expectation of finding some liquors "intended for sale." Everything, however, appeared quiet and home-like. The "spirits," if about, were invisible, and made no "manifestations" of their presence. The good lady of the house sat at the side of the cradle, crooning a lullaby to her helpless little one, who was sound asleep, and well covered up so that the light should'nt hurt its "dear little blue eyes." One of the officers, however, being the father of a family, and fond of babies, thought he would just peep under the coverlet, and get a glimpse of its innocent countenance. He did so, and behold! the infant, by some horrible demoniac influence, was suddenly changed into a cradle full of demijohns containing spirituous liquors!—They thereupon seized the baby in its new shape, and intend to knock its brains out, when Judge Carter shall so order.—*Portland Argus.*

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George R. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston.
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

United States Bounty Land Agency.

Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute claims of above kind for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without *scoring* them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *touching the thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
70 State st, oppo. Exchange, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found a valuable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1855," and each box of Gravers has a fac-simile of the label with a fac-simile of the Manufacturers' name.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Apply to the Patentee,
WILLIAM H. FOSTER, Portsmouth.

Morning Chronicle.

GOOD SENSE.—The New York Times, in the course of 'A Column of Talk for Men on Small Wages,' has this correct paragraph on the subject of dress.

"Then as to dress, it is great nonsense to say that all must dress fashionably or lose caste. What is the fashion? Who wears a fashionable coat, and how do you know it is the fashion? Tell us one substantial merchant, one thrifty mechanic, one successful lawyer, or one gentleman, who wears it, and we will name ten of each, equally noted and successful, who do not, and ten fops whom you utterly despise that do. The fashion in New York for men just now, requires a clean decent garment, and no patches on it—no more, no less. A lady might wear her grandmother's shawl in Broadway, and not be noticed. The timid ones, and those just in from other cities and villages alone are worried about their looks, when they wear a last winter's bonnet to the lecture or to the church. Let the young imitate the substantial and common-sense, rather than those who are keeping up appearances at a sacrifice. It will be a saving in this item."

HOW EUGENIE WEARS HER BONNET.—In regard to the much mooted question as to whether a bonnet should be worn on the head or off of it, it may not be deemed amiss to take advantage of the actual presence of her Imperial Majesty, who is said to have introduced this popular feminine eccentricity, to place on record that, although the bonnet of the Empress Eugenie displays fully her face and hair, it does not convey to the beholder the idea of its being likely to fall from the head behind, but rather seems to cling to and support the hair in that position. This gives a lightness and grace of carriage to the head, totally distinct from that boldness and barefacedness which have characterized the English adoption of the French Imperial fashion. —*London Morning Post.*

A CONVERT IN VIRGINIA.—The friends of genuine, old fashioned, slave catching religious sentiments, who have been exercised to such a terrible extent by Mr. Seward's *Higher Law* heresies, will be pained to hear that Senator Hunter has lapsed into the fearful error. In a recent speech at Petersburg, Va., he made the following confession of his faith:—

"Protestants and Catholics, all Christian Churches and individuals, believe that the allegiance which they owe to God is higher than any obligation to man; and that *in a conflict between human and Divine laws, you must serve God rather than man.*"

H——s, what *are* we coming to? A Virginian, a statesman, a Democrat, a supporter of Frank Pierce, an owner of slaves, actually embraces the Higher Law! But let the friends of lower law be of good cheer. At least, Augustus Cæsar Dodge, the most illiterate and illustrious of plenipotentiaries, will stand firm. He at least, will be as resolute as a donkey. He never had an idea of anything Divine—he never had any very distinct notion of a God—*he* will never embrace the Higher Law.—*Boston Atlas.*

The Woonsocket (R. I.) Patriot heads its "Marriages" thus:

"Here the girls and here the widder
Always cast their earliest glance,
And with smiling face consider
If *they*, too, won't stand a chance
To make some clever fellow double
In bliss, and often, too, in trouble."

A very good tempered gentleman, with a very long nose, was one day walking down a very narrow street. Two or three quizzical ladies, with a very ill grace, paused in their way, and looked steadfastly at the gentleman's nose, when he good humoredly, deliberately placed his finger on the tip, and pressing it to one side, said, laughingly, 'Now, ladies, you have room to pass.'

STEAM MUSIC.—A Worcester paper—the Transcript, we believe—says one of their enterprising mechanics has invented the art of rendering steam whistles musical—thus making those nuisances quite as ornamental as useful. What an improvement that will be when it comes into general use! For instance, suppose we are a young married man (it requires some imagination we admit) and have to leave the endearments of home for business elsewhere. We get into the cars feeling dreadfully, if not worse—the bell gives the parting tinkle, the wheels rumble slowly out of the depot, and at that moment the whistle strikes up "Oh, Susannah! don't you cry for me"—shouldn't we be touched, and yet consoled? Then further along, an ignoramus, as ignoramuses *will*, is seen walking on the track, and immediately, "Git out of the way, Ole Dan Tucker!" starts him one side as promptly as the hiss of a rattlesnake, but still with an agreeable exhilaration. But a dog is just to be run over—the thing is inevitable—but there is some consolation in "Old Dog Tray" played as a complimentary requiem. When not otherwise employed, didactic strains might be given, as, "Wake up Jake! the fire wants poking"—or the night train might soliloquize, "We won't go home till morning." And one instance more—the young married man, so ingeniously supposed above, having got through his business, is returning—as the cars begin to slacken their pace, what would be more touchingly appropriate than "Home again, home again" played with a forty-horse power pathos! We have said enough—hurry up the musical engines!—*Portland Advertiser.*

Morning Chronicle.

WEDNESDAY, MAY 23, 1855.

GRAND RALLY FOR FREEDOM.

Under this title the Boston Chronicle and Times give a glowing account of the great meeting of distillers, importers, venders, drinkers and friends of intoxicating liquors, in Faneuil Hall, Boston, on Monday evening, May 21.

The Times say there was "a bigger crowd, more enthusiasm and more harmony, than on any previous occasion. At seven o'clock, the time of opening the doors, there were at least five thousand stalworth, earnest men outside the Hall, and they marched in as quietly and orderly as if they were entering for Sabbath worship. No ribald shouts, nor blasphemous words were heard,—and no vile temperance fanatics to make a note of it."

The Times estimates the assembly at 10,000. The president was Oliver Frost: and there was a little army of vice presidents and secretaries.

Mr. Frost opened the discussion with a speech, in which he said,

We have not assembled for the purpose of defying the laws of the Commonwealth, but as good and law-abiding citizens to protest against such an infringement upon our rights, and so indicate our opposition to the principles of this law; for the purpose of discussing its odious features, instead of opposing the process of the law, or resisting the officers who are engaged in a proper manner in enforcing it.

He introduced Rev. Mr. Lovejoy, of Cambridge, whom he called a consistent temperance man,—and who made one of the most eloquent speeches in favor of free trade in rum, and of the inalienable right to drink it, or anything else we please, that we have ever read. He said,—

You are assembled to say, substantially, whether Paran Stevens, Harvey D. Parker, Moses Williams, and the like of them, are worthy of a felon's dress. (Shouts of no! no!) The law which I hold in my hand cuts deep, even to the life-blood of the character, reputation and property of these men. * * * * * * I do not say I would assault or resist the execution of the law, but I would contemn the law and despise its penalties. But the law can never be executed.

Mr. Lovejoy then went on to ridicule and defame the State Temperance Committee, the Legislature, Governor, and the Roxbury, Lowell and Railroad Committees. Some of his hits were hard ones, where they struck on hypocrites, who voted it criminal to sell what they themselves loved to drink, and drank at the cost of others.

Mr. Lovejoy was severe and vindictive against the committee who framed the law—and made the following grand mistake as to its object:

I say this law as made as though a special vengeance against a class of persons in the community. It is evidently framed in parts, and artfully interwoven so as to crush individuals of a certain trade.

Col. J. Wright introduced 20 Resolutions and made a long address, followed by a short one from Mr. Edward A. Vose.

The 17th Resolution hopes the city government of Boston will not take hasty or extraordinary measures to improve the law,—and the 19th wishes to call back the old golden days of the license laws, and place the business in the hands of *honorable, judicious and responsible men.*

PERSONAL LIABILITY.

It is hoped that the next Legislature will repeal the act known as the Personal Liability law. Whatever good may have been intended by its authors, it is certain that it has done much damage to many of our most worthy citizens. Should the provision of the law be carried out, its demands upon its victims would be insufferable. It asks for something more than what is demanded by the common gambler's code; it insists on having the whole estate—real, personal, present and prospective—and it will be put up with nothing short of the neck itself. And all this far for no good whatever, except it be to benefit the rich money-lender, at the expense of the hard-working citizens.

The man who is so far accommodating as to take stock instead of money for damage on account of a rail-road crossing his fields, becomes at once liable to be caught in the meshes of this net of legalized fraud, which has been set for him by his own friends.—Had it not been for this act, our half-finished roads would have been long since completed, and would have been now doing a profitable business. Manchester and Portsmouth would have been connected—there was plenty of both men and money to have done it, had there been no unwise law to interfere,—but as soon as the unjust provisions of the law were understood, men fell back, and left the whole burden on the shoulders of those who had unconsciously and in good faith first taken hold—supposing, as they had a right to suppose, that the business of the Legislature was to protect the citizen in all his lawful concerns.

If men having capital should not see fit to trust a corporation on the security of the stock itself, they can make other use of their money. It is very wrong indeed for an individual to be placed in such a situation as is contemplated by this act, unless he can have some reliable remedy within his reach.—*Manchester Amer.*

CINCINNATI, May 21.—The great dental case of Allen against Hunter for an infringement of a patent for artificial teeth has been decided against the plaintiff in the United States Court.

LOCAL.

For the Chronicle.

THE DRAMA.

A well organized and quite efficient dramatic company has at length been procured for Portsmouth, through the exertions of the lessee of the Cameneum; and are nightly performing to very good houses. With the change of company, has also occurred a perceptable improvement in the character and numbers of the audience. The scenery, formerly only tolerable, is daily improving, under the hand of a skillful artist from Boston; and the machinery, appurtenances and effects are at present all that could be expected upon the limited stage of the Cameneum. Further improvements are in contemplation; and we doubt not that Mr. Plaisted will be ultimately repaid for the very considerable outlay involved in the undertaking, and sustained in his endeavors to permantly establish a respectable place of amusement in our city.—We shall gladly chronicle such a result, firmly believing that the success of a well-ordered theatre will detract nothing from the general prosperity, and can have no other than a beneficial effect upon the manners and morals of our community.

An intelligent member of the police force has informed us that the streets were never more quiet, or good order more prevalent throughout the city, than since the opening of the theatre. Here congregate, as passive listeners, those very young men, who, abroad and under cover of the night, and freed from the restraining influence of the multitude, forget their self-respect, patronise the dram shops, and render the streets vocal with their senseless revelry. Far better, we conceive, for the prosperity of our city, that the money in the possession of this class, be circulated in our midst,—and any profits accruing pass into the hands of a respectable townsman, than that it be added to the ill-gotten store of the dealer in intoxicating drink, and go to perpetuate the liquor traffic. Q. K.

For the Chronicle.

THINK ON THESE THINGS.

Messrs. Editors:—May I be permitted, through your Chronicle, to ask the attention of our thinking, moral men, to a few questions and suggestions with regard to the moral sentiment of our community at the present time? Not that I do not suppose they do not often have their attention called to it, and do not often mourn over it as does the writer, but with the hope that there may be some united efforts made to roll back the tide of iniquity which is pouring over our city, threatening to sweep many more of our valuable men—both young men and men in middle life to an untimely and dishonored grave.

We all acknowledge that the *great* cause of the immorality that prevails in our community is the rum traffic. But the days of this iniquitous business are numbered. We rejoice and thank God that its pestilential breath will soon cease to infect our atmosphere; and we sometimes think that the closing of the rum traffic may be the fulfilment of some portion of the prophecy which our advent friends interpret as the coming of Christ in his kingdom. It is certainly a remarkable event that the several New England States should be so united, against the kingdom of Satan in this his most effectual means of accomplishing his work of ruin.

Then is not the theatre which is now being countenanced in this place, a source of evil and only evil in the community? How many of the men who are giving their money to this miserable exhibition, do not, and probably cannot pay their honest debts? And how many of the boys who attend this theatre are stealing everything they can to obtain money to admit them there? Is it not a shame and a disgrace that such a nuisance can be tolerated for a single day? Then besides these *direct* results, are there not evils constantly growing out of the influence of theatres?—The theatre is, in my opinion, one of the broad ways leading to destruction, and in this opinion am I not sustained by nine out of ten of the best men who have lived within the last century?

Horse racing, too, has been introduced into the old town of Portsmouth. I understand that all the vehicles which could be commanded at our livery stables, were employed last Saturday in conveying persons to attend the horse race at the Plains. We hear of horse racing among the black-legs of the South, and this is awful enough. But never did I suppose that the public sentiment of this place would become so demoralized as to endure such outrages upon all the principles of morality and religion.

Another favorite amusement of some of our young men, and a Sabbath sport too, is in the despicable and cruel practice of cock-fighting. A number of them made it their business not long since to spend a part of their Sabbaths in this way.

There are frequent Lottery schemes, too, under the false names of gift concerts, &c., which are patronized by many whom we think might blush at the thought of countenancing such business.

How long shall these abominations exist in an intelligent New England community?—The gross immoralities we have named are some among many others that might be brought before your readers. But lest these suffice. Does not every christian man and every moral man in Portsmouth, see that it is time something was done to arrest the onward progress of corruption, which is blasting the fair blossoms of virtue and purity among us? Will they not arise in their strength, and say that the present state of things shall continue no longer? Should we not feel an individual responsibility in this matter? How can we sit silently by and witness the rapid growth of crime in this community, and make no effort to resist its influence? Surely every *christian* should feel that he is a watchman—that there is a personal responsibility resting upon him which he cannot throw off if he would—that God requires not only that he should be in a right position himself, but that he should warn others of the dangers threatening them.

"If the watchman see the sword come, and blow not the trumpet, and the people be not warned; if the sword come, and take any person from among them, he is taken away in his iniquity; but his blood will I require at the watchman's hand." V.

SHIP FRANKLIN.

Messrs. Editors:—I was much pleased, last fall, on inspecting the commencement of the ship Franklin at the Navy Yard; and remembering that pleasure, I went over again a few days since, when I found her completely framed out, with the bow and stern casts all up, and the ports framed. The frame is all live oak, and square edged. Such a frame and such excellent work I never saw before, and doubt if any one else ever did.

This ship is building under the direction of Mr. William Hanscom, the Naval Constructor stationed at the Yard, and on inspecting his work I do not hesitate to say a more competent, scientific Naval Constructor is not to be found at any naval station in this country, or any other.

The Franklin is 305 feet in length over all; 54 feet 3 inches beam; 35 feet in depth; and will be the largest seventy four in the country. She is to be a propeller of the new kind, with two stern posts.

If Mr. Hanscom finishes her in the same substantial and workmanlike manner, (of which I have no doubt) she will be the most splendid ship that ever floated on the ocean; unless she should lose her reputation by bad machinery, put in for steam navigation.

There is great fear of that, while we have a Secretary of the Navy who is totally ignorant of ships and machinery for steam power.

I purpose, in a future communication, to give my views in favor of taking from the Secretary of the Navy all jurisdiction over Docks, Dock Yards or Navy Yards, and the building and fitting of all ships of war for sea; as in my opinion this business ought to be under the direction of a board of scientific and practical officers. JOHN SALTER.

Portsmouth, May 22, 1855.

☞ By an addition to the advertisement of the Portsmouth & Concord Railroad, on our outside, it will be seen that "through tickets" for almost anywhere, may be obtained at their depots in this city and Newmarket.

☞ The stove and house-furnishing store of Mr. Geo. N. Carleton, on Daniel street in this city, was broken into on Saturday evening last. The thief stove in a rear window, ransacked the desk, and tried the safe—but succeeded in obtaining only a few shillings in change.

MELANCHOLY EVENT.—Mrs. Blacque, daughter of Dr. Mott, of New York, and wife of the interpreter to the Turkish Legation here, has just died suddenly. The cause was the reception of a letter from her absent husband, stating that he had married another wife—a Greek lady—as it was his clear right to do, according to his religion and the customs of his country. He added that he had no desire ever to see her again.—*Paris Cor. Daily Times.*

The religion and customs of his country, however pliable, could not alter the nature of a sensitive and loving woman, to the purity and depth of whose affection and principle he seems to have been an utter stranger.

☞ The New York Musical Review (fortnightly,) and Musical Gazette (weekly,) both published by Mason Brothers, have been united, and are to be published twice a month, with the joint title and editorial talent, for $1 a year. A cheap and good family musical paper.

Dr. Dixon, of New York, writes to the Tribune that salt and ice applied to the surface of that part of the body to be operated upon, is equal to ether as an anæsthetic. He says:

I have recently performed operations as extensive as amputating the entire breast, removing wens, applying caustic, &c., without the slightest pain, by means of this beautiful and beneficent agent, and can assure you that surgeons will find it perfectly reliable in any case where the part is accessible to its action.

The Louisville Journal states that Mr. Clay once declared in conversation that the Fugitive Slave Law was framed, in his absence, different from what he desired. On being asked what provision he would have introduced, he replied, one that should have given the slave a jury trial at home, as of right, and without the slave's *especial* request.

IN WHAT ESTIMATION IS IS HELD BY PUBLIC MEN—HON. NAHUM P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior to all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."
[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the nuclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

THE BATTERIES OF THE ALLIES AT SEBASTOPOL.—A correspondent of the Philadelphia North American says that in the bombardment of thirteen days at Sebastopol the guns of the allies have already performed as great service as it is considered safe by competent authorities to look for in iron ordnance. In the United States service, one thousand rounds are as many as it is thought desirable to fire from these guns, although there are instances in which twice that amount of service has been required of them. In these thirteen days, with one hundred and twenty rounds per day, we find that each gun has been discharged fifteen hundred and sixty times, and the effect upon the defences of the enemy has not been deemed sufficiently great to warrant an assault. The correspondent further adds that from experiments made by officers of the United States Ordnance Department, and more particularly from those of the late Capt. Walbach, our service has acquired a much more thorough knowledge of the means of testing the strength of cannon than any other in the world.

WATERTOWN, N. Y. May 21.—The Canadian steamer Porcupine, used for freight and towing on the St. Lawrence River, was burned yesterday evening near Prescott. No lives were lost.

NATHANIEL HAWTHORNE.—The Boston correspondent of the New York Evening Post, who is doubtless well informed as to the intelligence received from Mr. Hawthorne by his friends in Concord, Mass., has the following:—

"Mr. Hawthorne, I understand, contemplates resigning his consulate at Liverpool, at the end of his present year of service, and will travel for a year in Europe, and then return to the United States. He said that he would not retain the place if the new diplomatic bill should pass, as that, like death, "cuts down all, both great and small," dealing with the humble consul as summarily as with the loftiest envoy. Nominally the salaries of some are raised, but the Liverpool Consul's income has been razeed one half, to speak moderately."

PERSONAL LIBERTY BILL.—The personal liberty bill passed to be engrossed in the House yesterday, without debate. The vote was subsequently reconsidered, and the bill was debated, amended so as to make it incompatible for a man to hold at the same time a State commission and that of United States Commissioner, and makes the writs returnable before the Supreme Judicial Court, and as amended was again passed to be engrossed by a very large majority.—*Boston Bee of Saturday.*

"SKETCHES OF SLAVE LIFE."—Peter Randolph, of Boston, whose place of business is at No. 15 Lindall street, has published a pamphlet entitled "Sketches of Slave Life, or Illustrations of the Peculiar Institution."—This man was once a slave in Virginia, but, with many others, was emancipated by his master's will. He is an industrious, hard-working man, and is proving to the world by his excellent conduct that slaves, when liberated, can take care of themselves, and that Mr. Cash is a better master than Mr. Lash. His sketches of plantation life are graphic and life-like, and, taken together, his simple pages are of more interest than those of many volumes of far greater pretensions.—*Trans.*

BABY-SHOWS.—We are no advocates of baby-shows—never have been—but it strikes us that some of the objections are untenable. One paper calls a baby-show "beastly," and compares it to a "show of "calves," to prove that "good blood and good feeding had something to do with their appearance." Well, and so it has. And in so far as it is beastly to improve the human race, we go in for beasts and babies. We believe in improvement and that the human family need it about as much as cattle; and if showing the finest specimens of America will have any tendency to improve the general stock, we had better have a baby-show every month. But Barnum's show only aims to exhibit the choicest specimens of the pure white breed. By way of contrast, there should be some of the worst. Let us by all means have in the show a dozen of those squalid beings that are born by thousands every year in this City, conceived in rum and brought forth in drunkenness. That will show what is and what is not "beastly" about the breed and feed of babies. Let us by all means have a chance to see what is the effect and value of improvement. Perhaps the rumsellers could get some "aid and comfort" out of such an exhibition, and "the rest of mankind" would be able to see all that was "beastly" about a baby-show.—*Inter. Journal.*

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston.
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.

WOODEN NUTMEGS OUTDONE.—There is a Parisian dandy, who we think, rather outdoes Connecticut.

C——— had at his residence a complete costume of a groom. When offering an attention to one of the fair sex, he used to say, 'Permit me to send you a bouquet by my black servant.'

He then repaired to his garret, took out his blacking bottle, polished his face and hands, put on his livery and knocked at the lady's door.

'Here,' he said, 'are some flowers sent by my master to Madame.'

He had spent the last five francs in the purchase. Madame was so delighted with the present, that she presented a louis to the bearer.

That is a clear pocketing of three dollars, and a lady's favor into the bargain.

The California Pioneer tells a story of a faithful member of a church in Massachusetts who was fond of exhorting. He always commenced by saying that he was unwell and did not feel like speaking in meeting, but would say a word and give way to his brother D., and then he would go on, roaring loudly and swinging his arms, for at least an hour. At the conclusion of one of these harangues "Brother D." slowly rose, and in the most solemn voice said, "I should be amazingly interested to hear our friend once when he was in full health." This finished that meeting.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and elegance of the Gold Pen, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as there will be no need of a wiper, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' Signature.

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

REMARKABLE DISPENSATION.

Really, Truth is stranger than Fiction. A dispatch from Cincinnati, Ohio, dated May 21, says:

Elijah Williams, a rich planter of Barnesville, S. C., arrived in this city to-day, with eight negroes, one of whom was his wife, six his children, and the other his wife's mother. The object of the visit was to manumit the whole, and settle them in this State; just, however, as he stepped from the steamboat into a carriage, he fell dead. The negroes having been brought here are of course free under our State law. Mr. Williams had previously left by will the whole of his estate to the negroes.

Now here is a remarkable dispensation of that Divine Providence which orders the events of life and death.

It is worthy the attention of those moral casuists who have *warned* the democrats and whigs, free soilers and christians, of New England, not to join a secret order because two eminent men of the order died, and another came near dying, but still lives.

We see no evidence that Elijah Williams had joined any order except the order of honest men, in trying to keep his own children, with their mother and grandmother, out of the horrors of slavery to some scoundrel or scoundrels, no one knows whom, who might happen to bid the highest for them at auction, for the benefit of the deceased husband and father's white cousins or uncles.

If his sudden death be evidence of Divine displeasure; and if it be our duty so to interpret it;—then it would seem to follow that God is the special guardian and patron of slavery,—and that he has a special hatred of men who do any thing with or for negroes, except to whip and sell them.

But there is no man around us, who believes this or can believe it;—no man who does not see that the doctrine of *politico-religious* dispensations and warnings, runs itself into the ground.

To men of heart and soul, Elijah Williams is seen to die in the performance of a duty, which in his case was barely finished, when his spirit returned to God who gave it. How different, we must say, from the death of Gorsuch, who died by a defensive shot, possibly aimed at him by his slave whom he was seeking to reclaim or to kill.

ANECDOTE OF CALVIN.—The late Albert Gallatin, President of the Historical Society, related the following anecdote to the Hon. G. C. Verplanck, from whom whom we get it. Several years ago, a number of Calvin's letters were found among the archives of Geneva, some of which, relating to his domestic affairs, exhibit a curious picture of the daily life of this great Presbyter, and illustrates strikingly his peculiar habits and temper. In a scolding letter to the syndics, or magistrates of Geneva, he complains that they have filled his house with wine of a poor quality.

'I do not keep open house,' he says, 'nor do I entertain many guests at my table, and therefore the quantity you have sent me displeases me, as well as the quality. I wish, therefore, you would take it away, and replace it with something I can drink; I do not want much, merely enough for my own use and that of my family; a few barriques, (barrels of about forty gallons each) say four or five, will be sufficient for me, *once a quarter!*'

Will not some wise man tell us also, of Luther, who was fond of good ale? And if it be our duty and privilege to follow these great reformers in all their errors, follies and faults—must we not believe the five points with Calvin, and the real presence with Luther—and must we not burn Servetus, or some other heretic, with the former; and throw inkstands, or some other missiles, at the devil's head, with the latter?

In short, must we not stereotype all things, good and evil? especially *evil*? and so be afraid to become one whit wiser or better than our fathers or grandfathers?

ATKINSON STREET.—Our city government having recently abolished the name of this street and substituted Congress street for the entire length, from State to Purchase street, it may be historically useful to put on record whence the name now discarded was derived. It was from Theodore Atkinson, who emigrated from Bury, in Lancastershire, (Eng.) in 1634, and settled in this town, where he died in 1701, aged 90. He was a felt maker or hatter by trade, one of the founders and members of the Old South Church, member of the Ancient and Honorable in 1644, Freeman in 1642. He owned seven acres of land near Fort Hill, which was called pasture land; also, a house, orchard and garden. Berry St., which was originally called Bury street, from his nativity, has undergone a change in its orthography. He was the ancestor of the Atkinson family in New Hampshire.—*Boston Trans.*

ORNAMENTAL CORNICES AND CENTRE PIECES.

LUTHER N. HURD,

NO. 38 and 40 State street, continues to make and put up Ornamental Cornices, Centre Pieces, and other Stucco work, much cheaper and vastly more beautiful than ornaments of Papier Mache. Many specimens of his work may be seen in buildings in this city and elsewhere.

He has lately added to his stock by purchasing that of Mr. Samuel Reynolds; and would respectfully invite the customers of both, and the public generally, to call on him for work in the line of Stucco Ornaments, Plastering, Coloring and Mason Work generally. j5 6m

Morning Chronicle.

THURSDAY, MAY 24, 1855.

ALTERATION OF PARTY MANAGEMENT.—The Whig party of New York have issued a card or proclamation, calling for a reconstruction of the New York Whig party upon sound and honest principles. The projectors of this movement propose to shut up the Broadway House, to disband its trained gangs of hired bullies and ruffians; and to put an end to billies and bludgeons, and rely hereafter on the ballot box in all its purity. The call also urges the party to avoid all coalitions or "fusions," and to rely on its own unadulterated principles. The Tribune does not like the idea, and does not publish the card. It goes in for "fusion."

Reconstruct the Whig party! Why not as well reconstruct Solomon's Temple?—One task is about as easy as the other. Both buildings have been so thoroughly thrown down that not one stone is left upon another,—but much of the material is used up in other structures.

AN IMPARTIAL STATEMENT.—Mr. E. A. Vose, at the meeting at Faneuil Hall, Monday night, stated that he was a member of the Committee of Roads and Bridges of the Legislature,—that on one occasion they were attended with supernumeraries,—that the entire party numbered fifteen,—that he ordered some spirits,—that of the fifteen, thirteen drank bountifully, and of the thirteen, twelve voted for the New Liquor Law!—This is the statement of an eye witness, and it is undoubtedly true. This reminds us of another piece of hypocrisy. A member of the Boston delegation who voted for the liquor law, excused himself to a constituent by saying, "I voted for the bill which makes jurors judges of the law, as well as the fact in criminal cases."—*Boston papers.*

If Mr. Vose statements be true, they are disgraceful indeed: but unless they rest on better authority than his bare word, we should sit among the doubters. This speech as reported in the official organ, reads like the production of a man under the influence of liquor.

Lord Timothy Dexter was an odd soul. His eccentricities would fill a book. A neighbor of Lord Timothy observing him riding one morning with only one spur on, inquired the reason.

'Why, what is the use of the other,' said his lordship. 'If one side of the horse goes, the other can't stand still.'

This alleged reply is evidently borrowed from Hudibras. But it is folly to attribute it, even as a borrowed witticism, to Lord Timothy Dexter, whose head was incapable of even appropriating a clever saying,—though he thought himself witty as well as wise, and though he was comical from excess of vanity and folly.

MAGNIFICENT SCHEME.—The Missouri Democrat has the following in regard to a magnificent scheme concocted by the slave-holding speculators of Missouri:

From rumors that have lately reached us, we are led to infer that the Atchison mobocrats never lose sight of the spoils. They have laid out the town of Calhoun, K. T., to which place the Legislature elected to do their bidding will adjourn and establish the seat of government, and expend the $25,000 appropriated by the government to erect public buildings, when the nullifiers will sell out and make their fortunes before the people of Kansas can right themselves in the premises.

'SQUIRE HALE.—The N. H. Patriot contains a column of dissusions from the election of John P. Hale as United States Senator from this State. The most cogent of them all, are copied from the Boston Courier.

☞ A fire occurred at Danville, Vermont, on Tuesday, 22d, which destroyed the hotel, the Caledonia bank building, the Methodist church, and two barns—in which nine valuable horses were burnt. The bank's books and funds were saved.

☞ The remains of Capt. Thomas W. Wyman, U. S. Navy, who died in Florence some time since, arrived at New York in the Levant, and have been deposited in Mount Auburn cemetery.

FRANK LESLIE'S NEW YORK JOURNAL, for June, 1855, contains more than fifty articles, original and selected, and a great number of handsome wood-engravings. It is a valuable miscellany. Price $2 per year. Published monthly, in New York.

LAW.—An elderly woman named Eliza O'Grady was brought before the Police Court in Boston on Tuesday on the charge of being intoxicated, and disclosed the name of Mrs. Hinds, in Cross street, as the person of whom she obtained six glasses of liquor. Mrs. O'Grady, according to the provisions of the new law, was not proceeded against, but will remain in custody until a complaint is made against Mrs. Hinds, and she is brought into court on the charge of violation of the new liquor law.

The first liquor law violation in Worcester, was Ross Mc Cann. She was fined $108 and costs, appealed, and was committed.

CHRIST CHURCH, BOSTON.—We are informed that at an adjourned Easter meeting of the Proprietors of Christ Church held in the vestry room of said church, on Monday evening April 30th, the proprietors voted, unanimously, that the Wardens be requested to write to the Rev. Wm. T. Smithee a letter requesting him to resign as minister of said Church.—*Bee.*

LOCAL.

COWS AT LARGE.

A correspondent, subscribing himself "Stare Legibus" takes exceptions to Mr. Robinson's efforts to prevent cows going at large, and especially to his statement of the Matter in the Chronicle. S. L. says:

We admire his public spirit in this matter, and we award to him all praise for endeavoring to keep the cows from going at large in our public streets: but when Mr. Robinson desires to have redress by the law, it becomes him to proceed strictly according to the letter of the law. This he has not done, and he now complains that the City Clerk and others went to the pound and took their cows, and that the Mayor authorised the act.

In the first instance of impounding, Mr. Robinson made "Mr. Jenness" pound keeper, gave him the key, and, at the same time, states that "the cows are not under the legal charge or care of any one"! In the second instance he *authorized* (!) the Mayor to be pound keeper (!) but the Mayor, being advised of the illegality of the proceedings, upon demand of the owners of the cows, did not object to their taking them.

Editorial Note. As we understand our correspondent above, in what we publish and also in what we omit, he means to defend the Mayor and City Clerk from the imputation of any official misconduct, either in neglecting to impound cows, or in setting them at liberty when impounded.

We also understand him as stating, that any person who impounds animals, and finds there is no pound-keeper, cannot delegate that office to a third person, but must perform its duties himself: and that the person, therefore, to whom he gives the key, cannot keep the animals legally.

And as the same correspondent expounds the City Ordinance on this subject, the Marshall cannot execute it without a precept,—nor without knowing the owner of the stray beast.

If these interpretations be correct, then there is need of a supplementary Ordinance, making it the duty of the Marshal and his deputies to put *every* stray cow into the pound, and tax the cost on the owner when he appears.

Such a provision for substance, is enforced to the letter in most towns in Massachusetts, and can be enforced here without difficulty, if the people wish to have it so. But if they do not, they can use all the streets, yards and front gardens as a common pasture, and give the cows the freedom of the city.

For the Chronicle.

CORRECTION.—*Messrs. Editors*:—I read the articles in Wednesday's Chronicle, on the Drama, and Think on These Things—with some attention. As we have a theatre, I am glad to see that it is orderly and respectable—according to Q. K.; but was put upon a sober second thought, by the questions of V. on the same subject.

On the matter of horse-racing, V. is under an entire mistake. The race which he was informed came off last Saturday at the Plains, was not held nor appointed at that time or place. So that wherever else the vehicles went, they did not go to that horse-race.—And while on this matter, we will say that there does not seem to be any more racing of horses in this region, now-a-days, than formerly.

It is to be hoped V. is also in a similar mistake about the boys' stealing; though there is no harm in keeping a good watch—and it is well known that some boys in every place will pilfer for the purpose of going to see amusements of almost any description. X.

For the Chronicle.

THE DRAMA.—Mr. Le Moyne, the stage manager at the Cameneum, is a gentleman of marked talent, and the best actor in his particular line of business who has ever appeared in Portsmouth. A friend from Boston assured us that, next to John Gilbert, Mr. Le Moyne was considered by intelligent play-goers, the best "old man" who had appeared in that city for a long series of years.—Mr. Kames personates the leading characters, with considerable success.—Mr. Bidwell is an established favorite, always perfect in his parts, and accurately conceives and embodies every character in which he appears.—Mr. Wormwood is very successful in his representations of extravagant Yankee character.—Mr. Marston, a gentleman whose stage experience covers only one year, exhibits a high degree of talent as a delineator of comic character; and by his amusing sallies, keeps the audience in the best possible humor.—The Misses Emmons are young ladies of talent, entirely familiar with the stage, and are acknowledged favorites.

On the whole, the present company is the best which has appeared before a Portsmouth audience for the last twenty years; and the audiences which nightly congregate within the walls of the Cameneum, sufficiently attest the general appreciation of the fact. Q. K.

For the Chronicle.

MARKET STREET.—No one, in passing up this street, can fail to notice the very dirty condition it is in at the present time. For two or three years past, the traders on the street have kept it clear, at their own expense; but at the present time they are unable to find any one who has the time and is willing to take charge of it for the summer months.—Such being the case, it seems that the city should take charge of it, and not allow the dirt to accumulate, for it certainly is not a pleasant sight to a stranger, and not very agreeable to those doing business on the street. To have it removed once a week during the warm weather, would improve the looks of the street greatly, and no doubt the dirt could be used to good advantage on the city farm.

S. W. C.

CONCORD LEGISLATIVE DAILIES.—The Patriot, Independent Democrat, and Statesman, will all be issued Daily through the session of General Court. Price of either, 25 cents. J. P. Morse will receive subscriptions.

TREASURE FOUND.—On Tuesday, while the workmen of Dr. John Cummings of Richmond's island, Maine, were ploughing on the westerly side of the island, they turned up a pot containing seventeen gold coins of Charles II, time, several pieces of silver, and a gold ring. The coins bore upon one side the following inscriptions and device:—In the centre, head of Charles II, with XX.—Surrounded by the words, CAROLUS D. G. MAG. BR. FR. et HIB. REX.

"FLORENT CONCORDIA. REGNA."

The gold coin was as bright as though just from the mint. By whom it was deposited, remains a mystery. Richmond's Island was one of the earliest spots settled in Maine, and contained quite a population for its time.—Living as people were wont to do in the midst of alarms from Indians, this money might have been secreted from their eyes, or may have been part of the special deposit of some pirates, whose visits were not unfrequent in that region in the early history of Maine.

The coin shown us by Dr. Davies, from this exhumed store looked exceedingly tempting and we should not be surprised if Dr. Cummings has his premises pretty well dug in future for the same crop.—*Portland Adv.*

PROTECTING HOTEL KEEPERS.—Among the acts passed by the late Legislature of Pennsylvania, was one 'to protect the keepers of hotels, inns, and boarding houses,' which provides that they shall not be held responsible for the loss of any articles of value by their boarders or guests, unlesss they be deposited with them for safe keeping, nor for the robbery of their baggage if they leave their rooms unlocked. It gives also the right of lien upon the baggage for board due, and renders swindling boarders, who come with a mere empty show of baggage, for the purpose of deceiving, liable to be arrested, imprisoned, and fined to an amount not exceeding $100.

A very just and proper law.

WOOD BURNT.—On Monday afternoon a very large lot of hard wood on the Portsmouth Railroad, near Rowe's Corner, in Hooksett, was destroyed by fire. It was piled on both sides of the road, and portions of it falling in on the track, the road was obstructed so that the trains could not pass until very late in the night. It is stated that between two and three thousand cords were destroyed, about 1500 cords of which belonged to the Concord Railroad.—*N. H. Patriot.*

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years*,) been without the VEGETABLE PULMONARY BALSAM, having found it *superior to all other* preparations, for my constiution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."
[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

THIS popular and well-known establishment has recently undergone thorough alterations, to meet the present change now occurring in the hotel system. It was reopened on MONDAY, May 21, on the EUROPEAN and AMERICAN PLAN combined, with the same elegant Dining Rooms as heretofore: with Table d'Hote in Ladies' Ordinary, which will be thrown open to the public from Chambers street and Broadway entrances. It is expected the Hotel will meet with the usual favor from the public; also from families and permanent boarders—as every attention will be paid to guests at moderate charges. The Irving House has been newly furnished and painted throughout, with various improvements added.
The whole to be conducted by Mr. WILLIAM H. BURROUGHS, who is well known for his skill and gentlemanly deportment, which is of itself a guarantee for its future success. The rooms will be charged for separately and prices governed according to size and location. my24 1w

PHILADELPHIA, May 21st.—*The Kinney Case.*—The case of Col. Kinney came up before Judge Kane this morning. Mr. Dallas argued for a reduction of the bail, and a speedy trial. He read a number of affadavits, amongst them one from the owner of the steamship United States, testifying that no armament or powder has been placed on board, or intended to be, the expedition being one for colonization only. He states that the steamer has been ready for sea since the 7th inst., and the delay renders Col. Kinney liable for $1,200 per day. Mr Dallas submitted an account of hearing in New York, and closed by repeating his demand for an early trial. The case was then interrupted by the calling of juries for the regular term of the Court, but was resumed about 4 o'clock in the afternoon.

Mr. Vandyke the District Attorney stated his inability to bring up the case before two weeks on account of the absence of witnesses. Mr. Dallas said that would be fatal to the expedition so he might as well delay two months as two weeks. After some conversation the case was posponed to the next term, two months from hence, with the understanding that the sailing of the expedition need not be delayed. The defendant renewed his bail in the former amount.

The British ship Bruiser has been converted into a complete flour mill, capable of grinding from 700 to 800 bushels of wheat per day —taking the raw material in at one end of the vessel, in the form of wheat, and turning it out at the other in well manufactured flour, without the intervention of manual labor.—The machinery is both ingenious and compact, and in moderate weather may be worked without suspending the progress of the vessel, notwithstanding it is all driven by the marine engine.

The Abundance has been fitted up as a large bakery, and is capable of turning out 20,000 pounds of bread per day, with the aid of some very simple machinery. These vessels will be despatched to the Black Sea with all haste.

The State of New Hampshire.

To the Inhabitants of Ward No. Two in the City of Portsmouth, qualified to vote for Senators in said State.

{L.S.} YOU are hereby notified to meet at Jefferson Hall in said Ward, on SATURDAY, the 26th instant, at two and a half o'clock in the afternoon, for the following purposes:

To choose by ballot one person to represent said City in the General Court of said State the ensuing year, in room of Frederick W. Fernald, deceased.

To choose by ballot one Member of the Common Council, in room of Ransom B. Bishop, who has resigned.

Given under our hand and seals this eighth day of May, A.D. 1855.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Take this along with you.—'Tis just what you want.
The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and so cheap in quantity, quite the cheapest medicine.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

From "Notes and Queries."

SUBMERGED BELLS.— The allusion here made to the Cornish legend of the submerged bells of Bottreaux, reminds me of a very pretty legend of the Island of Jersey of the same kind. Many years ago the twelve parish churches in Jersey each possessed a beautiful and valuable peal of bells; but, during a long civil war, the States determined on selling these bells to defray the heavy expenses of their army. The bells were accordingly collected and sent to France, for that purpose; but, on the passage, the ship foundered, and everything was lost, to show the wrath of Heaven at the sacrilege. Since then, before a storm these bells always ring up from the deep; and to this day the fishermen of St. Ouen's Bay always go to the edge of the water before embarking, to listen if they can hear "the bells upon the wind;" and, if those warning notes are heard, nothing will induce them to leave the shore; if all is quiet, they fearlessly set sail. As a gentleman, who has verified the legend for me, says:—

"'Tis an omen of death to the mariner,
Who wearily fights with the sea,
For the foaming surge is his winding-sheet,
And his funeral knell our passing bell,
And his winding-sheet the sea."

PINS.—The Albany Journal says the largest pin manufactory in the United States, turns out but four million pins per day.—Consequently it has to run six days to make *one pin for each inhabitant!* If to what this establishment produces, we add all made by other factories and all imported, the daily product *is not half a pin to each person!* So that, if every one lost or destroyed *one pin a day* instead of *one pin every two days*, the whole world of pinned garments would fall to pieces! It also mentions as a singular fact that the Chinese have always refused to adopt the article. Various attempts have been made to overcome their prejudices, but without success. They adhere to the button and string—making the two supply the place of the more simple and ever-ready pin.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained or knotty* material, to these machines, as it is impossible for them to *tear or throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without secreting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

AN AMERICAN RAT DOG.—Last summer Bob L—, crossed the Atlantic to spend a little time and a good deal of money in looking at the women and wonders of the old world. Among the wonders which he took along, 'Just for the fun of the thing,' was a small sized snapping turtle. Having a week's leisure at London, Bob packed up his traps and went over to Ireland. The first night he spent on the sod was at a little roadside inn, about fifteen miles from Dublin. Having partaken of a supper of bacon and eggs, Bob walked into the bar, and placed the turtle on the floor. The first person to notice the 'critter' was Mr. Flynn, who kept the house.

'And what do you call that?'

'That is an American rat dog.'

'A what?'

'An American rat dog.'

'Mushu go long—and do you call such a spalpeen a dog?'

'I do, indeed; and he is worthy of his name.'

'Will he fight?'

'Yes, sir; not only fight, but whip any eight pound dog in Ireland.'

'Will you hold me ten shillings on that?'

'I will.'

'Enough said; Barney, get the brindle pup we bought of Sheridan yesterday, and let him out.'

Barney did as desired. The brindle pup purchased of Sheridan was brought in. The brindle pup took a look at his American relation, and then made a plunge. The turtle caught the brindle pup by the nose. The brindle pup gave one yell, and put for the door. When last seen he was rushing towards Dublin as if he had eight tin cullenders tied to his tail. Whether Flynn gave up the money, without getting a shillaleh to act as umpire, will be known when the next steamer arrives.

INCREASE OF SALMON.—Mr. Henry W. Herbert has published an article in the Newark Daily Advertiser upon the importance of restocking our rivers with salmon. He thinks that by the aid which State laws could afford by protecting the experiment, it would be entirely successful. The New Jersey Natural History Society have appointed a committee to inquire into the subject. As similar experiments have succeeded abroad, there seems to be no reason to doubt the feasibility of the scheme here. In the river Foyle, in Ireland, by a proper system of protection, the amount of salmon taken was raised from an average of 43 tons annually in 1823, to that of 300 tons in 1842. In the river Newport, also in Ireland, the annual take was increased from half a ton of fish to eight tons of salmon and three tons of white trout.

A WISE ANSWER.—'You must not play with that little girl, my dear,' said an injudicious parent.

'But, ma, I like her, she is a good little girl, and I'm sure she dresses as prettily as ever I do; and she has lots of toys.'

'I cannot help that, my dear,' responded the foolish anti-American, 'her father is a shoemaker.'

'But I don't play with her father, I play with her; she ain't a shoemaker.'

The Methodists contemplate establishing a seminary of learning in Washington city on the joint stock principle. It is desired that the capital stock shall be $30,000, in six hundred shares of $50 each, payable each share as follows: $6 on or before July next, and $4 on the first day of each and every month thereafter, until the whole shall be paid. Any person taking ten shares at one time shall be entitled to a perpetual scholarship, with the privilege of all the instruction given in the institution, except music, modern languages and the ornamental branches. He shall also be entitled to any dividend accruing on the stock held by him.

CHINESE IN NEW YORK.—The N. Y. Tribune mentions that within a few years past there has been a considerable flux of Chinese in New York, so that they number now from 1000 to 1500—only two of whom are females. Their social habits are not of the highest character, as they herd together in crowded apartments, and, with few exceptions, are engaged in menial pursuits.

OUTRAGE.—We understand that on Saturday last, while a Catholic Priest was on his way from Spring Hill to the Dog River Factory, he was forcibly taken by four ruffians into the woods, and most shamefully beaten. He is an entire stranger to the party, and can therefore form no idea of the cause that prompted to the outrage.—*Mobile Tribune.*

Morning Chronicle.

FRIDAY, MAY 25, 1855.

For the Chronicle.

INFLUENCE OF THE DRAMA.

Editors of the Chronicle :—I ask the use of your columns, in which to respond to the enquiries of "V" in your paper of the 23d inst. I have sincerely regretted the fact, that your correspondent, in his very commendable zeal for the moral well-being of this community, and the discouragement of vice among us, has seen fit to class among the abominations of dram-drinking, horse-racing and cock-fighting, that amusement or diversion which has received the countenance and support of wise and good men in all ages, and has been held in high esteem throughout the world, in every region blessed with piety and learning—and honored most in those countries where charity and civilization have most abounded: I allude to the dramatic representations.

I confess that my associations are of such a character, and my sources of information so limited, that I had not previously been made aware that among the usual sports of the young men of Portsmouth, might be classed the vices of horse-racing and cock-fighting. If such abominations really exist, I thank V for his timely warning, as indeed will every citizen who has the best good of the community at heart. But as an occasional attendant upon dramatic representations, I will not suffer myself to be reduced to a level with that class of persons who, setting at defiance the laws of God and man, violate the Sabbath, and outrage every sense of decency or propriety, by indulging in practices of cruelty and vice.

I have seen nothing to convince me that "the theatre which is now being countenanced in this place,"—entirely exempt as it is from the evils which have surrounded, and to some extent do at present surround, establishments of this kind in many of our large cities—is "a source of evil and only evil in the community." I do not believe that the fifteen or twenty individuals connected with the establishment, are supported either by those men who cannot pay their honest debts, or upon the pilferings of dishonest boys. I cannot believe that a well ordered Theatre, such as Mr. Plaisted is endeavoring to establish here, is "a nuisance," as your correspondent, in his zeal, has been pleased to term it; or that its toleration by the community is "a shame and a disgrace."

Every candid man is entitled to respect for an honest expression of opinion upon subjects of this character; and could it be made to appear that "nine out of ten of the best men who have lived within the last century," sustain your correspondent V's position, that "the theatre is one of the broad ways leading to destruction," the assertion would be worthy of especial notice. Such, however, I believe, is not the case. Men eminent for piety and literary attainments, occupying the highest places alike in the counsels of the nations and the hearts of the people, have during the last, as well as preceding centuries, given their voice and example in favor of well-ordered dramatic representations.

The most serious opposition which the stage has ever encountered, was at that period when the Roman Catholic priesthood, fearful of disseminating knowledge among the people, brought the fires of the holy inquisition to bear upon it,—entirely suppressing it for ages, all over the south of Europe: the rites of the church and even christian burial being denied to actors, by the Romish priests. In England, where the clouds of religious intolerance were first broken and dispersed by the Reformation, the stage has flourished, and exhibited a mass of excellence and a constellation of genius unparalleled in the annals of the world.

Then the stage has been encouraged and admired by men whose authority, as persons deeply versed in christian theology, and as learned as it is given human creatures to be, I do not scruple to prefer to that of the persons who raise their voice against the drama. Such a constellation of piety, genius, learning, as is embraced in the names of Warburton the eminent divine, Pope, Addison, Johnson, Mitford, Bailey, Home, Milton, Hannah Moore, and Walter Scott—all of whom wrote for the stage, and the last-mentioned of whom, in dying, had "no wish to blot one line he wrote while living,"—should lead V to consider if he may not be in error in his conclusions, or have allowed his prejudices to get the better of his judgment.

Dr. Johnson was a zealot in religion; his morality cannot be called in question. His ides of the stage may be inferred from his labors, his private friendships, and his constant attendance on the theatre. To him who would persist to think sinful, that which the scrupulous Johnson constantly *did*, we can only say, in the words of one of Shakspeare's clowns, "God comfort thy capacity."

There are other points in that article, to which I would gladly allude, did time and space permit. Yours, Q. E.

LOCAL.

SEE THAT YOUR NAME IS ON THE CHECK LIST.—The Selectmen of Ward No. 2 meet this afternoon at 5 o'clock, and to-morrow at 12 1-2 o'clock, for the purpose of revising the check list to be used at the election on Saturday afternoon. A copy is posted in the Brick Market for the inspection of the inhabitants.

It is reported that "Sam" has nominated Joseph B. Adams for Representative, and Hon. William Claggett for Common Councilman.

The Democrats have nominated William Pettigrew for Representative, and Andrew H. Jones as Common Councilman.

SALT COMING. — Our readers, especially those in the country, will see by an advertisement, that one of our merchants has two ships' cargoes of salt bound into this port, for sale—which people in the interior of New Hampshire can get to their homes for less money than it will cost to bring it from Boston. We used to supply the back country with salt—and can do so now over the new railroads, cheaper than it can be supplied elsewhere. And the same is true of other merchandise.

EGYPTIAN CORN.—It is stated that some years since, Mr. Gliddon on opening one of the mummies, which he brought to this country, found in its hand some kernels of corn, which were planted and from which were raised a new kind of corn, answering very much to the description of that referred to in Holy Writ. It is a curiosity in growing; instead of throwing off the leaf from the stalk, as our Indian Corn does, each leaf rises from the centre of the stalk, and instead of the spindle, it forms an upright head or cluster without any husk or covering, and as it increases in size and weight, it suddenly turns and forms the graceful bend and hangs its head. It is very prolific, from one to five stalks arising from one kernel of corn, and occasionally two and three heads on a stalk, the additional or side head, unfolding or bursting from the sides of the main stalk.—It has been stated in some papers that large quantities have been raised and highly praised as being preferable to Buck Wheat;—it has also been found excellent for feeding poultry. We have received from J. Hamilton Shapley Esq. of Exeter, a head of this corn, and he has also left some of it for gratuitous distribution at Mr. Shores' Bookstore, where those who are desirous of testing its quality can call and obtain some of it.

A specimen may be seen at the Chronicle Office.

MORE OF THE COWS.— *Messrs. Editors* :—C. R. is not aware of any desire for redress intimated in his remarks referred to by Stare Legibus, other than by a competent judge of law, by whom our city officers may be correctly instructed—which in the writer's opinion they very much need. S. L. is nearly as deficient in facts relative to this matter, as he is in knowledge of law. C. R. did not attempt to appoint a keeper at the time of impounding the fourteen cows; but received the key of Mr. Jenness, the former pound-keeper, and returned it to him. Mr. J. requested R. to leave it with Mr. Ham, who was chosen pound-keeper the present year; and he refused to accept. Of this fact Mr. Ham sent R. a note the same evening, which he handed in at the City rooms while the Officers were in session.

The legal or illegal measures taken by R. do not relieve the city of heavy charges both for neglect of duty and for the illegal manner of discharging the cows. The lowest fine for illegal discharge, is twenty dollars for each offence—so laid down in the statute. The lowest fine is one dollar, from that to four dollars each, besides the driver's fee to Rye and Greenland, as well as to the pound; as in all cases where the owners of the cows put in pound are not known, the man who impounds them is bound to cause notices to be put up in two adjoining towns, as has been done by R. in this case.

Provided it should turn out that the advice given to the officers of the city by Legibus should lead them astray, who will be liable?

One error should be rectified; the city clerk had only two cows, not three. C. R.

CIRCUS.—Ballard, Bailey & Co., as will be seen by their advertisement in another column, perform in this city on the 7th of June, with their excellent and noted French Circus. The old favorite Clown Sam Welser is along; also Lyming the aerial Gymnastic performer and clown; Madame Tourniare will ride her principal acts,—said to excel those of all female riders; added to all is Mons. Benoii, the great juggling rider, Masters Ferdinand and Theodore, the Olympian brothers; and others—all under the Equestrian Management of W. J. Smith, the grand six-horse rider.

FIVE CENT SAVINGS BANK.—*Messrs. Editors* :—It seems to me that our city would support a five cent savings bank, as well as our neighbor, Newburyport. I should think that such an institution, started by some of moneyed men, would be one of the best things Portsmouth has seen lately. PRUDENCE.

CITY COUNCIL.

THURSDAY, May 24.

ALDERMEN.—Petitions—of James Odiorn for sidewalk; of Woodbury Locke to use Pest Island as a pasture; to change name of Islington to Congress street; to open a water course in State street—all referred.

The resolution from Common Council, authorising the purchase of land for high school was referred.

The ordinance defining the duty of the City Solicitor was nonconcurred in and referred to joint committee on revision of ordinances.

The resolution from the Council respecting the sale of liquor, was adopted.

IN CONVENTION—chose Charles Robinson, Esq. Pound Keeper.

COMMON COUNCIL.—The committee on new High School House made a report and offered a resolution authorizing the purchase of the Wentworth estate, corner of Daniel and Chapel streets, and that the school house be built thereon. The price of the lot is $3500. The resolution was adopted.

The committee to whom was referred a petition asking for legislation to stop the sale of liquor, reported a resolution requesting the Mayor to instruct the City Marshal to enforce the existing state law. The resolution was adopted.

☞ We understand that Rev. Henry D. Moore, of the North Church in this city, has asked a dismission from his pastoral charge.

☞ Rev. Rufus W. Clark, of Boston, is expected to deliver a Lecture on Temperance, at the Temple in this city, on the second Sunday evening in June.

☞ Rev. Mr. Patterson of Girard, Penn. will preach in the Universalist Church next Sabbath.

CONSTITUTION OF MASSACHUSETTS.—On Wednesday, six amendments of the State Constitution were submitted to the people of Massachusetts. They seem to have been all adopted, although by widely varying majorities. The most popular was the fifth, prohibiting the application of school moneys to sectarian schools, and the least popular is the sixth, which proposes to allow the legislature to provide for the election by the people, of sheriff and some other officers. The other amendments provide for the establishment of the plurality principle in all elections, for a change in election day, and the election of nearly all State officers by the people, except judges.

The vote, throughout the State, was generally small; but in Charlestown, where local concerns made a full meeting, the proportionate majorities do not differ widely from the great body of the returns.

The whig, free soil and abolition K. N. papers of this state appear to be losing their zeal for the Maine law, and some of them begin to hint that our present law is good enough, if it is only enforced!—*N. H. Democrat.*

The people of the State, rather than the newspapers, have been calling for this law, three or four years,—and they would have had it long ago, only our Aristocratic Senate prevented its passage. No man whose judgment is worth a copper, doubts that a new and strict law will be passed this year.

It will probably be something like the Connecticut and Vermont laws, with such modifications as our State Constitution demands.

Rev. A. H. QUINT, of the Congregational (Orthodox) Church, at Jamaica Plain, Mass. supplied the pulpit of the Unitarian Church in Dover on the last Sabbath—Rev. Mr. Bond, who has just returned from a visit to the West, exchanging with him. Mr. Quint, as a pulpit orator and writer, has few equals of his age in New England.—*Dover Enq.*

From the above, and from other similar instances in this neighborhood, it is evident that the barriers of sect are less formidable than at some periods now happily past.

GODEY'S LADY'S BOOK for June, is on our table from Federhen & Co., Boston, via J. P. Morse. "Bridal Presents" and the "Care of the Eyes," and many other excellent articles, are found among the contents. The illustrations are numerous and good; the frontispiece is an engraving of the Reverie.

Rev. T. Turcott, Catholic priest at Troy, N. Y., has been arrested on a charge of defrauding his church of about $8000. He had sold the church ornaments and retained the money, besides appropriating the church funds; and not obtaining bail, lies in jail for trial.

IRVING HOUSE, NEW YORK.—It will be seen by an advertisement, that this old and popular hotel, is to be hereafter conducted on the European plan—each traveller or visiter paying for only what he has, instead of making a general average of the whole, and charging the gourmand or the fat and the decent man alike.

HISSED OFF THE STAGE.—Judge Shaw, of Boston, has decided that Mr. Hiss having been expelled by the House, which has the power so to do, was no longer a member, and of course was liable to go to jail for debt.

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have used, since the autumn of 1834, *sixteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."

[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

SEVEN DAYS LATER FROM CALIFORNIA.

NEW-YORK, 24th.

The steamship George Law arrived here at noon to-day, with California dates to the 1st of May, $1,324,025 in treasure, and 317 passengers.

The news was brought down on the Pacific by the steamer Golden Gate, which reports having seen the steamer Sonora going into San Francisco.

The steamer Golden Age, whose wreck was reported by the last arrival, had been got off and towed to Tabogs, where she was beached.

A returning Californian had been robbed of 180 ounces of gold dust at Hunter's Hotel, Aspinwall, notwithstanding that he deposited it in the safe of the hotel.

The United States Land Commission had rejected five claims held by Jose G. Lymanton under alleged Mexican titles, for more than one thousand square miles of land in the State, and it was supposed that under the decision in these cases the similar claim of Lymantour to 5000 acres in the city limits of San Francisco would be rejected.

J. A. Phillips has been hung by Lynch law, for killing R. J. McJames, on Indian Creek. George Harrington, formerly of Boston, was so badly hurt by the falling of a rock upon him in Sierra, that his life was despaired of.

The mines were turning out well, but coin continued very scarce. One of the local assay offices had issued a new fifty dollar ingot, resembling the $20 U. S. piece.

SANDWICH ISLANDS.—Sandwich Island dates are to the 10th of April. L. Swan, of the firm of Swan & Clifford, had been detected in circulating $44,000 worth of forged whalers bills. It was supposed his total operations would reach $100,000. Both partners had absconded before the developments.

MARKETS.—Trade had considerably improved in regard to the amount of goods sold, but prices continued very low. Large exports of Flour and Grain were being made for Australia, and the clipper Charmer was taking in a cargo of California Wheat, purchased at 75c per bushel, for New-York.

SEVEN DAYS LATER FROM EUROPE.

HALIFAX, 24th.

The royal mail steamship America, Capt. Leitch, from Liverpool on the afternoon of the 12th, arrived here this forenoon.

Before Sebastopol affairs were much in the same position as at the departure of the Baltic, although some trivial successes for the allies have been in the interim recorded.

The tone of public sentiment appeared to have resolved itself into the conviction that the war must be a protracted one, and without hope of assistance from Austria.

Several extensive failures in commercial circles in Liverpool were spoken of privately just prior to the sailing of the America, but no names had transpired.

In a commercial view, the news by this arrival, so far as regards cotton, is highly important.

The quotations generally show an advance of 1-4d over the prices current at the departure of the Baltic.

Breadstuffs—There had been no change except in corn, which was a trifle higher.

THE HIGH PRICE OF FOOD is a subject of discussion in every family in the city. It is working a baneful change—this will soon affect real estate. Over 1,000 families have emigrated from this city since the 1st of March, and among them are many persons of capital, and a great many first class mechanics who are going to set up their business in New Jersey, Connecticut, and other States, where food and rent are cheaper. Persons out of business have discovered that New York is not a profitable residence for them, and they too are emigrating, and this is the cause of there being so many first class three story houses at present to rent. Westchester and Staten Island are filled with New Yorkers, who have retired from principles of economy, and now spend their incomes out of New York, and at the same time increase the proportion of tax to those who remain.—*New York Mirror.*

THE WEATHER.—There was quite a severe snow storm at Wells River, Vt., Monday morning.

or $1.25 per month after the season commences.
25 lbs. per day 8.00
To those averaging 100 lbs. or more daily, 1 shilling per 100 lbs.
1 ton or more, $3 per ton.

IMPORTANT ANNOUNCEMENT.—To all persons afflicted with Sexual diseases, such as Seminal Weakness, Impotence, Gonnorhœa, Gleet, Syphilis, &c. The Howard Association of Philadelphia, in view of the awful destruction of human life and health, caused by Sexual diseases, and the deceptions which are practiced upon the unfortunate victims of such diseases by Quacks, have directed their Consulting Surgeon, as a charitable act worthy of their name, to give medical advice gratis, to all persons thus afflicted, (Male or Female) who apply by letter, with a description of their condition, (age, occupation, habits of life,) &c. and in cases of extreme poverty and suffering to furnish medicines free of charge.

The Howard Association is a benevolent Institution, established by special endowment, for the relief of the sick and distressed, afflicted with "Virulent and Epidemic Diseases," and its funds can be used for no other purpose. It has now a surplus of means, which the Directors have voted to advertise the above notice. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment. Valuable advice also given to sick and nervous females, afflicted with abdominal weakness, Womb Complaints, Costiveness, Leucorrhœa, &c.

Ballard, Bailey & Co.'s
FRENCH CIRCUS,

COMPRISING the very celebrated TOURNAIRE TROUPE, with all the distinguished artists who have appeared in this country during the last five years, and also those whose performances in Europe have secured to them a world-wide reputation, will exhibit in PORTSMOUTH, on THURSDAY, June 7.

TICKETS 25 CENTS.
Doors open at 2 P.M. and 7 P.M., to commence at 2½ and 7½ o'clock.

It is impossible to do more than simply mention a few of the names of the various artists connected with this magnificent CIRCUS.

There are no supernumeraries—all are brilliant stars—a host individually, and when combined, form a troupe never before equaled in the world. The Proprietors feel confident the Public will appreciate their success in uniting as a company so much acknowledged talent.

MADAME TOURNAIRE.—No lady in ancient or modern time, has ever equaled this accomplished Artist in the courage, beauty and finish of her exhibitions. Among other performances, she will ride six horses bare back, bounding from steed to steed, reigning and controling her flying troupe, during their utmost speed, exhibiting feats of courage and horsemanship, never attempted by any female in this country. The fixed eyes, anxious countenances and breathless suspense of the thousands of her audience in Paris, Rome, Vienna, London, New York, and the larger cities of the Union, wherein this magic Artist has performed—attest the high reputation of the greatest Lady Equestrian in the known world; she has never had her equal, nor will she until the Equestrian education of MLLE. JOSEPHINE, her favorite pupil, is completed, whose youthful grace and beauty, as well as talent, give strong promise of sharing the renown of her great preceptress; she will appear and confirm her growing reputation as a model rider.

MONS. BENOIH—The great Trick Rider, will appear in his Gymnastic and Equestrian performances, startling and amusing his audience with his feats of Horsemanship, and Light Balancing on Horseback, Cup, Ball, Plate Spinning, Stick Dancing, &c. This celebrated Artist, known to every child in the United States, as receiving the royal patronage of the Sovereigns of England, France, Russia and Austria, has been secured by B. B. & Co., to add, if possible, to the various other attractions presented.

FERDINAND AND THEODORE, in their astonishing and daring feats. Master Theodore is the greatest rider of his age in the world.

Mr. A. F. LYMING—The great Flying Cord performer will exhibit his skill in a variety of Æriel Gyrations on the corde volente.

Mr. SAM WELSER—The great Hippocondrical Describtor, will appear as Clown. This simple announcement is sufficient, for who has not heard of Sam, the original Clown in this country; and among other grotesque fantastics, will introduce his "Magic Hat."

The stupendous Persian feats called LA PERCHE, will be performed by W. J. Smith & Rogers. Battoute Leaps and Tumbling by the Company, with a general variety of Entertainments, the whole exhibiting one of the most amusing and instructive Entertainments ever witnessed in this country, my25 d5tw2t

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,

AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. J. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crossgrained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to please with the greatest *any quality* of clapboards, in a very superior manner, without *tearing the thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee, JAMES A. WOODBURY

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st. oppo. Kilby st. Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1836) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of usually, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. I have no hesitation in recommending persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) it experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

THE EXTRADITION.—The Atlas furnishes the following facts in addition to those which we have stated, in relation to the Extradition under the authority, and at the expense of the State, of a woman and child from Massachusetts:

We have undertaken to inquire into the facts. We can find no papers and no record. We learn, however, that this young woman landed a few months ago in New York. She was *not* a pauper abroad, and she never had been a pauper. She came here with an aunt who is now living in the State and is not a pauper. This girl, for she is quite young, had been deceived abroad, and she came here to conceal her shame. When near the time of her confinement, she was sent to the alms house; and when next we hear of her, she is torn from the only being who loves her, and is sent over the sea. Before she could make her wants known, before she could appeal to benevolent men or women for aid, before she could affect any arrangement for supporting herself by her own labor, she is driven by force out of this hospitable Commonwealth—to want, to loneliness, to irreclaimable infamy. And all this cost the State of Massachusetts just $12 passage money!

This appears to be really a hard case, caused by a hasty, indiscriminating and heartless execution of a law. The officer who did the business, the owners or agents of the ship, and the solid men of Boston who heard the cries but did not relieve the distress, may divide the blame as best they can.

THE INITIATION OF AN EX-PRESIDENT INTO THE ——.—'One of Sam's Boys' writes to the Buffalo Democracy newspaper, and his disclosures are to a certain extent thrilling. He states that in January last, Charles Macomber, Charles Gardner, and Gen. Scroggs, all brethren of the mystic tie, at the residence of Hon. Millard Fillmore, on Franklin street, in Buffalo, and in the liberty of the said Millard, did initiate, introduce and admit the said Millard into arts, mysteries and secrets of the Star Spangled Order, including the ineffable arcana of the Third Degree. The scene was a solemn one. When hands were joined, *a la 'ring, round rosy,'* Mr. Fillmore wept profusely. When he came to the response *'I do,'* he could not refrain from adding a phrase or two on his own hook, and he answered 'I do *most sincerely.'* The solemn performances being over, Mr. Charles Macomber affectionately placed his hand upon the shoulder of the Ex-President, and said, 'Mr. Fillmore, this will make you President in spite of Weed, Seward and Fusion.' 'I hope so most sincerely,' responded the President; *'for the sake of the Union.'*

TO SPORTSMEN.—A correspondent of the Scientific American communicates the following, which may be of value to sportsmen:

Wash your gun barrels in spirits of turpentine by dipping a rag or sponge fastened on your gun rod into the liquid, and swabbing them out three or four times, when they will be cleared from all impurities, and can be used almost instantly, as the turpentine will evaporate and leave the barrels dry; even if they are a little moist it will not prevent their going off, like water. After being washed thus, there is no danger of rust as when water is used. I am an old experienced gunner, and have practised this for years, and found it useful.

The editor of the Charlestown Advertiser, in some remarks on the Boston press, says that, 'since the Commonwealth was started, and up to the present date of the Telegraph, the paper has probably sunk $150,000; since the Chronicle was started it has sunk about $80,000, but as we have been informed, is now paying, and there is every prospect of prosperity.'

BARBARIC JEWELRY.—The N. Y. Evening Post mentions that the operatives at the Assay Office have lately melted up a curious deposit of some hundred gold nose and ear rings, such as are worn by the negroes of the African coast. These rings are made of four twisted strings of gold, wound round each other, like the strands of an ordinary cord. The perfect circle is broken so as to allow the ornament to clinch the ear or the cartilage of the nose, without perforating. They are generally of very rade manufacture, though of a fine quality of gold. The value of the deposit was about fourteen hundred dollars.

A GOOD 'UM.—The other day a merchant of this city was taking a stock of dry goods to Rockland by a steamer. Among his 'traps' was a 'false woman' (pardon us ladies) a *'modele de femme,'* which is a modern accompaniment of fashionable dry goods establishments. While taking his *modele* ashore from the boat at Rockland, a countryman passenger asked Mr. Yard Stick, who is a quick witted chap, 'what woman is that?'

'Mrs. Patterson,' instantly flashed out in reply, which perfectly convulsed the passengers and dock crowd with laughter.—*Bangor Jeffersonian.*

A pleasant anecdote is told of Dr. Franklin. The town of Franklin was named for him. While in France, a gentleman of Boston wrote to him of the fact, and added that as the town was building a meeting house, perhaps he would give them a bell. Franklin wrote the characteristic reply, that he presumed the good people of F. preferred sense to sound, and therefore he would give them a town library. This he did; and the library is now in very good condition, and has been of great service to the readers.

Morning Chronicle.

SATURDAY, MAY 26, 1855.

CHURCH PROPERTY.

The Portsmouth Chronicle will not be pleased with anything said or done by Archbishop Hughes. Will the editor read his masterly reply to Senator Brooks in to day's Pilot and give us his opinion of it?—*Boston Pilot.*

We have no pleasure in tyranny, spiritual or temporal, and of course cannot have much pleasure in the agents or instruments of a pontifical power which claims, against reason and common sense, to stand between men and God.

We have read the Archbishop's article, as desired—but as we have never read Senator Brooks', (but only brief extracts,) we do not know exactly how *apt* a reply it may be. It is at all events ably drawn up and easily understood.

We are informed in it that Mr. Brooks has made two errors; one in the amount of property held by the archbishop, which Mr. B. states at $5,000,000; and,the other as to the manner in which he holds it.

On both these subjects, we will now let the archbishop speak, as we copy from the Pilot. First, as to the manner of holding, he says:

It is proper to state, that whatever property may be found on the records of the Registry Books, in the city of New York, in my name, is, in *equity* and truth, though *not* in its *legal* form, the property of the several congregations to be enumerated hereafter; that the management of this property has been, by a rule of the diocese, dating as far back as 1843, in the hands of the respective pastors of each congregation, who are required to associate with them one or two respectable and competent laymen to assist them in the administration of the temporalities of their church—to keep regular accounts of its income, its expenditures, &c.—to make and publish from time to time, at least once a year, a report of the condition of the church, to be distributed among their pew holders, and a copy of the same to be forwarded to the archepiscopal residence, in order to have it inserted in a diocesan register kept for that purpose. The title of their church lots was vested *nominally* in the bishop.

Next, as to the amount, says the Bishop,—

The property, which is recorded in my name, is the aggregate of lots on which fifteen different Catholic congregations have their places of worship, the priests' residences, and in some instances their schools. The number of these lots is 77, giving a fraction over five lots each for the church edifices of these fifteen congregations. I am told by competent judges that if these lots were to be sold, the buildings on them, though exceedingly valuable to the Catholics as places for the purposes of Divine public worship, would not add to their value in the estimation of purchasers. I am further told by competent judges, that, scattered as they are at various points, from Barclay street to Manhattanville, they would not fetch more,one with the other, than $5000 each lot. This would produce, as the total value of property recorded in the Register's office, in the name of the archbishop—The sum of	$385,000
But in the same Registrar's office there are recorded as incumbrances on these 77 lots, mortgages to the amount, in the aggregate of	245,640
Reducing the net value of property recorded in the name of Archbishop Hughes, to the alarming sum, (not of "a little short of $5,000,000,") but of	$139,360

It is to be observed that before the archbishop realized even this sum, it would be necessary for him not only to become a dishonest man, but also to go through the process of turning fifteen Catholic congregations, with their respective priests, into the streets of the city.

By the Bishop's own showing, and that of his lawyers, he holds, *nominally and legally*, the title to lands in the city, worth on their own valuation, $385,000. On these lands, stand, he says, 15 Catholic churches, with their priests' houses and school houses. Call each church, &c. worth $1000, and we get the gross sum of $400,000.

There are mortgages, he tells us, no doubt truly, of $245,000. These of course, will be wired off in time by the contributions of the people.

But at the lowest, or at the highest estimate, the archbishop possesses the fee simple of an immense property, the absolute power over what thousands of his people hold most dear.

The State of New York deems it unwise and unjust, anti-republican, anti-American and unsafe, for one man thus to lord it over so many and so much. And they have passed a law intended to cut up such power.

Our opinion of the archbishop's statements, and of his conduct in this matter as it there appears, is, that he has acted in strict accordance with the usages of the Roman church, and with a view to her advantage as a hierarchy. We do not see that he has done any thing in the premises, which any Bishop of that church might not do.

But it is also our opinion, that the people, in that church and out of it, ought never to suffer such dangerous accumulation of power and property in priestly hands.

☞ The receipt of about $2000, is acknowledged by the committee on the erection of a Monument over the remains of Rev. Hosea Ballou, at Mount Auburn, through their secretary, Rev. A. A. Miner.

MR. SOULE.—The letter of the Hon. Horatio J. Perry, now Charge d'Affairs to Spain, which is addressed to President Pierce, justifies the comments made by many of the public journals in regard tu the nttor unfitness of Mr. Soule for the station he occupied as Minister to Spain. The New York Commercial Advertiser has a summary of the main points in Perry's communication. We copy the following condensed statements therefrom:

That Mr. Soule is more of a Frenchman than an American, and that the passions of a revolutionist warped his judgment, if not his feelings, in conducting the affairs of his adopted country.

That influenced also by a natural inquietude of spirit and a resentment against the Spanish nation, he desired to make war between Spain and the United States; and that this evil humor closed his perceptions to the very obvious facts that the true sentiment of the Spanish people for the United States is friendly, and that they desire to arrange all subjects of difficulty between the two Governments.

That the conference at Ostend would not have been ordered, had not Mr. Soule misinformed the Administration at Washington respecting the real sentiments of the Spanish Government and people respecting the sale or surrender of Cuba to the United States.

That Mr. Soule disregarded the instructions of Mr. Secretary Marcy when they interfered with his own turbulent purposes.

CONSUL HAWTHORNE.—The Boston correspondent of the N. Y. Evening Post accounts for the reported determination of Mr. Nathaniel Hawthorne to resign the consulship at Liverpool, by stating that it has cost him $8000 a year to maintain his place respectably—or $500 more than his income now amounts to. The writer says the sum mentioned will not be regarded as large by any who know the cost of living in England, and who is aware of the many ways in which the Liverpool consul is called upon to incur costs in aiding poor American seamen and other applicants for assistance of various kinds.—He states that Mr. Hawthorne will probably not return home until 1857, or even a year later.

Capt. Rynders has been holding forth in Tammany Hall upon the importance of the liquor dealers accepting the democratic nominations in full. And then, says the captain—

The only true platform having the Democratic principles in full, emanated from Tammany Hall. Just let the liquor dealers think what the effect would be if they made separate nominations. He contended for something else than rum: he fought for a principle.—When he fought for rum, rum generally got the better of him on such occasions. It was the principle he contended for.

PICKINGS.—In the legislature of Massachusetts, during the late session, says the Boston Advertiser, the House of Representatives, among its stationery, consumed no less than *seven hundred and sixteen* costly penknives, and the Senators consumed *eighty eight*. This is an absolutely unprecedented exhibition of sharpness.

FISHING.—Going down to the depot the other morning, we were joined by an honest, good-looking man with a fishing rod on his shoulder. Complimenting him on the prospect of a fine day and healthy exercise in catching trout, he informed us that he was a fisher of *men*, and not of the finny tribe—that the rod he used in hanging up charts where he addressed the people—that within three years he had expended $2500 in *bait*, a good investment he had no doubt, as he should obtain both principal and interest on Saturday. In a word, we had met a man we had heard of, but not seen,—Mr. Hook the indefatigable Advent Lecturer from Concord. He was on his way to Portland, where, on Sunday last, he firmly beleived he should witness the "final destruction of the world, and the salvation of the righteous." Mr. Hook was without doubt, sincere in his belief, but by the events of Saturday, he must have been taught that his judgment was fallible.—*Manchester Demo.*

CALIFORNIA SENATOR.—Dr. Gwinn will claim his seat at the commencement of the next Congress, as Senator from California.—In January last, in a convention of both branches of the Legislature of that State, he had a *plurality* of six votes over Mr. Edwards the next highest candidate. The State constitution declares that "a plurality of votes given at any election shall constitute a choice when not otherwise provided" in that instrument. No other provision is made respecting the choice of Senators.

We think Mr. Gwin is entitled to his seat.

In the United States Circuit Court, James Smith, who was recently convicted of slave piracy on board the bark Julia Moulton, but obtained a new trial, pleaded guilty of voluntary* service on board a slaver. He was remanded for sentence, and the District Attorney entered a "nolle prosequi" in the capital case.

*[*Query*—Involuntary?]

FROM EUROPE.—Dates from Sebastopol state that the allies were gaining ground, slowly, and had successfully repelled the Russian sorties.

All hope of peace was at an end, in England, and no assistance in the war was expected from Austria, and but little from the rest of Europe. Austria it is said will hold herself neutral, unless revolutionary elements are brought into action, in which event, the Holy Alliance would again be formed.

THE LIQUOR LAW, BOSTON.—We understand that complaints have been entered against the following persons for violation of the liquor law:—Paran Stevens, Revere House; Harvey D. Parker, Court Square; Moses Williams, South Market street; Samuel Q. Cochran, Congress St; —— Hotchkiss, Metropolitan Hotel, Washington St.

Judge Edmonds, of New York, thinks a State Legislature has a right to impose any restriction it pleases upon trade in any kind of liquors, home made or imported.

LOCAL.

For the Chronicle.

Messrs. Editors:—V. finds that he, like most other persons, is sometimes in an error. It is a happy thing, when we are disposed to correct errors that are made unintentionally, to be able to do so, and to give a satisfactory explanation. This I am very desirous of doing at the earliest opportunity. Respecting the horse-racing at the Plains: A young man in my neighborhood came to me on Saturday forenoon, and wished to hire my horse and carriage for a short ride out of town. I declined letting them, and on finding him very urgent, said to him that he could without doubt procure one at a livery stable. He then told me that he had been to them all, and that every horse and vehicle was engaged, previously to his call, to convey people to attend the horse race at the Plains, on that afternoon. On reading the article in your paper Thursday morning, I immediately sent for the young man, who admitted that he made the above statement to me, and explained the matter in this way: That he was told by a number of individuals, naming some of them, that there was to be a horse race at that time and place, and that when he called at one stable for a horse, he was told that theirs were all engaged, and also those of every other stable in the place. He now says that there will be a race to-day, Saturday, May 26. I hope that, as he was mistaken with regard to the first day named, for the credit of the city the latter statement will also prove untrue. When I wrote the article I had not a doubt of the race having occurred.

Now one word as to the moral or immoral tendency of the present theatre in Portsmouth. I have it from unquestionable authority that there has been more petty thieving by the boys in this place since the theatre was opened here, than for the whole twelve months previous. If any one doubts what I say, let him call upon me, and I will satisfy him on this point. There are other facts bearing upon this subject, sufficient to satisfy any candid mind that the effect of this theatre—like that of all others which we have had in Portsmouth—is evil, and only evil; and these facts may be obtained by any one who will take the trouble to make the inquiry from the proper source. Taking this view of the subject, I desire, as one who wishes the peace and welfare of this community, to enter my earnest protest against what I can but regard as a public nuisance. V.

☞ We have attended several of the Dramatic representations of Mr. Plaisted's Company, at the Cameneum during the past week, and were well entertained. The performances were highly creditable, and the conduct of the company and the audience unexceptionable. We have seldom seen closer attention given an entertainment, or more perfect order observed—not even the too common clatter of boot-heels was heard. †

☞ It will be seen that Mr. Josselyn, a young man who is acquiring a high reputation as an elocutionist, will read an excellent selection from Shakspeare and others, this evening, at the Cameneum.

☞ Town Meeting in Ward Two this afternoon at 3 o'clock, in Jefferson Hall. A Representative and a Common Councilman are to be chosen. See Warrant and Check-List notice on our third page.

☞ Rev. S. P. Fernald, of Northwood, will preach to-morrow at the F. W. Baptist Chapel, Hanover street.

☞ Pierce's Ethiopian Serenders who gave such a popular concert in this city a few weeks ago, will visit us again in a few days.

STEAMBOAT EXPLOSION.—We learn that the new steamer Red Hill was completely wrecked at Lee's Mills, Moultonboro, on lake Winnipisseogee, on Wednesday evening, by the explosion of her boiler. No lives were lost, but several persons were severely injured. A portion of the boiler, weighing 2000 or 3000 lbs. was thrown fifty or sixty rods.—*Boston Telegraph.*

The abolition of the Newspaper Stamp in England, has already begun to yield fruit. Cheap papers of all descriptions are projected. Charles Knight will publish a weekly paper, to be called Charles Knight's Town and Country Paper; and a flaming announcement is made of a new illustrated paper, to be called the Illustrated Times, employing first rate editorial and artistic talent, and containing sixteen pages as large as the Illustrated News, and all for two pence!

☞ The cases of three or four principal liquor dealers in Boston, were postponed from Friday till Tuesday.

☞ Despatches from Richmond and a dozen other parts in *Virginia*, make it appear probable that the K. Ns. have prevailed, and that Mr. Wise will not be governor this year.

Jacob Pearl, of Manchester, Mass., shot himself Wednesday morning, and the pistol ball passed through both his eyes. The wound is likely to prove mortal. He had been disappointed in love.

Broom corn is a native of India, and was introduced into this country by Dr. Benjamin Franklin, who found a seed in an imported whisk, and planted it; and from this small beginning arose this valuable product of industry.

THE OXYGENATED BITTERS—Sold by J. H. THACHER, Apothecary, corner of State and Pleasant sts. m18

"Sick was the Sun, the owl forsook his bower,
The moon-struck prophet felt the madning hour"
THEN was before AYER'S PILLS came along.
Now they are for sale by J. H. THACHER, Apothecary, corner of State and Pleasant sts.

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATHL. P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."
[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills. If taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m a2 d&w

MARRIED.

In Newburyport, Mr Henry Bartlett, to Miss Martha J. Stanwood of West Newbury.

DIED

In this city, 25th inst. Dr Josiah Dwight, aged 79 years and 9 months. Dr Dwight was for half a century a physician of extensive and successful practice in our city—highly respected and beloved by all enjoying his acquaintance. His cheering visits to the sick-room were sometimes as beneficial as medicine. For five years he has been confined with sickness. Funeral this afternoon at 5 o'clock, from St. John's Church.

MIDDLETOWN CONN., 21st.—Doctor Hamilton Brewer, the Secretary of the Air Line, Railroad, died very suddenly this afternoon. He was perfectly well last evening. An attack of billious colic was the cause of his death. He was a native of East Hartford, Con., and graduated at the Wesleyan University of Middleton. Had been a practising Physician until he was appointed Secretary of the Air Line Company. He was a kind man, universally respected, and beloved by all who knew him. His age was about 40 years.

PORTLAND, May 23.—The parties concerned in the contemplated prize fight in Canada, passed through this city today on their to Boston. The Canadian authorities interfered and prevented the fight. Our city Marshall was telegraphed to arrest Blackwood and Mackey, the principals, but on ascertaining there had been no break of the peace, allowed them to depart.

FATAL RESULT.—An intemperate man named Thomas Mitchell was carried to the Mass. General Hospital in Boston, on the 18th inst., with his leg broken. As often in such cases, *delirium tremens* set in a day or two after, from which the man died last night. Dr. Stedman deemed an inquest unnecessary. Deceased was a shoemaker in Chelsea, about 46 years old, and leaves a family.

Last Sunday, Dr. Lyman Beecher, who supplied the Old South church pulpit in Boston, laid his sermon in the Bible, and for a time could not find it. He looked on the floor, in the books, and over the pulpit, but it nowhere appeared; when a man in the gallery, seeing the difficulty, rose and told him where it was—much to the old gentleman's relief.

PORTLAND, May 24.—Yesterday afternoon, as William Berry, a stage driver between Portland and Conway, was driving in a wagon across Hiram bridge, the bridge being out of repair, the horse took fright, leaped over, and driver and horse were drowned.

FAST DAY IN MISSOURI.—Governor Price, of Missouri, has appointed Thursday, May 31st, as a day of fasting, humiliation and prayer. Among other evils which the Governor exhorts the people to pray that they may not be visited with, is civil strife.

A reduction of house rents is said to have taken place in New York city. The first of May was moving day, and in anticipation of it tenants made demands for reduction. Some of the property owners consented, and the remainder, it is said, will have to follow their example.

At a recent meeting of the Grand Division of the Sons of Temperance, in Salem, Roanoke county, Va., they paid $250 for all the liquor in Capt. Alexander Whaling's hotel, and then poured it on the ground.

Fort Scott, in Kansas Territory, with all the fixtures was sold lately for $5000. It cost the United States government, not long since, the handsome amount of $175,000.

FATAL ACCIDENT.—On Wednesday afternoon, Oscar M. Dunn, was instantly killed, at the corner of C. and First streets, South Boston, by the falling of a derrick upon him. He has left a wife and one child.

The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the cheapest medicine.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong. from Pa.

M'ALLISTER'S ALL HEALING OINTMENT—for sale by R. K. OXFORD.

CAPTURE OF THE CAPE COD WILD HORSE. About two years since, as our readers will doubtless recollect, a cargo of sixty wild horses from Sable Island, were landed at Provincetown. At that time one of them got away from his owner, and has since then been running loose over the sands of the Cape.—All efforts to secure him have been fruitless until about two weeks since, when as we learn from our Provincetown correspondent, he was secured by a stratagem, and is now in safe keeping. It required thirty men to take him. He is said to have lost none of his elegance of build or carriage during his travels.

A NOBLE ACT.—The late charge to the Hague, Hon. Geo. Folsom, went from Exeter, this State, to New York, a poor boy, where he studied law and rose to eminence and wealth. Recently he met with a poor American family in Jerusalem, who went out to join a colony to teach the natives of Palestine agriculture and the mechanic arts.—The enterprise proved a failure, and the family being reduced to poverty, Mr. Folsom gave them $250 to pay their passage to Boston.—*Independent Democrat.*

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.
PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear or throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to please with the greatest nicety any quality of clapboards, in a very superior manner, without *leaving the thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee, JAMES A. WOODBURY.

United States Bounty Land Agency.
Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank Forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

Patents.
AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted here, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all other papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of pushing their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) it experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

OLD BOOTS.—Many of our readers have undoubtedly been visited by the "old boot man," a genius who asks for old boots, and is willing to give a trifling sum for the cast off pedal protectors. The boots thus collected are carried mostly to New York, where in cellars and garrets they are overhauled by Germans, Norwegians and other foreigners. A boot that is not too far gone, is fitted up and finds its way to Chatham street and other localities, where cheap outfits are obtained.—Those which are past mending are ripped to pieces, and new bottoms applied to the legs. Large quantities of the legs are shipped to Europe, and distributed through the villages, where they are sold for fifty cents a pair.

The old boot enterprise has been carried to San Francisco, where a company of Norwegians are doing an extensive business in the trade. Three thousand dollars' worth of old boot-legs have been shipped from that port within the last six months! It is said to be a profitable business.—*Boston Journal.*

VALUABLE CIGAR.—Captain Batchelor, of the steamer America, which was destroyed by fire, when about leaving Pittsburg wanted a cigar, and stepped into a store to get one. There he met an insurance agent to whom he carelessly proposed insuring the cargo. It was done, and on that trip the America was burned. That cigar cost the insurance company about $28,000.

Rev. W. H. Hibben, Methodist minister at Rushville, Ind., being elected constable by the anti-temperance party, published a card in which he admitted the dignity of the office, but declined accepting it because he feared his official duties would oblige him to put his *supporters* in jail for violation of the liquor law. This was ingratitude of which he was incapable, and consequently he resigned.

Morning Chronicle.

MONDAY, MAY 28, 1855.

THE SECOND ADVENT.

We receive regularly, and read with mingled pain and pleasure, a paper called the World's Crisis, published in Lowell, and edited by Elder Jonas Merriam. We are pained at seeing such earnest endeavor to prove what is incapable of proof, and such a waste of energy to establish points of no vital importance; and we are pleased and edified by the excellent christian and benevolent spirit, which is exhibited by many of the writers, and especially by the editor, and which shows through their bad theology and erroneous interpretation, like a gleam of sunshine through a bank of fog.

In the Crisis, of May 26, Elder Merriam makes a sort of editorial confession, from which we take the following extracts.

Inasmuch as the specific points of time at which we have been expecting the Lord have passed, those who have not believed with us on points of time might expect that something editorial should be published as a confession of our failure and disappointment. Certainly as I hope to be saved when the Judge shall appear, I feel willing in all due humility and reverence before God and man, to retract every error and adjust every wrong. I indulge no pride of opinion nor exaltation of self that would prevent my acknowledging any deviation from rectitude or truth which I might unconsciously be led into.

I therefore confess that I believed the Lord would come in 1843, and also in 1844; but after the passing of those times, I believed the Virgins then went forth to meet the Bridegroom according to the Parable.

I also believed the Lord would come in 1854, and that the proclamation of this subject was the fulfilment of the Midnight Cry which I afterward concluded might extend to the 19th of May, '55, as the utmost limit. In this last expectation, too, I have been disappointed. Let all the world know, if they will, that I have had my eye on the kingdom of heaven, endeavoring to purify myself as Christ is pure, in order to gain admittance there, and desiring that all men should be warned of impending danger that they might flee to the ark of safety, and find refuge in Christ by laying hold on the hope set before them in the Gospel. I have been anxious, too, to feed and nurture and comfort the little flock of Christ by the words of Jesus: "Behold, I come quickly; and my reward is with me to give every man according as his work shall be." * * * * * *

But however much I may have advocated the Advent doctrine, I have nothing to reproach myself with in reference to censuring or denouncing others who were of a different faith. I have regarded all men as rational, intelligent, and consequently accountable beings—responsible to God alone for their faith. I have not felt that men were machines, to be forced by external pressure to believe or act in a particular manner, but to be drawn by the attractions of truth and love.

I am not conscious that a word of severe reprehension has escaped my lips or flowed from my pen. A spirit of contention and strife, of alienation and disaffection, that would prevent our treating those who may differ from us with Christian kindness and cordiality, I have ever regarded as contrary to the Spirit of Jesus, and therefore have been resolved to carry no contraband goods, such as can never enter the Kingdom. It has also been my object to keep out of the paper every opprobrious epithet, every expression of unkindness and reprobation, in respect to others, from the fact that they differ from us in sentiment. * * * * *

I confess my judgment is fallible, and that I have erred on the time of our Lord's appearing. At present I stand waiting for further developments.

The spirit of this is excellent; and we take pleasure in repeating that such has been the spirit pervading the editorials of the paper. But it strikes us on reading the above extracts, that the men who strive to purify themselves as the editor describes, and who are tolerably successful, need have no anxieties whatever, about the times and seasons of entering the Kingdom. Not only are they near the Kingdom, but in it;—and the Kingdom itself (to use a New Testament phrase) is also in them. It is that kingdom which does not consist of meat and drink, nor houses and lands, "but righteousness, peace, and joy in the Holy Ghost."

He who rejoices in this possession, need not trouble himself about the duration of dynasties, ages, or systems, but fastening his hold on Divine Truth and Goodness, may

"Let earth roll, nor feel her idle whirl."

SARGENT'S STANDARD THIRD READER, is a new reading book, containing about 30 pages of Instructions and Exercises, and One Hundred and Forty Four short and well selected Lessons in Reading.

The author or compiler is Epes Sargent, Esq., former editor of the Boston Transcript; who is well qualified for such a work as this, and has done it faithfully.

The work is worthy of attention and examination by committees and teachers who need a new third reader.

The publishers are Messrs. Phillips, Sampson & Co., Boston. It is also for sale by Federhen & Co., Boston, and by Mr. J. P. Hayes in this city.

☞ We are glad to learn that Rev. John G. Adams, of Worcester, Mass. is preparing a Memoir of Rev. John Moore, late of Concord, deceased.

SPIRITUAL MANIFESTATIONS.—The Boston Chronicle of May 25th, states that on the previous day, in the morning, the Association of Superintendents of Insane Asylums, visited the room of Dr. Warren, to see a mastodon; and also visited the Atheneum. They held a morning session in the Common Council chamber, and at 12 o'clock visited the institutions at South Boston. In the evening, in company with the Mayor and Aldermen of Boston, the Association visited the Boston Theatre.

The next day, at a meeting of the Association, Dr. Luther V. Bell, of the McLean Asylum in Somerville, read an elaborate paper on Spiritual Manifestations and their influences. After stating various experiences, he summed up his present conviction as follows:

1. That there is abundant evidence that a novel influence or power exists, through certain persons, known as *mediums*, by which extraordinary results follow.

2. That objects of considerable weight are moved without human contact, though at considerable distance—in the experience of the narrator up to fifty feet, at least.

3. Questions put *mentally* are answered correctly, involving too many circumstances to be explained on the idea of coincidence, provided the true response is in the mind of the questioner or some one at the circle.

4. In no instance, in his experience, were correct replies given where the response was unknown to some one present.

5. Replies supposed by the interrogator to be correct, are given, as he believes them, true, even when afterwards they are proved to be erroneous. He gets the responses as he supposes them to *be*—not as they *are*.

6. There is no evidence of any *spirit* existence in these extraordinary phenomena, nor have they any connection with a future state of being, so far as his observations warrant an opinion.

7. The explanation must be admitted to be beyond our knowledge; yet certain analogies existing between states of dreaming, certain changes in manner, &c., would seem to point to the *duality* of the brain as connected with some of these phenomena.

8. The subject is worthy the rigid investigation of all those whose duties are connected with our speciality. Whether regarded as a physical novelty or a widespread epidemic of the mind, the subject is of immense importance, and deserves a much more respectful treatment than it has generally met with.

APPRENTICES.—The Washington Union, speaking of the naval apprenticeship system, says—"*Naval apprentices are not in the line of promotion. They may, by good conduct, be advanced to the grade of a petty officer, but beyond that they cannot advance.*" That is most shameful; and for the honor of the country we regret that it was ever published. An American can serve an apprenticeship; he may defend his flag as a seaman, with the greatest bravery and and heroism, till grey old age; he may be of good character, a hundred times better than is known on the quarter deck; he may have all knowledge requisite—such talents as in civil life would place him, as they did Clay, in the Senate chamber—that would make him President, as they did Jackson; but he can't be advanced beyond a petty officer. Beardless midshipmen shall command him—miserable, shiftless, lifeless "accidents of fortune" shall rule him; but from the beginning to the end of life no avenue shall open to his advancement. Oh! shame for a republican people! Oh! shame on the Congress that could pass such an act! Oh, shame on the man that would approve of it! And this is a system for raising the standard of seamanship! Who of us hereafter will talk of the aristocracy that are born to govern. Who will ever ridicule the sale of commissions under the British Government? If there is any thing truly American—any thing of which we could boast—it is that ability and merit should be rewarded—that in all office there should be no rewards that the humblest might not hope to reach—no station from which poverty should be excluded—and no honors that should not excite the ambition of each and all; and the day will come—it will come before another presidential term expires, when the navy shall be no exception to those republican sentiments.—*Newburyport Herald.*

☞ Near Anson, Me, on the evening of May 22, Alexander Fassett was passing over Madison Bridge, with a wagon and four horses, when the bridge broke through, and the pole-horses, loaded wagon, and driver, fell sixty feet to the water, of a rapid river, and were all destroyed. Fassett leaves a wife and three children.

NASHVILLE, May 25.—The Rev. Dr. Lindsay, delegate to the Presbyterian Assembly, from New York, died suddenly this afternoon, from apoplexy.

A solemn dispensation—but we trust nobody will construe it into a *warning* to clergyman to keep away from the General Assembly.

☞ A line of steamers between Portland and New York will commence running in June next. Two propellers of 500 tons each, have been provided for the route.

An experienced woman asserts, that when men break their hearts, it is all the same as when a lobster breaks one of his claws—another sprouting immediately, and growing in its place.

That depends entirely on what kind of men they are.

Late intelligence from Salt Lake renders it probable that the Mormons connived at, if they did not actually aid and abet in, the massacre of Captain Gunnison and party by the Indians. The New York Herald says the Government has arrived at this conclusion from a review of the facts connected with the trial of the murderers, and has determined, it is said, to prostrate the power of Brigham Young, and bring matters to an issue.

LOCAL.

ELECTION IN WARD 2.

The election in Ward No. 2, for Representative to the General Court, and Common Councilman, took place on Saturday afternoon.

But little interest was manifested in the election, but a desire appeared on the part of the straight-out whigs to prevent the return to the Legislature of a K. N. of former democratic preferences, in a ward which has always had a decided whig majolty.

The following was the result of the

FIRST BALLOT.

For Representative to General Court.

Joseph B. Adams, K. N. had	75

TELEGRAPHIC.—At last this city is again in connection with all outside barbarians, by means of the Magnetic Telegraph. The circuit is now complete, and messages have been sent to Boston and to Portland from the office in this city. The line is now open to transmit messages, and it is hoped by the proprietors that it will receive the patronage of our merchants and others, who cannot but appreciate its convenience and utility. The office in this city is near the Eastern Railroad Depot, and will be under the charge of Miss Ellen Laughton, who is pronounced to be a skilful operator.

☞ The horse race about which so much has been said, and which was to have taken place at Greenland Parade, on Saturday, did not come off as was anticipated. A very large number of people were drawn together to see the sport; but owing to some misunderstanding, the parties having the horses refused to try their speed. A few of the spectators, determined not to go away without amusement of some kind, got up a couple of foot races.

By this humbug affair, the stable keepers let their horses, and the hotel keepers sold their liquors. T.

☞ The Dramatic Company established at the Cameneum, have all volunteered to give Mr. Plaisted, the proprietor, a complimentary benefit this evening. The bill of performances is a strong one—and the object equally merits a bill of receipts to match it.

☞ A public-spirited correspondent wishes to have a Floral Procession here on the Fourth of July; and thinks it is time our citizens interested in the matter, were making the necessary arrangements—instead of leaving all the work to be done in a hurry at the last minute. He concludes: "Our floral processions have not been excelled—let us have one this year that will surpass all others."

CHICAGO, May 25.—Eye witnesses of the late fearful whirlwind, now in the city, report still more loss of life and destruction of property, and state the families who suffered by it, were in a fearful state of destitution and misery.

CLEVELAND, May 25.—The murderer Parks, under sentence to be hung on the first of June, made an unsuccessful attempt to escape from jail last night. He was armed with revolvers, and declared he would have shot the turnkey, if he had got out.

The specified appropriations for the support of Government the past year amount to $71,574,347. John Quincy Adams was beaten in his last Presidential contest, because, under his first term the annual expenditures reached the enormous sum of $12,000,000 a year.

The Tribune has had two of its late numbers confiscated by the French Government—they happened to have four articles not complimentary to the Emperor.

As a preventative of hydrophobia, one of the New York papers proposes that the dogs be fed on city milk. It would no doubt save a great many children.

By an act of the Mass. Legislature, the lists of jurors must be revised once a year, and posted up in public places ten days before they are submitted to the voters for acceptance.

In the town of Topsfield, Mass., but nine votes were cast on the constitutional amendments, and they were all against every amendment.

Rev. Dr. Pennington, of New York, was ejected from a railroad car in New York, last week, on account of his dark complexion.

NEW YORK, May 26th.—Despatches from Washington state that the general opinion seems to be that Wise is elected Governor of Virginia by from 5,000 to 10,000 majority, though how this is figured up in the face of despatches received in this city it is difficult to see, as large gains for the K. Ns. as compared with the last Presidential vote, are almost invariably shown.

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have seen, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."
[See advertisement in another column.]

ARE YOU SICK?
Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills. If taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

LIBERATING SLAVES.

From the Cincinnati, Ohio, Columbian.

MANUMISSION.—On the 23d of February, 1854, a fine-looking, corpulent gentleman, apparently about 60 years of age, came to this city in search of Dr. Brisbane, from whom he wished advice as to the proper course to pursue to effectuate the manumission of a number of his slaves. Not readily finding Dr. Brisbane, he obtained the advice of John Jolliffe, Esq., and had duplicate wills drawn up. One of these he took with him, and the other he deposited with Mr. Joliffe, to be used if he should die suddenly, and the will in his possession be accidentally or purposely destroyed. He stated that one of his brothers had died very suddenly, and that he himself, being subject to palpitation of the heart, was liable to be also summoned to another world at a moment's notice.

Elijah Willis—that was his name—stayed only a few days in Cincinnati, but his bright, benevolent countenance and manly frankness were not soon forgotten by those whom circumstances had thrown into contact with him.

Returning home, he drew up a complete inventory of all his property, and making two of his neighbors his confidants, he deposited this inventory with them, to be used in case of his sudden death, at the same time making them pledge themselves not to make it public previously.

He was largely engaged in the lumber business, and raised no crops except what were necessary for the support of the twenty-nine full grown slaves, and the numerous slave children that he owned. The lumber got out by his slaves was rafted down the Edisto river. In this business Mr. Willis had amassed a large estate. He was noted for the kindness with which he treated his slaves, who were never driven with the whip, nor shut out by a lock from the stores of provisions. They ate in the kitchen, part of the same food that Mr. Willis ate in the parlor.

A number of the relatives of Dr. Willis, in comfortable circumstances, lived near him, but seldom visited his residence. His housekeeper was a dark, but very shrewd mulatto woman, whom he purchased with her mother, brother and sister, about thirteen years ago. This housekeeper's name was Mary Amy Elmore Turner. Her father, who was owned by another master, had deserted her mother, and for this was sold to a cotton planter in Alabama.

Amy, as the housekeeper was ordinarily called by Mr. Willis, while the slave of a former master, a Mr. Kirtland, had a colored husband by whom she had three children before he was sent South.

This woman, by her faithfulness and shrewdness, soon acquired great influence over Mr. Willis, by whom she had three children. She watchfully superintended his domestic affairs, attended to the wants of the slaves, and advised as to the business.

Mr. Willis, feeling concerned for the future welfare of his children, and urged thereto by Amy, at last determined to free her, her mother, her six children, her brother and sister. When he came to Cincinnati, one year ago, and had his will written, it was to carry out this intent.

After his return home he arranged all his business as rapidly as possible, and taking notes for outstanding debts due him, made preparations for disposing of his entire estate and moving to Ohio, where he proposed to locate on a farm, with Amy, her mother and the children. Finding that the expense of bringing Amy's brother and sister and their families would be inconsiderable, and that there might be some difficulty in at once securing a home, Mr. Willis concluded finally to come north with Amy, her mother and the children, and having secured for them a residence, return to close up the business and bring the others.

On last Tuesday week, they left home as proposed. On reaching Louisville, they got on board the steamer Jacob Strader, and reached here at six o'clock yesterday morning. Soon after the boat touched the wharf, Mr. Willis and his company went on shore, and he called a carriage, when, just as he went to reach one of the small children into it, he breathed heavily. Amy asked him if he had another attack of palpitation of the heart. He nodded affirmatively, gave two or three heavy breathings, and then fell dead.

Just at this moment some one asked where they came from; Amy's mother did not answer, and was threatened with being kicked into the river. Some one urged Amy to go on board the boat again, and she refused.—By the advice of a friend she at once secured the money (about $530) in Mr. W.'s possession, notes and due-bills amounting to three or four thousand dollars, a gold watch and other valuables. She was taken with the trunks and the body of Mr. Willis to the Dumas House.

Dr. Menzies being called in, held an inquest, when a verdict was returned in accordance with these facts.

Mr. Ball, of the legal firm of Chase & Ball, being called in, the will of Mr. Willis found on him was opened and read, when it was found that he had willed his entire estate to Amy and her children, and had appointed John Joliffe, A. H. Ernest and E. Harwood as executors. This will is a duplicate of that left in the care of Mr. Joliffe, which has not yet been opened. If the property is obtained, each of these colored children will have a fortune of twenty-five or thirty thousand dollars. The body of Mr. Willis will be buried to-day. The executors of the will are all residents of this city.—*Cincinnati Columbian.*

Take this along with you.—"Tis just what you want.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS,

AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foot, Member of Congr. from Vt.
Hon. H. D. Foster, Member of Congr. from Pa.
Rev. Thomas Kidder, Chaplain Vt. State Prison.
Rev. Chas. W. Dennison, Boston, Mass.
Rev. John Mathers, Jacksonville, Illinois.
Rev. J. Perry, D. D., Windsor, Vt.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *ship work*, or for planing very *thin, cross-grained or knotty* material, to these machines, as it is impossible for them to *tear or throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, from any quality of clap board, in a very superior manner, without *tearing the thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,

Ballard, Bailey & Co.'s
FRENCH CIRCUS,

COMPRISING the very celebrated TOURNAIRE TROUPE, with all the distinguished artists who have appeared in this country during the last five years, and also those whose performances in Europe have secured to them a world-wide reputation, will exhibit in PORTSMOUTH, on THURSDAY, June 7.

TICKETS 25 CENTS.

Doors open at 2 P.M. and 7 P.M., to commence at 2½ and 7½ o'clock.

It is impossible to do more than simply mention a few of the names of the various artists connected with this magnificent CIRCUS.

There are no supernumeraries—all are brilliant stars—a host individually, and when combined, form a troupe never before equaled in the world. The Proprietors feel confident the Public will appreciate their success in uniting as a company so much acknowledged talent

MADAME TOURNAIRE.—No lady in ancient or modern time, has ever equaled this accomplished Artist in the course, beauty and finish of her exhibitions. Among other performances, she will ride six horses bare back bounding from steed to steed, reigning and controling her flying troupe, during their utmost speed, exhibiting feats of courage and horsemanship, never attempted by any female in this country. The fixed eyes, anxious countenances and breathless suspense of the thousands of her audience in Paris, Rome, Vienna, London, New York, and the larger cities of the Union, wherein this magic Artist has performed—attest the high reputation of the greatest Lady Equestrian in the known world; she has never had her equal, nor will she until the Equestrian education of MLLE. JOSEPHINE, her favorite pupil, is completed, whose youthful grace and beauty, as well as talent, give strong promise of sharing the renown of her great preceptress; she will appear and confirm her growing reputation as a model rider.

MONS. BENOIT—The great Trick Rider, will appear in his Gymnastic and Equestrian performances, startling and amusing his audience with his feats of Horsemanship, and Light Balancing on Horseback, Cup, Ball, Plate Spinning, Stick Dancing, &c. This celebrated Artist has visited every child in the United States, as receiving the royal patronage of the Sovereigns of England, France, Russia and Austria, has been secured by B. B. & Co., to add, if possible, to the various other attractions presented.

FERDINAND and THEODORE, in their astonishing and daring feats. Master Theodore is the greatest rider of his age in the world.

MC. A. LAMPTON—The great Flying Cord performer will exhibit his skill in a variety of Aerial Gyrations on the corde volente.

Mr. SAM WELSER—The great Hippocondrical Describator, will appear as Clown. This simple announcement is sufficient, for who has not heard of Sam, the original Clown, in this country; and among other grotesque fantastics, will introduce his "Magic Hat."

The stupendous Persian feats called LA PERCHE, will be performed by W. J. Sneed & Rogers.

Ballonte Leaps and Tumbling by the Company, with a general variety of Entertainments, the whole exhibiting one of the most amusing and instructive Entertainments ever witnessed in this country. my25 6tw2t

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

A SINGULAR CASE.—One day last week, the Justice of the Police Court in Newburyport committed one Wm. B. Fairfield to jail, in default of bail, to take his trial on the charge of adultery. It appears that the fellow has a wife in town, but for the last ten months, under the name of Wm. Bowers, he has been courting a young girl, with his family during the time living only two streets distant from her, and the two females often attending the same church. He had engaged to marry the girl, and once set the day of marriage, as long ago as last February, but put it off on some pretext; and had now again, as the case become more urgent, named another day. He visited the expected fair one daily, and went among her friends, no one suspecting his true condition, till two boys were heard to dispute whether his name was Bowers or Fairfield—one asserting that it was Bowers and he was courting such a girl, and the other that it was Fairfield and he lived with his wife, at such a number on the same street, which induced the mother of the girl to call one evening, where his family was said to be living, and where she actually found him quietly retired for the night with his wife, who by the way is deserving of a better husband. He will probably find quarters for the present and some time to come, where he can be seen through grates.—*Newburyport Herald.*

OPERATION OF THE LIQUOR LAW.—In the Municipal Court in Boston, Friday afternoon, Richard Rhea was convicted as a common seller of liquors, notwithstanding the jury judged of the law as well as the facts.

It is said that the liquor dealers of Boston have determined not to sell a drop of the article to the State Agent.

In a number of towns in this part of the State no agent for the sale of liquor has been appointed by the Selectmen, and no ardent spirits can be obtained either for medical or mechanical purposes.

Col. Z. B. Porter, of Porter's Hotel, Cambridge, has closed for the present.

The keeper of a hotel in Brighton, has been appointed liquor agent for tee town, and has given the requisite bonds.—*Transcript.*

DISPLAYING COLORS AT SEA.—If the statement of the mate of the schooner "Bay City," can be relied on, it shows that the masters of some of our merchant vessels are often intentionally wrong when they refuse or delay to show their colors to a ship of war, and that they endeavor to provoke the "outrages" which they afterwards complain of, as a matter of speculation. In this case the captain of the British cruiser acted with commendable prudence, and the facts stated by the mate of the "Bay City" should be cited as a caution to our government not to act too hastily in similar cases in regard to the Spanish cruisers.

Capt. Wardle, of the "Bay City," endeavored to provoke the British vessel to fire into his schooner, according to his mate's testimony, that he might make money by the transaction, and many of the "outrages" which have been made so much of, on the coast of Cuba, doubtless had a similar origin and object.—*Boston Courier.*

SEVEN FOOLS.—The Envious Man—who sends away his mutton, because the person next to him is eating venison.

The Jealous Man—who spreads his bed with stinging nettles, and then sleeps in it.

The Proud Man—who gets wet through sooner than ride in the carriage of an inferior.

The Litigious Man—who goes to law in the hope of ruining his opponent, and gets ruined himself.

The Extravagant Man—who buys a herring and takes a cab to carry it home.

The Angry Man—who learns the ophicleide because he is annoyed by the playing of his neighbor's piano.

The Ostentatious Man—who illumines the outside of his house most brilliantly, and sits inside in the dark.—*Punch.*

SECRET COUNCILS.—Archbishop Kenrick, says the New York Crusader, has convoked in his palace at Baltimore, a secret council of the Bishops of his province, where business of high importance will be transacted, by the help of a dozen of pro consuls of his holiness in the United States. As long as the high representatives of the Pope in America hold secret meetings, no politician or editor has a word in condemnation; but when Americans unite in private councils, loud are the imprecations against them, and they are called night assassins, murderers, traitors, Christless, Godless, and ruffians! We hope that the Catholic press will have no more abuses for the Know Nothings, as we believe they have the same right as foreign Bishops, to meet secretly on any part of their native soil.—*Newburyport Union.*

The Lynn Bay State in an article on the shoe business, says, the manufacturers in that city have sold all out, and could have sold many more shoes for the Spring trade, had it been possible for them to have completed the orders in season. Our manufacturers are all full of orders, and full of work to complete them. The wages of jours are up and coming up. No one who can make a decent shoe is out of employment; all are busy, all doing well, with a fine prospect ahead.—*Amesbury Villager.*

MONEY MAKING.—Four or five of our heaviest sugar merchants have made about $100,000 each, on the recent 'rise in sugar.' One house has on hand six thousand hogsheads, the increase on the value of each of which, during the last two months, while it has been reposing in the warehouses, has been $20, making a clean profit of $120,000.—*Cincinnati Commercial.*

TUESDAY, MAY 29, 1855.

DISMISSION.

Rev. J. L. Hatch, of Gloucester, Mass., was dismissed from the pastorship of the Evangelical Congregational Church in that place, on Tuesday, May 22, by a council called from fifteen churches.

The reason assigned by the acting Committee of the Church for Mr. H.'s dismission, were thus expressed in writing to him:

The disaffection of the Church and Society with you;

The immoral and unchristian character of your sermons on amusements, as preached and published by you;

Your disbelief of some of our articles of faith.

The Evangelical church consisted largely of females; 120 to 20 males.

It was pretty satisfactorily established that a majority of the female church members sustained the pastor. But there was a majority of males against him, and they disregarded the female vote.

It was conceded by the friends of the pastor that if his opponents seceded from the society, the preaching of the gospel could not be sustained there as at present, but that if the friends seceded, the opponents might still carry on the society.

His Sermons on Amusements were read condemned. His doctrinal offence was chiefly that he was not sufficiently calvinistic in his views of the doctrine of election, to suit the views of a very calvinistic deacon.

The pastor offered to defend his sentiments, to introduce witnesses showing that he held them at the time of his settlement, and that it was understood by the church that christian liberty allowed the holding of such opinions. Opportunity to discuss the matter was however refused by the council, and no defence was admitted, upon the ground that the council had convened not to argue, but to declare the orthodox belief.

Upon motion, the council voted to "be by themselves," and the audience withdrew. After a discussion of nearly three hours, the doors were opened, and the following result of council read by the moderator:

A recommendation that the pastoral connection of the Rev. J. L. Hatch with the Evangelical Congregational Church be dissolved, nor could the council recommend him as a pastor over any other Evangelical Church.

That the sermons read before the council were unscriptural, immoral, and derogatory to the character of Christ, and that the dissensions and divisions in the church were mainly chargeable to this cause.

The Gloucester Telegraph says:

The departure of Rev. Mr. Hatch would be generally regretted in the community. He has not suffered the belief of the theologian to restrict the sympathies of the man. We hope the Society may be fortunate enough to secure a successor as practical an exponent of the virtue of benevolence, as mindful of the duties of the citizen, as good an exemplar of the courtesies and amenities of life.

QUAKERS.—The Quakers, or Friends, are gradually but certainly dwindling as a denomination. In Philadelphia, we well remember, in our boyhood, being struck with the number of them to be met in our daily walks, and so distinguishable by their plain dress. Now they are but occasionally seen, and their youth seem to be deserting them in a body. In the morals and decorum of the Friends there is much to admire, but it would seem there is nothing so peculiar in their system as is likely to perpetuate them as a distinct body of christians.—*Presbyterian.*

No doubt this is mainly true: the Quakers have no music, they have no showy temples, they do not seek to make proselytes. All these peculiarities operate against their increase as a sect; but their other characteristics of freedom from church debt, care for their own poor, and quiet trust in the truth and goodness of the Deity, are admirable.

The rise or fall of a sect, however, is a matter of no great consequence, compared with the prevalence of a doctrine, or the general performance of one item of moral obligation. Quaker Morals now find their homes beneath coats of other colors beside the drab, and quaker thoughts move through uncovered heads, and speak through lips that rarely utter thee and thou.

If the Quakers have performed their providential mission, let them give way to not less worthy successors.

CHRIST CHURCH, BOSTON.—A struggle commenced on Saturday afternoon May 26, between Rev. Mr. Smithett the Rector, and Mr. Swanton the Sexton, of Christ Church. Both sides were reinforced, and the quarrel lasted through the night, and was only quieted at 6 o'clock on Sunday morning. Locks, bars and bolts were demolished during the night, so that the doors were all open for worshippers.

The ritual was read and meetings held without disturbance, on the Sabbath.

TREMONT TEMPLE TO BE SOLD.—The Trustees of Tremont Temple, Boston, have advertised it for sale at public auction, on the 19th day of June.

For the Chronicle.

PERSONAL LIABILITY.

Messrs. Editors:—The spirit of the age seems to be looking into abuses. As the Legislature of New Hampshire is about meeting, and as I suppose that the first business and duty is to protect the rights of the citizens in all their just interests, I would *specially* ask their attention to the subject of Individual Liability in corporations.

A law similar to the one now existing in this State was passed in Massachusetts many years ago, but remained only for a short period, for some of the very men who voted for the Law, after a few years, seeing its sad and fatal results, voted for its repeal. The operation of the law injures a numerous class of the most useful and valuable citizens of this city and State. It is a law that sanctions bold robbery, when its provisions are fully carried out; nay, worse, it *lays its claws* on real and personal property, nor does it stop here; but it holds the future earnings of its victim.

To illustrate the law and its effects, let us say,—A railroad may cross a farmer's lands; he being willing to aid the enterprise, takes stock in the place of money for his land; and by doing this liberal act, he makes himself liable to be ruined for life by the loss of his whole farm. I take it, had it not been for this Act, our railroads would have been long since completed, and the stock of real value to those who built the roads.

In my opinion, Portsmouth would before this time have been connected with the city of Manchester by railroad, had it not been for this *old party "hobby Law."* It has been a great injury to the State. It has done no good, and promises none, and I trust this law will immediately receive the attention of the Legislature. D.

The Attorney General of the United States decided that a treaty constitutionally concluded and ratified, abrogates any state law, or Federal law, whether written or unwritten, which may conflict with it.—*Newburyport Herald.*

If this be correctly reported, then our Attorney General has brought out a piece of bad law: for he maintains that the President and Senate, may destroy and *undo* the work, which was made and *done* by President, Senate and House. Thus a solemn Act of Congress, passed by *both* Houses and signed by the President, can be abrogated or overidden, by *one* House, in collusion with the President and some foreign power! For example, Congress might lay a duty of $5 a gallon on foreign brandy, and this would be a Federal law. But a few hours afterwards, when that Congress has died, and the *new* Senate is in session, the President brings out a treaty between himself and Napoleon, whereby French brandies come in free of duty. The Senate ratifies the treaty,—and this (says the Attorney General) repeals the Tariff passed by both Houses! Does it?

The following is from the Washington Union:—

"Blackwell, who choked the lady in the cars, and robbed her of a servant girl, has been married to Lucy Stone. Justice is sometimes slow, but always sure."

This was intended for a joke, and is not bad at that, but it really embodies a great truth. Blackwell, who restored the servant girl to her own rights, is rewarded by a wife who knows how to preserve hers without injuring his.

The accounts of large supplies of Wheat and Flour in the interior, which have been published, must have been, as we supposed at the time, erroneous, the work of speculators for a fall. Notwithstanding the high prices and open water communication with the grain growing West, the receipts at tide water are thus far this spring less than one-third what they were last year, and the high rates are not only sustained, but actually advanced, although the consumtion has lessened. Breadstuffs are so scarce in Montreal that Canadian wheat and flour, which had arrived at Oswego on the way to New York, have been ordered back.—*Newburyport Herald.*

The Cayuga Sachem, Canada West, says the wheat crop throughout the province looks exceedingly well. The fall wheat is entirely free from winter killing, and as there is no further danger of injury from frost, the prospects of an abundant harvest are encouraging. The quantity of land under wheat is far greater than in any former year.

LYFORD'S MAJORITY.—The Patriot states that "the votes for Railroad Commissioner, as returned to the Governor and Council, were as follows:—Francis H. Lyford, Hindoo, 34,330; Mark Noble, Democrat, 27,125; scattering, 2,525. Lyford's majority, 4680.

A man can afford to be called "Hindoo," if he gets such a majority as that.—*Manchester Mirror.*

The number of petitions presented to Parliament in the present session against the sale of intoxicating liquors on Sunday, is 213, signed by 50,248 persons; and 81 petitions have been presented for the repeal of the sale of beer act of last year, signed by 154,716 persons.

Hiss.

One after one the honored Bay-Leaves fade,
And ancient glories wither in the shade,
The Solons of the state, at duty's call,
Have *hissed a loving* member from the Hall.
Take courage, Joseph, in thy great ado,
The World has hissed the Legislature too.

[*Journal of Commerce.*

LOCAL.

POLICE COURT—MONDAY, May 28.

Before Justice Parker—Fred'k. W. Rogers complainant.—John H. Wells was charged with selling one pint of Holland gin to Michael O'Keefe;—but O'Keefe, who was the only witness, and evidently not a willing one, failed to identify Mr. Wells as the seller, or his store as the place where he bought his liquor. He did not even feel positive that the article was gin, though he asked for gin and paid for it, and though it made him drunk.

The justice as a matter of course discharged the accused, as no case was made out.

SALT WATER BATHS.

We learn that the Piscataqua Floating Bath at Noble's Island has been put in good order for the reception of bathers. The satisfaction it has given to those who have enjoyed its privileges the past two years, has been more than equal to the price of subscription.

It is certainly a great advantage to be able to bathe in the pure water of our river, at any and all times of tide. At the close of a hot summer's day, a plunge in the cooling element is more healthful, invigorating, and productive of a better night's rest, than an ice cream or a mint julep. Those who have tried them all, have invariably given their testimony to the superiority of the exterior application of salt water above the interior application of ices or juleps.

We regret with many of the ladies that no provision has yet been made for their enjoyment of the element which looks so inviting, and it is devoutly to be hoped that they will soon assert their rights in this particular, and in their own way procure the establishment of a salt water bath in which they may learn the delightful art of swimming, which in these days of universal travel, is often a very necessary and useful accomplishment, as it often happens in cases of extremity that gentlemen have as much as they can do to keep their own heads above water.

☞ Another attempt to elect a Representative to the General Court, in Ward 2 will be made this forenoon at 11 o'clock.

CIRCUS, MENAGERIE AND TOM THUMB These combined attractions are to be exhibited in this city on the 29th of June. The Menagerie of S. B. Howe, and the Circus company of S. P. Stickney, are said to be the largest and most berfect establishments in this section of the country. Added to which are the exibition and performances of the original and most diminutive of Dwarfs, Major General Tom Thumb, of Barnum celebrity. Among the conspicuous features in the circus are, Signor Felix Carlo, the Italian trick clown; and his son, the extraordinary equilibrist and pantomimist; Miss Sally Stickney, the southern equestrienne, a young lady highly celebrated for her chaste and daring feats on horseback; Bobby Williams, the musical clown, so called; Mr. Armstrong, and other artists well-known for their equestrian skill, are also with this troupe. A Menagerie, containing a beautiful collection of wild beasts, with performances in the cages of lions and tigers, by Mr. Parker, are likewise included in these interesting exhibitions. The companies will enter the city in a grand procession, about 10 A. M. We are requested to state that one ticket entitles the purchaser to see the entire combined exhibitions. Two entertainments will be given afternoon and evening.

ENLARGEMENT.—The Congregational Society in North Hampton, enjoying the ministrations of Rev Dr. French and Rev. Mr. Dinsmoor, have just closed their house of worship, for the purpose of enlargement. It is to be lengthened, so as to admit 16 new pews, which are deemed necessary to accomodate the increased congregation.

OLD IRONSIDES OFF CUBA.—The N. O. Delta publishes a letter written on board the U. S. ship Constitution, and dated South side of Cuba, May 8th, the material portion of which is as follows:

"On the 23d ultimo, we were within 100 hours sail of our port of destination, Portsmouth, N. H., (after serving more than a two years' cruise on the coast of Africa,) when we boarded an American, four days from the Delaware. She informed us that the United States Government were sending as many of our ships-of-war to Cuba as could be manned, and the papers received from our countrymen induced the Commodore, (Mayo,) to give the order to put the helm up, and make all sail for Cuba; saying our presence was required there, remarking at the same time that he called no council of war; he asked no opinion or advice of any officer; that he alone was responsible for his movements. And here we are within four days' sail of Havana, where Com. Mayo will offer the services of 'Old Ironsides' to Com. McCauley.

"We know it was trying to Commodore Mayo to disappoint the officers and men of the Constitution from meeting their wives and families, but he said our duty to our country is our first consideration. Our Commodore is a prudent officer, but woe to the Spanish cruiser who offers any indignities to our flag in his presence.

"If our presence is not required at Havana, we may speedily be expected at home."

Letters of similar import have been received in this city, by friends of the officers of the Constitution.

The Constitution left Havana on the 21st of May, for this port.

"JONATHANS."—It is rumored that the order of "Jonathans," an offspring of Hindooism, designed to catch and keep within the ranks, the ultra abolitionists, will soon be established in this city. "Sam" will still flourish as a National institution, and Jonathan will become a secret auxiliary. It is merely a new dodge to keep up the excitement.—*Gazette.*

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATH'L P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior* to *all other* preparations, for my constitution, in attacks of sore throat, consumption, colds, and severe coughs, to which I have been subject from youth."

[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

REMARKABLE WHIRLWIND. — *Chicago, May* 23.—Accounts reached this city last night of a most terrific hurricane and whirlwind in the town of Jefferson, Cook Co., and other places north and west of there. On Tuesday afternoon a revolving funnel-shaped cloud passed swiftly along near the ground, about 16 miles north of here. It described a small circle towards the Southeast, twisting off large trees, and whirling them out of sight instanter. The whirlwind then broke in two and disappeared, but almost instantly formed again, and passed direct north and west with redoubled violence. It struck a heavy frame house, one mile from the Illinois and Wisconsin Railroad, tearing the roof instantly off, and almost immediately afterward taking the whole house instantly up the spout with all its contents. Nine persons in the house were drawn up and hurled down in different places; four of them were instantly killed, and others mutilated beyond any prospect of recovery. The whirlwind then passed over a post and rail fence, leaving not the slightest vestige of it; next took up a barn and threw it upon the horses and cattle it contained, crushing them at once. The timbers of the house and barn were hurled down to the ground with such violence as to bury them almost out of sight. The house belonged to Mr. Page, whose wife, son and two grandchildren were killed.

WASHINGTON, May 26.—Mr. Wise has just closed a short address to about 5000 people in front of Brown's Hotel. He spoke from the upper balcony. The Pennsylvania Avenue for some distance was a dense mass of human beings. A portion of the crowd on the outside, said to have been Know Nothings, attempted to drown his voice by a constant succession of yells and groans. His speech, as far as he was permitted to speak, was *a la* John Randolph in severity. He closed by saying his lungs were too weak to contend with "a mob of the dark lantern oligarchy." A splendid band of music was in attendance.

WASHINGTON, May 27, M.—We have returns from 75 counties in Virginia, which give Mr. Wise about 6000 majority, and show a gain for the American party as compared with the last Governor's election of 1600. There are 62 counties yet to be heard from, which gave at the last Governor's election a trifle over 400 majority for the democratic candidate. The Americans here concede that Wise is elected by about 5000 majority. They also concede the election of nearly or quite all the democratic candidates for Congress, &c.

WASHINGTON, May 28th.—The returns of official and reported majorities in 107 counties foot up as follows: Wise, 19,032; Flournoy, 11,646; majority for Wise, 7386. There are yet 36 counties to be heard from, which gave Pierce 1150 majority.

BUFFALO, 26th.—Last night about 12 o'clock, two robberies of a bold description were committed at Fort Erie, Canada, and the residents of the place being aroused, pursued one of the robbers hotly to the river, when he seized a small boat, and made over to Squaw Island. Several men followed him in boats, and when they landed, the robber named Townsend, (leader of a desperate gang,) snapped a pistol twice at his pursuer, John Magood, but fortunately without effect. Magood, who was armed with a rifle, then shot Townsend through the heart, killing him instantly.

OPERATIONS.—The Monday morning's levee in the Boston Police Court was fully attended, and Judge Russell turned off cases with his usual despatch. Some thirty of the prisoners brought up were arrested for drunkenness, and on being called to answer, about one-third of the number made disclosures as to where they obtained their liquor, and were discharged after the officers had entered complaints against the sellers. Prosecutions under the law seem to be already more numerous than were generally anticipated in this city.—*Transcript.*

Irving House, New York.
THIS popular and well-known establishment has recently undergone thorough alterations, to meet the present change now occurring in the hotel system. It was reopened on MONDAY, May 21, on the EUROPEAN and AMERICAN PLAN combined, with the same elegant Dining Rooms as heretofore; with Table d'Hote in Ladies' Ordinary, which will be thrown open to the public from Chambers street and Broadway entrances. It is expected the hotel will meet with the usual favor from the public; also from families and permanent boarders—as every attention will be paid to guests at moderate charges. The Irving House has been well furnished and painted throughout, with various improvements added.
The whole to be conducted by Mr. WILLIAM H. BURROUGHS, who is well known for his skill and gentlemanly deportment, which is of itself a guarantee for its future success. The rooms will be charged for separately and prices governed according to size and location. my24lw

Take this along with you.—'Tis just what you want.
The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,
AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. E. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong. from Pa.

A NEW COUNTY.—The formation of a new county, to be composed of towns in the Western part of Rockingham, and eastern part of Hillsborough, is again under discussion—ripening for legislative action. There seems to be a demand in that section for some change in county relations.—*Great Falls Jour.*

FIRE.—On Friday morning of last week, the dwelling house of Edmund Brown, on Berwick side of the river, was nearly consumed by fire. Loss $700 or upwards, and no insurance. The liberality of the citizens has relieved Mr. Brown, in some measure, of his misfortune. This is the first fire of any consequence, that has occurred in the village since July, 1853.—*Gt. Falls Jour.*

Two men were arrested in Hartford on Thursday, charged with passing counterfeit money at one of the hotels and at the depot. On searching them there were found a lot of counterfeit bills on the Greenwich Bank of New York, a set of burglars' tools, a loaded pistol, &c. They were placed in the jail.

PROFITABLE LECTURING.—Hon. Charles Sumner receives $100 for each delivery of his anti-slavery lecture.

Patents.
AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby our agency is prepared and conducted by him. ONE THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, specifications, Assignments and papers, models and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.
Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar.*—Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents.
"During the time I occupied the office of Commissioner of Patents, Mr. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
"PATENT OFFICE, ———.
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent in my very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Ballard, Bailey & Co.'s
FRENCH CIRCUS,
COMPRISING the very celebrated TOURNIAIRE TROUPE, with all the distinguished artists who have appeared in this country during the last five years, and also those whose performances in Europe have secured to them a world-wide reputation, will exhibit in PORTSMOUTH, on THURSDAY, June 7.

TICKETS 25 CENTS.
Doors open at 2 P.M. and 7 P.M., to commence at 2½ and 7½ o'clock.
It is impossible to do more than simply mention a few of the names of the various artists connected with this magnificent CIRCUS.
There are no supernumeraries—all are brilliant stars—is best individually, and when combined, form a troupe never before equaled in the world. The Proprietors feel confident the Public will appreciate their success in uniting as a company so much acknowledged talent.
MADAME TOURNIAIRE.—No lady in ancient or modern time, has ever equaled this accomplished Artist in the courage, beauty and finish of her exhibitions. Among other performances, she will ride six horses bare back bounding from steed to steed, reigning and controling her flying troupe, during their utmost speed, exhibiting feats of courage and horsemanship, never attempted by any female in this country. The fixed eyes, anxious countenances and breathless suspense of the thousands of her audience in Paris, Rome, Vienna, London, New York, and the larger cities of the Union, where this magic Artist has performed—attest the high reputation of the greatest Lady Equestrian in the known world; she has never had her equal, nor will she until the Equestrian education of MLLE. JOSEPHINE, her favorite pupil, is completed, when youthful grace and beauty, as well as talent, give strong promise of sharing the renown of her great preceptress; she will appear and confirm her growing reputation as a model rider.
MONS. BENOIT—The great Trick Rider, will appear in his Gymnastic and Equestrian performances, startling and amusing his audience with his feats of Horsemanship, and Light Balancing on Horseback, Cup, Ball, Plate Spinning, Stick Dancing, &c. This celebrated Artist, known to every child in the United States, as receiving the royal patronage of the Sovereigns of England, France, Russia and Austria, has been secured by B. B. & Co., to add, if possible, to the various other attractions presented.
FERDINAND and THEODORE, in their astonishing and daring feats. Master Theodore is the greatest rider of his age in the world.
Mr. A. E. LYMING—The great Flying Cord performer will exhibit his skill in a variety of Aerial Gyrations on the corde volente.
Mr. SAM WELSER—The great Hippocondrical Describtor, will appear as Clown. This simple announcement is sufficient, for who has not heard of Sam, the original Clown of this country; and among other grotesque fantastics, will introduce his "Magic Hat."
The stupendous Persian feats called LA PERCHE, will be performed by W. J. Smith & Rogers.
Battoute Leaps and Tumbling by the Company, with a general variety of Entertainments, the whole exhibiting one of the most amusing and instructive Entertainments ever witnessed in this country. my26 d3tw2t

FOSTER'S PATENT
Deck-Reefing Gear.
By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.
The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—
"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found. 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

Morning Chronicle.

NATIVE AFRICANS.—The vessels from this port which trade to the coast of Africa frequently bring home among their crews several natives, who are found very faithful on board ship. They are often seen strutting about our streets with all their dignity, staring open eyed and open mouthed at the gay shop windows, and jabbering their vernacular with a monchalance which together puts to shame the Yankee lingo. They are your real Congoes—pure, unadulterated Guinea negroes, black as darkness itself, and independent as a whole pistoon of the Fourth of July boys.—They invariably purchase a trunk full of Yankee knick knacks to take back to their burning sands to delight the eyes of the sable damsels at home.

A few days ago some half dozen of these representitives of the legitimate African stock were about to sail in the barq John Swasey.—Of course they came up town to make their purchases, and marched back in procession, each with his well loaded russet trunk poised upon his head, and had and speaking trumpet in hand, cutting a curious figure as they stalked through the streets. Umbrellas, canes, shaving boxes, flaming kerchiefs, huge dickies, looking glasses, bats of unique varieties, trinkets, *pictures of tailors' fashons,* &c., composed their stock, and one genius had provided a thick, heavy coat to shield him from the blazing sun of Africa! The delight they manifested when, arrayed in their finery, they examined their appearance in the looking glasses, which they drew forth on the wharf, was quite amusing to witness. They had managed to acquire a considerable knowledge of English, and a reply of one of them to a question displayed a shrewdness worth mentioning. A spectator happening, among other queries, to ask how they liked America, Congo immediately answered—"Ah, me not like "Merican land—cold morning—cold night—*make nose leak like a basket!*" The crowd shouted, and Congo, showing his ivory, tumbled into the ship's boat to be conveyed to the vessel's side, "*Home again,*" being expressed on every ebony feature, polished by joy and nature's precious ointment in its utmost capacity.—*Salem Register.*

THIEVES APPREHENDED.—On Tuesday, in the Boston Police Court, Richard Gorman and Horace Safford, two young men, were arraigned on suspicion of being the parties who broke into the beer establishment of Fairbanks & Beard, in Howard street, a short time since, and stole from the safe about $900 in money, and papers of the value of about $5000 more. None of the missing property was found, and it is supposed they burned the papers, and after purchasing suits of clothes with a portion of the money, staked about $700 on the foot-race at Cambridge the other day, and lost it all. They denied all knowledge of the affair, and the evidence against them is entirely circumstantial. They were held in $6000 each for trial.

The price of wheat in England during the first quarter of the present year, has been more than 50 per cent. higher than it was in the quarter of 1853 that ended on the 31st of March, but 9s. 7d. per quarter lower than it was in the beginning of 1854. Beef is 25 per cent. dearer than it was in 1853, and 7 per cent. dearer than it was in 1854. Mutton has been cheaper than it was in 1853, and so have been potatoes.

MUSIC EN ROUTE.—It is now becoming quite common for juvenile itinerant musicians to take places in omnibusses, and enliven the dull trip by spirited airs, at charity prices. We were feasted on an accordeon and a triangle, a day or two since, while on an excursion into the country as far as Roxbury.—*Boston Chronicle.*

We learn from the Lynn *Reporter,* that the members of the two branches of the Mass. Legislature have, in the most delicate manner possible, made up and presented to the family of the late James Lyon, Esq., a purse of four hundred and fifty dollars.

LOVE AND SUICIDE.—At Lowell on Thursday morning about 4 o'clock, Mr. John B. Kilgore, a fireman in the employ of the Suffolk Manufacturing Company, put an end to his life by shooting himself through the head with a revolver. The deed was committed in his sleeping room over the counting room.—Coroner E. L. Shed summoned a Jury of inquest, before whom it appeared in testimony that a young woman with whom he had kept company, for some months, and to whom he had made some presents, had recently requested him to discontinue his visits, and urged him to take back his presents; that he visited her last evening, when the request was repeated, and that he left her about 9 o'clock in a depressed state of mind. This was evidently the cause of his committing the rash act.—He was a young man of steady habits, about 23 years old, and came from Fryeburg, Me.

ONE OF 'EM.—The other day a gentleman gave a couple of cents to a woman who asked charity of him. "Two cents!" she exclaimed. "Take 'em back, sir. I asked for charity. I can't do anything with two cents."—"My dear madam," said the gentleman, "I beg you'll keep the cents, and—give them to some poor person.

It turns out that, in addition to the skeleton of St. Felix the Martyr, sent to the queen of Spain by the Pope, and to that of the same saint which previously existed in a church in Andalusia, there is also one in the Hermitage of the Virgin near Manzanares.

Morning Chronicle.

WEDNESDAY, MAY 30, 1855.

THE NORTH AND SOUTH.

The N. Y. Express is generally regarded in this State as inclined to favor the South.—It is now an advocate of the American Party, and represents perhaps pretty correctly and sentiments of that party in New York. In an article a few days ago, on the Slavery excitement, it said:

It is evident from the signs before us, that the Slavery excitement is to run higher than in 1820, or 1850. The unfortunate re-opening in 1854 of the "settlements" of 1850, has unsettled everything.

It has ever been evident,—but now more confident than ever—that the North and the South cannot agree upon the subject of "Slavery," and "Slave institutions." The disagreement since the commencement of the Abolition excitement has become greater than ever. Until 1840, southern men excused and palliated the institution of slavery,—but they now defend it, not only under the Constitution, but from the Old Testament and the New,—and by the laws of climate and political economy. Hence, it has become more impossible than ever to reconcile the disagreement. The North is more against Slavery than ever, and the South is stronger for it.

Here is pregnant admission. It is a fact that the North and South cannot agree on the question of Slavery. It is useless attempting to make them agree,—and the party which attempts to build itself up by producing an agreement between the North and South, must fall. The American Party of the North should understand this, and the sooner they understand it the better.

But the Express proceeds to say:

Amid the conflicts of opinion, we see no safety but in "toleration"—as we tolerate differences in religion, or differences in other matters of taste, or passion. The South can never expect to win over the North, to think as it thinks; and the North now can never expect to win over the South. To found a party *pro* and *con* is impossible. Sectional parties may be formed,—a Northern party, or a Southern party,—but they will not be a party, but two parties. They may carry their own ends to the Union, but when they meet together, to act, they can do nothing, and will end where they began.

Many men in the north are now engaged in a crusade against the South, and many men in the South against the North. What can it amount to? They will meet in Congress, with their representatives, there, but what can they do? Abolish Slavery? Nobody expects it! Establish Slavery? It is not possible, it the North itself does not establish it.

If the express means, by "toleration," that we at the North shall acquiesce in what we cannot help, (the existence of slavery in many States) and leave Slavery where the Constitution leaves it, all well. But if it means by "toleration," that the North is to yield, for instance, in the case of Kansas, it is a great mistake.

But the Express continues:

What then,—we are asked Southward perhaps,—is the South to do? *Rely upon itself*, —we answer,—without any reference to allies —for it can have no allies upon this peculiar institution. As from 1847 to 1850,—the whole Northern Democratic party went for the Wilmot Proviso, even in such States as Michigan, New Hampshire, and Illinois—so now the whole Democratic Party must, if it exists, go against the repeal of the Missouri Compromise of 1820. Hence, then on the institution of Slavery, the South, under the protection of the Federal Constitution, which is its only protection for Slavery, short of civil war,—the South must rely upon itself, and only upon itself, the Constitution, and the laws.

That is it, exactly. Let the South take care of itself, and let the North take care of itself. There are always some people in the North, who are unhappy because their particular party does not square with the wing of their particular party in Tennessee or Alabama on the Slavery question. All we have to do is to let those States, take care of themselves. Let the North be true to itself on this great question,—and it can be so within the limits of the Constitution.—*Manchester American.*

BY PLAY.—The by-play is often quite as interesting as anything set down in the bills. At the annual meeting of the American Peace Society, in Boston this week,

In the report was a passage extolling the virtues and talents of the late Rev. Dr. Thomas A. Merrill, a Vice President of the Society. He was compared in intellect to his classmate, Daniel Webster. Mr. Webster was also referred to, and among other praises was that of "a defender of the Constitution."

Lewis Tappan arose, and objected to having that portion referring to Webster included in the report, giving as a reason, that he voted for the Fugitive Slave Bill, and was not therefore a defender of the Constitution.

Rev. Mr. Angier replied with much earnestness and warmth, and hurled back the charge that Mr. Webster had not at all times defended the Constitution. "Had it not been for Daniel Webster," said the speaker with telling emphasis, "the country would have gone to the devil long ago."

Mr. Angier is doubtless an admirer of Mr. Webster,—but that great orator, were he alive, would not much admire Rev. Mr. Angier's taste in the selection of language.

Six sisters were recently married, in the same evening, at their house in Somerset Co., Pennsylvania.

COMPLAINTS.—The Boston Courier thus finds fault with the execution of the new Massachusetts law:

We assert that either Mr. Ham, the Deputy Chief of Police, knew that the alleged crime had been committed, or he did not know it. If he knew that there was a sale of "mixed liquors," it was a sale to some person, and Mr. Rice, the defendant, has a right to know the name of the person, in order to meet the charge. But the secret of this illegal style is this. The informers and promoters of these prosecutions are unwilling to state the names of the drinkers of "mixed liquor," and desire to keep the real charge secret until at the trial some unknown "*informer*,"—a fellow with *red pimples on his nose*, perhaps,—takes the stand, and earns his reward by swearing to a charge of which the defendant was never notified, and which he was totally unprepared to meet. But this will not do, even under this odious law.

Another thing in Mr. Ham's procedure, which is characteristic of meanness, and which we feel called upon to denounce, is his manner of selecting witnesses. His pimps furnish him with a list of names of men who use liquor *without disguise*—some of them servants of the parties prosecuted—and he compels them to take the stand and give reluctant testimony. Why not summon the aldermen and the police to do this dirty work, and not impose it upon *gentlemen* who regard it as ignominious? It is just the office for a mean man, &c.

Well, if mean men are wanted, just call down the man with the red pimples on his nose, from the other paragraph. But seriously, "gentlemen who use liquor without disguise," are the very best of witnesses—for they are neither pimps nor informers, hypocrites nor spies.

Officer Ham has struck in the right place. If the law is weak, the strong men are the proper persons to break it down. If it is strong enough to hold them, the small fry will soon be disposed of.

☞ The indictment in the liquor case of Paran Stevens, in the Boston Police Court, was quashed on Tuesday.

Mr. Justice Russell very promptly and summarily declared the complaint to be fatally defective, and said the defendant must be discharged for that cause.

The defect was in charging the defendant with selling 'spirituous or intoxicating liquor,' thus rendering the complaint uncertain, and without the required definite, positive charge.

The complaint was therefore ordered to be quashed, as it was so fatally defective that judgment could not be entered.

The cases of the other defts. were all similarly adjudged and discharged.

THE VIRGINIA ELECTION.—It is now generally conceded that Mr. Wise is elected Governor of Virginia. The N. Y. Express says of the result:

The fact is, Virginia has not been trying "Sam"—but has confounded him with "Sambo," and so have thrashed him. The efforts of the Democracy to identify the two Myths has been successful and complete. Virginia for seventy years has voted one way,—and will so vote,—till railroads cut into her, and telegraphic lightning strike down her political prejudices and passions.

In New Bedford, Mass., the Mayor announces his determination to enforce the new law. The Common Council voted, 22 to 1, to co-operate with him.

We hear it stated that the liquor dealers in New Bedford have very generally closed their bars. One store had bottles exhibited at the windows, shrouded in crape. The New Bedford Standard thinks this is "a testimonial of respect to the *departed spirits*."

EXTRADITION.—The Boston Bee says:—The law under which paupers are occasionally re-shipped to their European homes, was not the work of the American party, and has not been enforced by them alone. But, no matter who made it, it is a good law, and such an one as every State should have. We have foreigners enough here, without being encumbered with the presence of individuals who can produce nothing, but whose powers of consumption are on the grand scale. The Courier indulges in some sympathetic remarks on the attachment of the Irish to their aged relatives, grandfathers, grandmothers, and so forth, whom they bring over here, but who not unfrequently become paupers. We shall never be found wanting in admiration of the attachment of the Irish to their old or ailing relatives, but our admiration is somewhat qualified by the fact that they are ever ready to allow the American public the honor and privilege of paying their little bills. A family, consisting of a dozen persons, whose ages range from eight to eighty years, will all go to the almshouse at the approach of winter, with as much readiness as people with a sense of self-respect developed go to their regular abodes. At the very time that they do this, they will probably have five hundred dollars or more stowed away against a rainy day, though what can constitute such a day in their estimation it would be very difficult for even a Yankee to guess.

SOUTHERN CHURCHES.—The Boston Bee says:

Rev. Dr. Styles, agent of the Southern Aid Society, presented the claims of that Society at the Old South Church on Sunday evening. His object was to get money (not ministers) from the North, to sustain the ministry at the South. He said that the South had a great destitution of ministers, and had not received her proportion of Home Missionary aid. The subject, he said, was a delicate one to handle at the North. The delicacy all lay in this, that the South would not receive the Northern ministers preaching the whole gospel, but would like to receive our money to support a pro-slavery ministry of her own.

CITY FARM AND ALMS-HOUSE.

The following correspondence between the Superintendent and several citizens, will show in what estimation he is held by those who are best qualified to judge.

PORTSMOUTH, May 12th, 1855.

MR. DANIEL P. SCOTT—*Dear Sir*:—Understanding that an unfortunate disagreement in the two branches of our municipal government is likely to deprive the city of your services in a position which you have lor several years filled with marked ability, and to general acceptance, it has occurred to us that this injury to the city might be avoided by making up to you the deficiency in your salary. This deficiency we propose to make up. We do this the more readily, as while we hope it will secure the services of a faithful and valuable officer, it affords us an opportunity of signifying to you our high appreciation of your services and those of your family, in a situation surrounded by difficulties and multiplied responsibilities.

We enclose you one hundred dollars, which you will please receive as a well deserved addition to your salary the current year, and as a token of our personal respect.

CHAS. W. BREWSTER,	

PORTSMOUTH, May 25th, 1855.

GENTLEMEN:—Your letter of the 12th instant, enclosing one hundred dollars, intended as an addition to my salary as Superintendent of the City Farm the current year, and as a token of your personal respect, has been received.

Although by no means indifferent to this addition to my salary, which I have endeavored to deserve, yet I esteem such voluntary testimony in my favor as accompanied it, from gentlemen of your character and position, of more value.

In signifying to you that your liberal contribution and kind encouragement have induced me to give to the city my best services for the current year, I take occasion to assure you that I shall always cherish for each of you a grateful recollection of this proof of your personal regard.

I am, gentlemen, your obedient servant,

DANIEL P. SCOTT.

To Messrs. C. S. Toppan, J. S. Harvey, and others.

POLICE COURT.—Samuel Waldron and George E. Smart, charged with an assault upon one Chase Gray, were brought before the Police Court yesterday afternoon by the marshal. Some evidence was introduced to prove that the assault was mutual, and Justice Parker thereupon discharged the respondents. I. B. Claggett Solicitor for the State, J. W. Towle for defendants.

After the above case was disposed of, Patrick Adams, Timothy Donnovan and John Leary, were jointly arraigned upon complaint for an aggravated assault upon one Croney, on the night of the 28th inst. It was proved that the respondents struck the said Croney upon the head with a stone, and kicked him in the side and breast. The counsel for the defendants discovering that he had no sufficient defence, was willing to submit the matter without argument to the Court. Justice P. thereupon bound the respondents over to the next Court of Common Please, each in the sum of $100. I. B. Claggett Solicitor for the State, W. H. Y. Hackett for the defendants.

SAGAMORE HOUSE.—By an advertisement in another column, it will be seen that the above named popular summer resort will be opened next month, for the accomodation of the lovers of ocean scenery. Mr. John Mack, formerly of the Rockingham House in this city, has been engaged as an assistant, which is of itself a sufficient guarantee that the welfare of the visitors will be properly looked after.

RUNNING ROUND BOSTON COMMON.—Pedestrianism is taking this turn just now. On Saturday evening last, a man named French ran round the Common in six minutes and two seconds. One of his competitors was only a few a few yards behind him.

IN WHAT ESTIMATION IT IS HELD BY PUBLIC MEN.—HON. NATHL P. WILLIAMS, formerly Collector of the Port of Baltimore, Md., writes, "I have *never*, since the autumn of 1834, (*nineteen years.*) been without the VEGETABLE PULMONARY BALSAM, having found it *superior to all other* preparations, for my constitution, in attacks of sore throat, hoarseness, colds, and severe coughs, to which I have been subject from youth."

[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills. If taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

SAGAMORE HOUSE,
FROST'S POINT.

THE Proprietor of the above House respectfully announces to the pleasure-seeking public that he will open for the season on WEDNESDAY, June 20th.

To those familiar with the locality of the Sagamore House, not a word is necessary in regard to its beautiful and healthful situation.—To strangers seeking rest and recreation by the seaside it affords attractions unequalled. Situated on a point of land on the Atlantic shore, near the Harbor of Portsmouth, the windows on three sides overlook the salt water. From the beach, the broad Atlantic, the Isles of Shoals, the beautiful Piscataqua, and the City of Portsmouth form a charming prospect, and in the background the green fields and leafy woods present a relieving contrast.

The House will be kept in the best manner, and every endeavor will be used to give satisfaction to its guests. The more effectually to do this, the proprietor has secured the services of Mr. JOHN MACK, formerly of the Rockingham House, Portsmouth, whose experience and skill in hotel keeping will be a sufficient guarantee to all who know him that the management will be all that could be desired. The Table will be supplied with all the seasonable luxuries of the sea and land, and every effort used to render a sojourn at the Sagamore agreeable.

A Coach, in charge of an experienced driver, will run between the Sagamore House and the City of Portsmouth, two or three times a day, during the season, connecting with the several railroad trains. Fare 25 cents. All orders left at Wm. R. Preston's, in Portsmouth, will receive prompt attention.

TO THE PUBLIC GENERALLY.

HAVING noticed in the Daily Chronicle an advertisement signed by one John Nelson, of Eliot, in the State of Maine, forbidding all persons to pass and repass in a certain road laid out across his land, for which road I and one Joseph Dixon have paid full damages as assessed by the selectmen of said town, and said road having been duly laid out by the selectmen and accepted by the town according to law—I would hereby give notice to all my friends and the public generally, that I give my full permission to all persons whomsoever to pass and re-pass in said road so far as I am concerned; and would also notify them that said road is a road which all the public have a right to use as has been decided in the State of New Hampshire and in Massachusetts. Neither John Nelson nor any other man can keep my friends and the public from using the same.—If any one wishes for further information, by calling on me I will give it to them.

UTICA, May 28.—Samuel M. Beckwith was killed at Hamilton this afternoon, while engaged in assisting to raise a bell at the congregational meeting house. A rope broke, and the bell was precipitated to the ground, carrying Mr. Beckwith with it.

RAILROAD BRIDGE BURNT.—The extensive railroad bridge at Fort Edward, Washington county, New York, belonging to the Saratoga and Washington Railroad Company, was entirely destroyed by fire on Friday afternoon. It is supposed to have been set on fire by the sparks of a locomotive. The bridge cost the company $50,000, and it is thought was not insured. Passengers are conveyed across the river at Fort Edward by means of wagons.

RICHMOND, May 28th.—We have returns from 110 counties officially, which give Wise 10,781 majority. The 32 counties to be heard from, gave Pierce 591 majority.

Irving House, New York.

THIS popular and well-known establishment has recently undergone thorough alterations, to meet the present change now occurring in the hotel system. It was reopened on MONDAY, May 21, on the EUROPEAN and AMERICAN PLAN combined, with the same elegant Dining Rooms as heretofore: with Table d'Hote in Ladies' Ordinary, which will be thrown open to the public from Chambers street and Broadway entrances. It is expected the Hotel will meet with the usual favor from the public; also from families and permanent boarders—as every attention will be paid to guests at moderate charges. The Irving House has been newly furnished and painted throughout, with various improvements added.

The whole to be conducted by Mr. WILLIAM H. BURROUGHS, who is well known for his skill and gentlemanly deportment, which is of itself a guarantee for its future success. The rooms will be charged for separately and prices governed according to size and location. my24 1w

Take this along with you.--'Tis just what you want.
The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,
As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says—"From the most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely—remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong. from Pa.
Rev. Thomas Kidder, Chaplain Vt. State Prison.
Rev. Chas. W. Dennison, Boston, Mass.
Rev. John Mathers, Jacksonville, Illinois.
Rev. J. Perry, D. D., Windsor, Vt.
Jas. C. Dunn, Esq., City Treasurer, Boston.
Fitzhenry Homer, Esq., Boston, Mass.
Wm. Gordon, Esq., formerly U. S. Deputy Marshal, New Bedford, Mass.

Doors open at 2 P.M. and 7 P.M., to commence at 2½ and 7½ o'clock.
It is impossible to do more than simply mention a few of the names of the various artists connected with this magnificent CIRCUS.
There are no supernumeraries—all are brilliant stars—a host individually, and when combined, form a troupe never before equaled in the world. The Proprietors feel confident the Public will appreciate their success in uniting as a company so much acknowledged talent.
MADAME TOURNIAIRE.—No lady in ancient or modern time, has ever equaled this accomplished Artist in the courage, beauty and finish of her exhibitions. Among other performances, she will ride six horses bare back, bounding from steed to steed, reigning and controlling her flying troupe, during their utmost speed, exhibiting feats of courage and horsemanship, never attempted by any female in this country. The fixed eye, anxious countenance and breathless suspense of the thousands of her audience in Paris, Rome, Vienna, London, New York, and the larger cities of the Union, wherein this magic Artist has performed—attest the high reputation of the greatest Lady Equestrian in the known world; she has never had her equal, nor will she until the Equestrian education of MLLE. JOSEPHINE, her favorite pupil, is completed, whose youthful grace and beauty, as well as talent, give strong promise of sharing the renown of her great preceptress; she will appear and confirm her growing reputation as a model rider.
MONS. BENOIT—The great Trick Rider, will appear in his Gymnastic and Equestrian performances, startling and amusing his audience with his feats of Horsemanship, and Light Balancing on Horseback, Cup, Ball, Plate Spinning, Stick Dancing, &c. This celebrated Artist, known to every child in the United States, as receiving the royal patronage of the Sovereigns of England, France, Russia and Austria, has been secured by B. B. & Co., to add, if possible, to the various other attractions presented.
FERDINAND and THEODORE, in their astonishing and daring feats. Master Theodore is the greatest rider of his age in the world.
Mr. A. F. LYMING—The great Flying Cord performer will exhibit his skill in a variety of Aerial Gyrations on the cords volante.
Mr. SAM WELSER—The great Hippocopdrical Descriptor, will appear as Clown. This simple announcement is sufficient, for who has not heard of Sam, the original Clown in this country and among other grotesque fantastics, will introduce his "Magic Hat."
The stupendous Persian feats called LA PERCHE, will be performed by W. J. Smith & Rogers.
Bathone Lewis and Tumbling by the Company, with a general variety of Entertainments, the whole exhibiting one of the most amusing and instructive Entertainments ever witnessed in this country, my26 d5tw2t

Morning Chronicle.

BROOKLINE.—The beautiful town of Brookline, has for many years, been troubled with a large liquor and billiard saloon, kept by one Stone. On Saturday night last, he shook hands with his old customers, bade them good bye, vacated the premises, and has left for parts unknown to us. This was one of the oldest liquor establishments in that region, and there is great rejoicing among the order-loving inhabitants of the place at this result. There were probably some tears shed by his old patrons, but a little *sober* reflection will lead them to be merry over the affair, and it may be the means of saving some of them from a life of dissipation.

We are informed that the selectmen are determined that the law shall be strictly enforced.—*Telegraph.*

ETIQUETTE.—The National Intelligencer has a correspondent who produces a series of numbers on this subject:

1. Before you bow to a lady in the street, permit her to decide whether you may do so or not, at least by a look of recognition.

2. "Excuse my glove," is an unnecessary apology; the glove should not be withdrawn to shake hands.

3. When your companion bows to a lady, you should do the same. When a gentleman bows to a lady in your company, always bow to him in return.

THE OLDEST CHIME IN THE UNION.—The chime of bells in Christ Church, Boston, Mass., was first rung on December, 31st. 1754, and has announced the approach of each successive year for a century. It is said that the man who put up the bells, and who had come over in the same vessel with them, refused any compensation for his labor, but requested they might be tolled muffled, at his death, which was accordingly done in his case, and also that of his wife.

INCREASE OF RATES.—The Boston Courier says, the Boston & Maine and Eastern Railroads are in treaty for an equal division of earnings from all competing points, with tariffs so improved that both corporations can receive a much larger revenue than at present. The preliminaries of the arrangement have been mutually submitted to the skilful judgment of Messrs. John Howe and Wm. Appleton. This judicious movement has probably caused the recent rise in the prices of the shares of the Eastern and Maine Railroads.

FASHIONABLE INTELLIGENCE.—The Madison Patriot in the following paragraph makes a successful and satirical parody on a class of newspaper announcement:

Personal.—The industrious wife of C——H—— has been cleaning house during the past week. The wish of her husband is that the job may be safely and speedily completed.

Mrs. Oliver Taft, a widow lady, about 40 years of age, hung herself to a tree in the woods near her house in Uxbridge, Mass., on Friday night. She left two children, aged 9 and 7 years, a girl and a boy. No cause is assigned for this act particularly, but she had appeared somewhat sad for a few days past. Her husband died about two years since and left her in very comfortable circumstances.

THE DUTCH LANGUAGE.—The Dutch spoken in Holland at this time, and that in use among those of Dutch descent in this country, differ in many respects. The language of the modern Hollanders at home is a sort of new dialect, whereas that spoken by the Dutch in the United States is that which was employed a couple of centuries ago, at the time of the immigration.—*New York Sunday Times.*

Four hundred thousand bushels of wheat and corn are stored by one firm at Chicago, enough to fill forty vessels such as navigate the Lakes.

DID NOT RECEIVE IT.—We are informed from a responsible source that our friend Capt. Job Terry, the late member of the Legislature from Freetown, who invariably voted nay on most questions before the House, did not receive a single penknife during the entire session.—*New Bedford Standard.*

An interesting breach of promise case was tried in the Cincinnati court on Friday last. The parties were Miss Mary Hedrick and Henry Protzman. The jury, after half an hour's deliberation, gave a verdict in favor of the lady for $7000.

A physician in large practice was asked a few days since, if New York was healthy. He replied unusually so; the extravagant cost of provisions has checked the disposition for overfeeding, from which, ordinarily, we derive most of our practice!"

The Institutions at Deer Island, Boston, are so full that it is impossible to accomodate any more at present.

Mr. Joseph Sturge has presented the Corporation of Birmingham with eight acres of grass land for a public recreation ground.
